Dear Colleague:

Pursuant to House Rule 25, clause 5(d)(2), the Committee on Ethics hereby approves your proposed trip to Delavan and Milwaukee, Wisconsin, scheduled for October 12 to 15, 2019, sponsored by Bipartisan Policy Center. We note that this trip includes one day at your personal expense.

Committee travel regulations require that you submit your complete pre-trip approval request to the Committee at least 30 days before the commencement of the trip or it will not be granted. Despite your failure to do so in this instance, we are approving your current request. However, any future requests should adhere to the 30-day requirement.

You must complete a Member/Officer Post-Travel Disclosure Form and file it, together with a Sponsor Post-Travel Disclosure Form completed by the trip sponsor, with the Clerk of the House within 15 days after your return from travel. As part of that filing, you are also required to attach a copy of this letter and both the Traveler and Primary Trip Sponsor Forms (including attachments) you previously submitted to the Committee in seeking pre-approval for this trip. You must also report all travel expenses totaling more than \$390 from a single source on the "Travel" schedule of your annual Financial Disclosure Statement covering this calendar year. Finally, Travel Regulation § 404(d) also requires you to keep a copy of all request forms and supporting information provided to the Committee for three subsequent Congresses from the date of travel.

If you have any further questions, please contact the Committee's Office of Advice and Education at extension 5-7103.

Sincerely,

Addendum - Primary Trip Sponsor Form

Item 4. Representative Xochitl Torres Small:

Representative Xochitl Torres Small represents New Mexico's 2nd Congressional District and she is currently serving in her first term. Rep. Torres Small serves on the House Armed Services Committee and Homeland Security Committee. Her district shares many commonalities with Wisconsin's 1st Congressional District, as well as differences that will provide her a more national insight into critical issues relevant to Congress.

Issues important to Rep. Torres Small, such as tourism, agriculture and food processing, advanced manufacturing, and distribution/logistics/transportation, are also of great importance to WI-1 and Rep Bryan Steil. Several visits on this trip will provide Rep. Torres Small a different perspective on those topics, including visits with the local tourism industry, farmers and food processors, and local manufacturing operations. Rep Torres Small has expressed an interest in innovative approaches to economic development, which will be on display in WI-1 during several visits with local businesses, many of which have a global reach. Consequently, these visits will also be relevant to trade and tariff policy, which has gained increasing attention from Congress during the current administration. Relevant to agriculture, NM-2, like WI-1, is home to vast dairy production, implicating federal agriculture policy.

Paloma Perez: Paloma Perez serves as Rep. Torres Small's communications director. In much the same ways that the meetings and site visits on this trip will further Rep. Torres Small's understanding of critical issues for her district and the nation, so too will they further Perez's understanding of these critical issues and enhance her ability to support Rep. Torres Small in her representational capacities. Perez will gain a deeper understanding of trade and tariff policy, agriculture and dairy, economic development and competitiveness, manufacturing, and tourism. Because Perez's role involves supporting Rep. Torres Small in a communications function across all policy areas, each of these and more are relevant to her official duties.

4:30-5:00 Arrive Apple Barn Orchard & Winery, W6384 Sugar Creek Rd., Elkhorn to meet with Steve & Judy Jacobsen, owners. Ask for Judy or Jodi.

This six-generation orchard was once primarily a vibrant dairy operation. Today, the 40 acres of fertile soil has been changed into an orchard with 4,000 apple trees with several varieties. The barn and milk house were converted into cold storage and processing areas including a cider facility. The orchard also grows strawberries, pumpkins, peaches, spearmint, peppermint, and supplies corn, soybeans, and alfalfa to local dairy farms.

5:00-5:15 Drive to Pearce's Farm Stand, W5740 N. Walworth Rd., Walworth

5:15-5:45 Visit Pearce's Farm Stand. Contact: Karen Pearce

Meet with the Pearce family to learn about this 4th generation farm, although farming has been conducted on this land since 1848. With a combined 2,000 acres, Pearce's mainstay is corn but also grows a variety of produce including zucchini, beets, basil, tomatoes, leeks, winter squash, cucumbers, dill, pumpkins, and green beans.

7:30-8:45 a.m. Breakfast with Mark Freitag, Janesville City Manager; City Council President Richard Gruber; John Beckord, president, Forward Janesville; Gale Price, City of Janesville Economic Development Director; Jane Blain Gilbertson, owner & president, Blain's Farm and Fleet; Rhonda Suda, CEO, Southeast Wisconsin Workforce Development Board.

This meeting will provide Reps. Torres Small and Steil with a general overview and history of southern Wisconsin's economy and the challenges it has faced during a long period of decline in manufacturing output, and how the region has taken steps to reinvent itself. From 1919-2008, Janesville had a GM Assembly Plant that made light-duty trucks and sport utility vehicles. Today, through partnerships between local/county government and the business community, Janesville is taking a targeted approach to economic and job development by focusing on six main sectors: advanced manufacturing, business services & technology, food processing & technology, health care & medical technologies, logistics and supply chain, and value-added agriculture. Rep. Torres

Small's New Mexico 2nd District also faces economic challenges and while the main industries are energy, aerospace, defense, and tourism, there are also growing sectors that are similar to WI-1 including food processing, advanced manufacturing, and distribution/logistics/transportation.

1. Welcoming Remarks and What it's like to be from Janesville (home/business); Jane Blain Gilbertson, Owner and President of Blain's Farm and Fleet
2. Janesville's Rebound 2008-Present; John Beckord, President of Forward Janesville (Chamber of Commerce)
3. Workforce Development 2008-Present; Rhonda Suda, CEO of Southwest Wisconsin Workforce Development Board
4. Current Development Projects/Trends; Gale Price, Economic Development Director for the City of Janesville
5. Janesville Moving Forward; Rich Gruber, City Council President

8:45-9:00

Drive to SSI Technologies, LLC; 3200 Palmer Dr., Janesville
Leading original equipment manufacturer of the highest quality and most reliable pressure, level and magnetic sensors, sensor-based monitoring systems, digital pressure gauges, and digital level gauges for the automotive and industrial market.

9:00-10:00

Tour and meeting with SSI Technologies.
Matthew J. Weber, General Manager

SSI technologies is a leading original equipment manufacturer founded and headquartered in Janesville, WI. The company has approximately 700 employees, and operates from three facilities in Janesville with over 400,000 square feet of combined manufacturing and office space. The company manufactures and supplies the highest quality and most reliable pressure, level and magnetic sensors; sensor-based monitoring systems; digital pressure gauges; and digital level gauges for the automotive and industrial market. SSI Technologies has multiple overseas operations and its products are sold across the globe. In 2015 expanded operations into the Usti region of the Czech Republic by building a 60,000 square foot manufacturing facility to better serve its European customer base.

The visit to SSI technologies will be an opportunity for Rep. Torres Small to learn about an important business to the local economy and a significant employer. Relevant to issues that may come before the House for consideration are the impact of trade and tariff policies, U.S.-European Union relations, employer-provided health care costs, tax policy, and employment and labor issues. The visit would include a tour of plant

operations and opportunities to meet with executives and employees to discuss a variety of important issues to them.

10:00-10:15 Drive to Seneca Foods Corp., 418 E. Conde St., Janesville

10:15-11:15 Seneca Foods Tour & meeting. Integrated fruit and vegetable processing, warehouse, distribution.

Paul Palmby, Executive V.P. & COO

Seneca foods is an integrated fruit and vegetable processing, warehousing, and distribution company. With operations across the United States, Seneca produces seeds, harvests crops, manufactures its own containers, and provides a wide range of nutritious fruit and vegetable products to the market. Its produce is sourced from over 2,000 American farms— supporting family farmers. The Janesville, WI location is a 1.2 million square foot facility that employs approximately 450 full time and 250 seasonal employees.

The visit to Seneca Foods will be an opportunity for Rep. Torres Small to learn about an important business to the local economy and a significant local and national employer. It will also be relevant to her representational duties to her home district, New Mexico's 3rd Congressional District, which is home to diverse agricultural operations and the world class College of Agricultural, Consumer, and Environmental Sciences at New Mexico State University. New Mexico's 3rd Congressional District includes thousands of farms and ranches, and is responsible for some of the nation's largest supplies of pecans, chili peppers, and onions.

At Seneca, Rep. Torres Small will have an opportunity to learn more about the integration of growing, processing, and distribution of agricultural products. The visit will include a short presentation about the company and its facility in Janesville followed by a tour led by Paul Palmby, Executive VP & COO.

11:15-11:50 Drive to Rick & Marlene Adams Farm, N5624 County Rd. O, Elkhorn

11:50-12:40 p.m. Dairy farm visit, Karen Gefvert, Executive Director, Wisconsin Farm Bureau

Dairy and dairy products bring significant cash receipts into NM-2. In addition, there is a thriving beef industry. Beef and dairy depend on New Mexico's third largest agrarian pursuit — all types of hay, especially alfalfa, corn silage, sorghum, green chop and grain corn. Cattle and dairy raisers participate in three starkly different value chains: local, domestic and export.

The two members whose districts depend on high-value agriculture products will discuss trade/tariffs and the impact that federal policy has for

local farmers in WI-1 and across the country. They will also talk about the future of smaller family farms, the development of niche organic markets, and the changing use of technology on farms.

12:40-1:00 Drive to Pier 290 Restaurant, 1 Liechty Dr., Williams Bay,

1:00-2:20 p.m. Working lunch and tour with VISIT Lake Geneva (COC).

Tourism is a major part of the NM-2 economy and this Land of Enchantment is filled with National Parks and Monuments and other protected wilderness areas. There are also cultural sites and historic Native American dwellings that can shape the experience of visitors.

WI-1 has a different set of tourism assets, that often revolve around water; whether that be Lake Michigan, rivers, or smaller lakes like Geneva. The resort town of Lake Geneva is dotted with Gilded Age mansions, many built by wealthy Chicagoans as their summer homes. The picturesque lake also has hiking trails, sailing and power boat facilities, as well as a myriad of hotels, restaurants, golf courses, and other entertainment. The area is a year-round destination as it converts to skiing, ice-skating, and ice boating.

The two members will meet with the VISIT Lake Geneva staff and a few of their members for a roundtable discussion of how Lake Geneva has worked to improve its transportation infrastructure (and use of federal dollars) so that visitors from its two primary markets (Chicago and Milwaukee) can more easily get to this leisure destination.

3:25-5:15 S.C. Johnson, & Son, Inc. Tour and meetings
Contact: Heather Berlinski

S.C. Johnson is a multinational privately held manufacturer of household cleaning supplies and other consumer chemicals, headquartered in Racine. The company, founded in 1886, has over 3,000 employees in Racine and makes many well-known brands such as Shout, Windex, Ziploc, Glade, Raid, Off!, Pledge, Fantastik, and Drano. The consumer

products include those in car care, floor care, household cleaning/scent products, food storage, pest control, and shoe care.

The visit will consist of three parts. First, a meeting with the S.C. Johnson executive and strategic teams to discuss global trade issues, education and workforce training and the balancing of environmental regulations with the need to use safe chemicals in consumer products.

Rep. Torres Small represents a district with much oil and gas drilling operations and the use of chemicals is an issue for her constituents – many of whom work in these industries and live nearby them. Both members have a great interest in workforce issues and making sure that today's curriculums will provide the necessary tools for young people to move into the jobs of tomorrow.

Second, we will visit the manufacturing activities at S.C. Johnson and the two members will learn about innovations being employed through the use of technology and supply chain management.

Finally, Reps. Torres Small and Steil will tour the famous Frank Lloyd Wright-designed buildings on the S.C. Johnson campus including the Research Tower, Administration Building, and the Foster + Partners-designed Fortaleza Hall. Wright's buildings are known for their open floor plan concept, use of steel and concrete in nonutilitarian buildings, and walls of windows that pull nature close.

3:25-3:35, Check-in with security, guests escorted to Admin. Bldg.

3:35-4:15, Welcome presentation and discussion. Topics to include: TSCA, PRIA reauthorization, trade, addressing plastic waste.

Participating from S.C. Johnson will be: Fisk Johnson, Chairman & CEO; Kelly Semrau, SVP, Global Corporate Affairs; Communication & Sustainability; Jim Ladwig, Senior Director, Community Affairs; Christopher Pearce, Government Relations; and Heather Berlinski, Manager, Government Relations.

Item 12: *Bipartisan Policy Center*: The Bipartisan Policy Center is a non-profit organization that combines the best ideas from both parties to promote health, security, and opportunity for all Americans. BPC drives principled and politically viable policy solutions through the power of rigorous analysis and painstaking negotiation.

As a Washington, D.C.-based think tank that actively promotes bipartisanship, BPC works to address the key challenges facing the nation. Our policy solutions are the product of informed deliberations by former elected and appointed officials, business and labor leaders, and academics and advocates who represent both ends of the political spectrum. We are currently focused on such issues as health, energy, national security, the economy, financial regulatory reform, housing, immigration, infrastructure, and governance.

While a healthy, civil debate among those with differing viewpoints is an essential component of our democracy, the current partisan tone in government is impeding progress. BPC is focused on how to overcome political divides and help make our government work better.

Regardless of deep policy disagreements, Congress must operate with mutual respect, decency, and civility which are foundational to forging collaborative solutions. While there are disparities and regional differences, as elected officials, members of Congress all have a responsibility to address challenges confronting their constituents and the nation, as well as strengthen the institution itself.

The American Congressional Exchange (ACE) Program is a systematic approach to building better relationships and bipartisanship in Congress. ACE is focused on members of the U.S. House of Representatives and is built upon three precepts:

- To develop trust, Members of Congress must listen to one another to understand what it is that motivates them and concerns them.
- Once they listen to each other, they often learn they actually have more in common than meets the eye – and if they can see each other in that vein, impactful legislation can be achieved.
- A shared experience based on close interaction can be what brings Members of Congress together to take action on behalf of the American people.

The central goal of ACE is to build connections and trust, which will create conditions for intentional negotiation and compromise on issues of importance to the participants' constituencies as well as the nation. The trips will increase mutual understandings, and further collaboration on policy matters and legislation. Additionally, as a result, Congress will operate

more effectively. BPC representative will accompany traveler on the trip to provide logistics and coordinate functioning of meetings, events, and site visits.

Square One Foundation (*Grantmaking Trip Sponsor*): Square One is a Chicago-based foundation focused on economic development, education, and Congressional reform issues. It takes a specific interest in finding ways for Members of Congress to engage in bipartisan activities. Square One will play no role in organizing or conducting the trip.

15. b. 2

Wisconsin's 1st Congressional District will provide numerous opportunities for Representative Xochitl Torres Small and Paloma Perez to gain a deeper understanding of a number of issues regularly before Congress and relevant to her representational duties to New Mexico's 2nd Congressional District.

Rep. Torres Small and Perez will have the opportunity to meet with local civic and business leaders to learn about economic development and efforts to renew the southern Wisconsin economy. Business leaders will also be able to speak to the impact of federal policy on economic competitiveness, the ability to do business outside the United States, rising health care costs, and employment and labor issues. Rep. Torres Small's district, like WI-2, depends on high-value agriculture products, and she and Rep Steil will have the opportunity to discuss trade/tariffs and the impact that federal policy has for local farmers in WI-1 and across the country. They will also talk about the future of smaller family farms, the development of niche organic markets, and the changing use of technology on farms. Tourism is important to both NM-2 and WI-1. This trip will be an opportunity for Rep. Torres Small and Perez to learn about a different set of tourism assets that often revolve around water; whether that be Lake Michigan, rivers, or smaller lakes. Rep. Torres Small and Perez will also learn about small and large manufacturing operations in WI-1, which is also relevant to NM-2's economy.

4:30-5:00

Arrive Apple Barn Orchard & Winery, W6384 Sugar Creek Rd., Elkhorn to meet with Steve & Judy Jacobsen, owners.

This six-generation orchard was once primarily a vibrant dairy operation. Today, the 40 acres of fertile soil has been changed into an orchard with 4,000 apple trees with several varieties. The barn and milk house were converted into cold storage and processing areas including a cider facility. The orchard also grows strawberries, pumpkins, peaches, spearmint, peppermint, and supplies corn, soybeans, and alfalfa to local dairy farms.

5:00-5:15

Drive to Pearce's Farm Stand, W5740 N. Walworth Rd., Walworth

5:15-5:45

Visit Pearce's Farm Stand. Contact: Karen Pearce.

Meet with the Pearce family to learn about this 4th generation farm, although farming has been conducted on this land since 1848. With a combined 2,000 acres, Pearce's mainstay is corn but also grows a variety of produce including zucchini, beets, basil, tomatoes, leeks, winter squash, cucumbers, dill, pumpkins, and green beans.

Check out of hotel and drive to Forward Janesville, 14 S. Jackson St., Suite 200 at top of stairs, (large conference room). Contact: Mark Freitag.

7:30-8:45 a.m.

Breakfast with Mark Freitag, Janesville City Manager; City Council President Richard Gruber; John Beckord, president, Forward Janesville; Gale Price, City of Janesville Economic Development Director; Jane Blain Gilbertson, owner & president, Blain's Farm and Fleet; Rhonda Suda, CEO, Southeast Wisconsin Workforce Development Board.

This meeting will provide Reps. Torres Small and Steil with a general overview and history of southern Wisconsin's economy and the challenges it has faced during a long period of decline in manufacturing output, and how the region has taken steps to reinvent itself. From 1919-2008, Janesville had a GM Assembly Plant that made light-duty trucks and sport utility vehicles. Today, through partnerships between local/county government and the business community, Janesville is taking a targeted approach to economic and job development by focusing on six main sectors: advanced manufacturing, business services & technology, food processing & technology, health care & medical technologies, logistics and supply chain, and value-added agriculture. Rep. Torres Small's New Mexico 2nd District also faces economic challenges and while the main industries are energy, aerospace, defense, and tourism, there are also growing sectors that are similar to WI-1 including food processing, advanced manufacturing, and distribution/logistics/transportation.

1. Welcoming Remarks and What it's like to be from Janesville (home/business); Jane Blain Gilbertson, Owner and President of Blain's Farm and Fleet
2. Janesville's Rebound 2008-Present; John Beckord, President of Forward Janesville (Chamber of Commerce)
3. Workforce Development 2008-Present; Rhonda Suda, CEO of Southwest Wisconsin Workforce Development Board
4. Current Development Projects/Trends; Gale Price, Economic Development Director for the City of Janesville
5. Janesville Moving Forward; Rich Gruber, City Council President

8:45-9:00

Drive to SSI Technologies, LLC; 3200 Palmer Dr., Janesville
Leading original equipment manufacturer of the highest quality and most reliable pressure, level and magnetic sensors, sensor-based monitoring systems, digital pressure gauges, and digital level gauges for the automotive and industrial market.

9:00-10:00

Tour and meeting with SSI Technologies.
Matthew J. Weber, General Manager.

SSI technologies is a leading original equipment manufacturer founded and headquartered in Janesville, WI. The company has approximately 700 employees, and operates from three facilities in Janesville with over

400,000 square feet of combined manufacturing and office space. The company manufactures and supplies the highest quality and most reliable pressure, level and magnetic sensors; sensor-based monitoring systems; digital pressure gauges; and digital level gauges for the automotive and industrial market. SSI Technologies has multiple overseas operations and its products are sold across the globe. In 2015 expanded operations into the Usti region of the Czech Republic by building a 60,000 square foot manufacturing facility to better serve its European customer base.

The visit to SSI technologies will be an opportunity for Rep. Torres Small to learn about an important business to the local economy and a significant employer. Relevant to issues that may come before the House for consideration are the impact of trade and tariff policies, U.S.-European Union relations, employer-provided health care costs, tax policy, and employment and labor issues. The visit would include a tour of plant operations and opportunities to meet with executives and employees to discuss a variety of important issues to them.

10:00-10:15

Drive to Seneca Foods Corp., 418 E. Conde St., Janesville

10:15-11:15

Seneca Foods Tour & meeting. Integrated fruit and vegetable processing, warehouse, distribution.

Paul Palmby, Executive V.P. & COO.

Seneca foods is an integrated fruit and vegetable processing, warehousing, and distribution company. With operations across the United States, Seneca produces seeds, harvests crops, manufactures its own containers, and provides a wide range of nutritious fruit and vegetable products to the market. Its produce is sourced from over 2,000 American farms— supporting family farmers. The Janesville, WI location is a 1.2 million square foot facility that employs approximately 450 full time and 250 seasonal employees.

The visit to Seneca Foods will be an opportunity for Rep. Torres Small to learn about an important business to the local economy and a significant local and national employer. It will also be relevant to her representational duties to her home district, New Mexico's 3rd Congressional District, which is home to diverse agricultural operations and the world class College of Agricultural, Consumer, and Environmental Sciences at New Mexico State University. New Mexico's 3rd Congressional District includes thousands of farms and ranches, and is responsible for some of the nation's largest supplies of pecans, chili peppers, and onions.

At Seneca, Rep. Torres Small will have an opportunity to learn more about the integration of growing, processing, and distribution of agricultural products. The visit will include a short presentation about the company and its facility in Janesville followed by a tour led by Paul Palmby, Executive VP & COO.

11:15-11:50 Drive to Rick & Marlene Adams Farm, N5624 County Rd. O, Elkhorn

11:50-12:40 p.m. Dairy farm visit, Karen Gefvert, Executive Director, Wisconsin Farm Bureau.

Dairy and dairy products bring significant cash receipts into NM-2. In addition, there is a thriving beef industry. Beef and dairy depend on New Mexico's third largest agrarian pursuit — all types of hay, especially alfalfa, corn silage, sorghum, green chop and grain corn. Cattle and dairy raisers participate in three starkly different value chains: local, domestic and export.

The two members whose districts depend on high-value agriculture products will discuss trade/tariffs and the impact that federal policy has for local farmers in WI-1 and across the country. They will also talk about the future of smaller family farms, the development of niche organic markets, and the changing use of technology on farms.
