The Honorable Jim Cooper  
U.S. House of Representatives  
1536 Longworth House Office Building  
Washington, DC 20515  

Dear Colleague:

Pursuant to House Rule 25, clause 5(d)(2), the Committee on Ethics hereby approves your proposed trip to Boston, Massachusetts, scheduled for May 10 to 14, 2019, sponsored by the Aspen Institute, Inc., with financial support from the Henry Luce Foundation, the Rockefeller Brothers Fund, and the Democracy Fund. We note that this trip includes one day at your personal expense.

You must complete a Member/Officer Post-Travel Disclosure Form and file it, together with a Sponsor Post-Travel Disclosure Form completed by the trip sponsor, with the Clerk of the House within 15 days after your return from travel. As part of that filing, you are also required to attach a copy of this letter and both the Traveler and Primary Trip Sponsor Forms (including attachments) you previously submitted to the Committee in seeking pre-approval for this trip. You must also report all travel expenses totaling more than $390 from a single source on the “Travel” schedule of your annual Financial Disclosure Statement covering this calendar year. Finally, Travel Regulation § 404(d) also requires you to keep a copy of all request forms and supporting information provided to the Committee for three subsequent Congresses from the date of travel.
If you have any further questions, please contact the Committee’s Office of Advice and Education at extension 5-7103.

Sincerely,

Theodore E. Deutch

Welcome to MIT
Pre-dinner Remarks
Founded in 1861, Massachusetts Institute of Technology is one of America’s premier institutions of higher education. With 7,000 graduate students and 5,000 undergrads, it is poised to make a significant mark in the fields of artificial intelligence and advancements of the digital age with its new $1 billion commitment to a College of Computing, set to open in September. The new College, with 50 new faculty positions, will work across MIT’s existing five schools as part of a campus-wide effort to integrate computing and AI more deeply into the curriculum. MIT President L. Rafael Reif will welcome the group with this appropriate backdrop of MIT as the venue for our policy discussions.

Privacy in the Digital Age: The Future Outlook
Apple CEO Tim Cook has described privacy as a “fundamental human right.” How private industry puts into practice the concepts of privacy on electronic devices whose signals can be transmitted globally both deliberately and inadvertently poses challenges for policymakers. Douglas Beck will give an industry perspective on this intersection of an important American value in light of exponentially expanding technological capability.

**THE BENEFITS AND HAZARDS OF ARTIFICIAL INTELLIGENCE ON TRANSPORTATION, HEALTH CARE, NATIONAL SECURITY, MANUFACTURING & THE WORKFORCE**

Artificial Intelligence has the potential to have significant impact in numerous sectors of society. This session will survey the landscape of what machine learning can have for changes ahead brought about by utilization and expansion of this technology in wider and wider dimensions of everyday life.

*Hal Abelson, Education Director, MIT Internet Policy Research Initiative*

**10:45 AM – 12:30 PM**

*Roundtable Discussion*

**ARTIFICIAL INTELLIGENCE, ALGORITHMS, FAIRNESS, AND THREATS TO PRIVACY**

Today’s online society is increasingly shaped by automated decision-making systems using algorithms and artificial intelligence learning models. These models are developed by individuals and companies from a particular subset of our society and may not represent a fully accurate or fair view of the world. Mathematical models that increasingly intersect citizens in their daily activities are developed by human beings and they can reflect hidden or deliberate biases. Machines, rather than humans, are making complex and morally difficult decisions on behalf of programmers, with consequences for free speech and nuanced thought. These same machines may even come to learn more about the individuals than the individuals know themselves. This unregulated new era of “Big Data” has implications for privacy and fairness that may require federal attention.

- How does this use of algorithms and Big Data impact citizens in areas such as hiring practices, job performance ratings, and credit scores, etc?
- Are there built-in inequities that should be taken into account?
- Does government have a role in alerting consumers to threats to their privacy?

*Joy Buolamwini, Founder, Algorithmic Justice League & PhD student, MIT Media Lab*

*Cathy O’Neil, author, Weapons on Math Destruction: How Big Data Increases Inequality and Threatens Democracy*
12:30 PM – 1:15 PM  
*Working Lunch*

Discussion continues between members of Congress and scholars regarding future technologies and their implications for privacy.

1:15 PM – 3:00 PM  
*Roundtable Discussion*

**THREATS TO DEMOCRACY IN THE DIGITAL AGE**

Four subtopics deserve focus: surveillance, election integrity, misinformation and disinformation, and digital manipulation for malevolent purposes. The explosion of public cameras, done for security purposes, has the potential to change the relationship between citizen and state. Nothing is more essential to the protection of democracy than fair and free elections. Yet, as the U.S. becomes more and more digitized and connected, as hackers take aim at our processes, and as foreign entities try to influence our elections, the integrity of the electoral process is jeopardized. The ease with which anyone can now manipulate information and images digitally opens up new realms of vulnerability with unknowable consequences.

- What actions can and should the U.S. Congress take to protect our freedoms and democratic rights with this explosive power of the Digital Age?
- Are citizen’s rights infringed by the preponderance of public cameras?
- Will artificial intelligence enable a new era of state surveillance of citizens?
- Should online companies be subject to greater levels of liability, e.g., for defamation? If so, would these be onerous restrictions of a heavy-handed government limiting free speech or legitimate efforts to protect the public from harmful abuse?
- To what degree should governments be involved in monitoring or even regulating the spread of mis- and dis-information on the internet?
- What are the consequences for digitally spreading falsehoods?
- How do the boundaries of responsible free speech fit the Digital Age?
- Is freedom of expression in the digital world at odds with the maintenance of civic discourse?

6:30 PM – 9:00 PM  
*Working Dinner*

Seating is arranged to expose participants to a diverse range of views and provide the opportunity for a meaningful exchange of ideas. Scholars and lawmakers are rotated daily. Discussion will
focus on the opportunities, challenges, and potential solutions regarding the future of democracy in the 21st Century.

**SUNDAY, MAY 12**

**7:00 AM – 8:00 AM**

Breakfast is available

**8:15 AM – 10:00 AM**

*Roundtable Discussion*

**CONSUMER’S CONSENT AND CONTROL OF ONLINE INFORMATION**

In our modern world, data is key. But who actually owns the data and when or how one consents to having their data collected are disputable topics. For example, once an individual’s data has been harvested and processed, through either voluntarily or involuntarily online interactions, it can be put to use in targeted consumer marketing campaigns, campaign advertisements, and individualized sales pitches. While individuals’ comfort with these techniques varies, one thing is certain: marketing will never be the same. The explosive power of artificial intelligence is being harnessed for commercial advantage, which can be either advantageous or disadvantageous to the consumer depending on what perspective is held.

- Does consumer use of social media expose them to the risk of exploitation?
- Is there a federal role to protect consumers from unwanted solicitations?

**10:00 AM – 11:00 AM**

*Roundtable Discussion*

**PROTECTING THE DRIVE FOR INNOVATION WITHIN THE BOUNDARIES OF THE NEED FOR REGULATION**

Our economy is increasingly dependent on the Internet. Social media entities are incentivized to increase their user base. The major digital companies spent over $60 million in 2018 in lobbying and consolidation in the digital industry has raised questions about the power of dominant major players. Do the practices of the economies of scale serve consumer interest, or is the potential of market dominance to the detriment of consumer choices and costs?

- What role does the federal government have in restraining the emergence of dominant major players in this industry?
- What can be done to enhance privacy protections?
- Are consumer concerns adequately taken into account by the industry?
- Do citizens have a right to conduct business online without leaving a digital footprint?

*Larry Downes, Project Director, Georgetown Center for Business and Public Policy*
11:00 AM – 12:45 PM
Roundtable Discussion

**BIG DATA’S END GAME: THE USE AND ABUSE OF CONSUMER DATA**

Though not specified directly in the Constitution, privacy has emerged as a basic human right. Many feel that they have lost control over their personal information. They have. Those who collect information about their online users own it, not the customer. Some have called for personal ownership of the information about them. In Europe, there is a “right to be forgotten,” which requires online search companies to delete information that a court decides should be forgotten. In the U.S. we have relied on the Federal Trade Commission to protect privacy against unfair practices and state law. But the European Union’s General Data Privacy Regulation, and now the state of California, have imposed greater privacy protections for online behavior than previously required. (For example, Google was fined $57 million by French regulators for breaking the GDPR rules.) One solution is to require digital companies to be “information fiduciaries” with a duty of care not to harm users.

- Do citizens have a right to maintain and control publicly available data about themselves?
- Is there a need to delineate legal boundaries on data use to protect privacy?
- What controls should Congress allow users to retain?
- Is it time for a federal privacy law for the online world?

**EXPLORING PRIVACY IN THE PAST, PRESENT, AND FUTURE**

The legal and social boundaries of privacy have changed over time, and are based on different assumptions in different cultures and societies. Concepts about privacy rooted in the Constitution may need updating in this era of widespread digital communications with implications for federal legislators.
