Dear Colleague:

Pursuant to House Rule 25, clause 5(d)(2), the Committee on Ethics hereby approves your proposed trip to Israel,¹ scheduled for February 19 to 27, 2022, sponsored by American Israel Education Foundation.

This approval represents the Committee's determination that the proposed trip complies with relevant House rules, federal laws, and Travel Regulations promulgated by the Committee. You should engage in your own assessment of the risks and implications of engaging in travel during the current COVID-19 pandemic.

You must complete a Member/Officer Post-Travel Disclosure Form and file it, together with a Sponsor Post-Travel Disclosure Form completed by the trip sponsor, with the Clerk of the House within 15 days after your return from travel. As part of that filing, you are also required to attach a copy of this letter and both the Traveler and Primary Trip Sponsor Forms (including attachments) you previously submitted to the Committee in seeking pre-approval for this trip. You must also report all travel expenses totaling more than \$415 from a single source on the "Travel" schedule of your annual Financial Disclosure Statement covering this calendar year. Finally, Travel Regulation § 404(d) also requires you to keep a copy of all request forms and supporting information provided to the Committee for three subsequent Congresses from the date of travel.

Because the trip may involve meetings with foreign government representatives, we note that House Members may accept, under the Foreign Gifts and Decorations Act (FGDA), gifts "of minimal value [currently \$415] tendered as a souvenir or mark of courtesy" by a foreign government. Any tangible gifts valued in excess of minimal value received from a foreign government must, within 60 days of acceptance, be disclosed on a Form for Disclosing Gifts

¹ Please be aware that the Committee's review of the proposed trip does not extend to either the security situation in the destination country or security related to foreign travel in general. We recommend you contact the Office of House Security (OHS) for a safety and security briefing prior to your departure. OHS may be reached at (202) 226-2044 or ohsstaff@mail.house.gov. House travelers should also register for the U.S. State Department's Smart Traveler Enrollment Program at <https://step.state.gov>.

Strategic Survey of Jerusalem I: The Historic and Holy Basin

Guided survey of the Old City of Jerusalem:

- City of David (Ze'ev Orenstein)

- Western Wall
- Church of the Holy Sepulchre

Jerusalem

Throughout its 4,000-year history, the city of Jerusalem has changed hands many times. As home to the world's three great monotheistic religions — Judaism, Christianity and Islam — Jerusalem is probably the most disputed city in history. Today, the status of Jerusalem remains the most contentious issue in the Arab-Israeli conflict. Jerusalem has been at the heart of all Israeli-Palestinian negotiations. To understand the current political issues, it is critical to understand Jerusalem's history and the role it has played in shaping the Middle East. This seminar will include site visits to various locations in and around Jerusalem to give participants a first-hand look at the historic significance of the city, as well as its geographic layout.

Old City of Jerusalem & the Holy Basin

The Old City of Jerusalem is home to the holiest shrines of the three monotheistic religions, including the Temple Mount, the Church of the Holy Sepulcher, and the Al-Aqsa Mosque. During the Camp David II talks, the Palestinians and Israelis differed on the Jerusalem question, namely the Old City, the status of Arab neighborhoods just outside the Old City, and religious sites such as the Temple Mount.

The Holy Basin is the historic location of Jerusalem and refers to the land surrounding the Old City, including the Mount of Olives, which is believed to be the departure point for Jesus' final entry into Jerusalem and where Jews have been burying their dead for 2,500 years. The Holy Basin also includes the Western Wall, Judaism's holiest site, and the Temple Mount (Haram al-Sharif), sacred ground for Jews, Muslims, and Christians. Control over these sensitive areas remains among the largest disputes in the Middle East.

The professionally guided survey will walk through all of these sites and others, educating trip participants on their historical impact and their role in today's political discussions.

The City of David

The Israeli-Palestinian conflict has consumed an enormous amount of time and manpower from members of consecutive American Administrations as well as members of Congress. One of the most intractable issues in the conflict has been the question of the future of Jerusalem. Jerusalem's City of David, more than any other site, represents the complexity of this conflict.

The City of David is the site most archeologists agree to be the ancient city of Jerusalem that later became the capital of the united Israelite tribes under King David. This area is one of the most intensively excavated sites in the wider region. To Jewish Israelis, the site represents the beginning of their physical and emotional attachment to Jerusalem that has continued for over three thousand years.

At the same time, much of the site is located in the predominantly Arab neighborhood of Silwan. The residents of Silwan, and the Palestinian Authority leadership are opposed to the archeological efforts being carried out in the City of David. In several instances, homes in Silwan were purchased and then destroyed to open up more areas for excavations. Additionally, Palestinian leadership has denied in their official statements the existence of any Jewish connection to Jerusalem.

Remembering the Victims of the Holocaust
Guided survey of Yad Vashem Holocaust Memorial and Museum

Yad Vashem

One cannot understand Israel's position on Iran's nuclear program without understanding the trauma of the Holocaust. Israelis view threats to its destruction in light of the events of the 1930s and 1940s, when the German government's threats to exterminate the Jewish people were not taken seriously by the international community. This museum provides an important reference point as to how Israelis interpret the threat of an Iranian nuclear program and Iranian leaders committed to Israel's destruction.

Yad Vashem, the Holocaust Martyrs' and Heroes' Remembrance Authority, was established in 1953 by an act of the Israeli Knesset. Since its inception, Yad Vashem has been entrusted with documenting the history of the Jewish people during the Holocaust period, preserving the memory and story of each of the six million victims, and imparting the legacy of the Holocaust for generations to come through its archives, library, school, museums and recognition of the Righteous Among the Nations. Located on Har Hazikaron (the Mount of Remembrance) in Jerusalem, Yad Vashem is a sprawling complex of museums, exhibits, archives, monuments, sculptures, and memorials.

Every foreign leader that travels to Israel visits Yad Vashem. Yad Vashem has become a symbol of the Jewish people and its transformation from total helplessness to self-reliance and strength.

Thus, a visit to Yad Vashem provides a historical context for the Jewish state. The museum's professional docent will guide the group through the main exhibit hall and the children's memorial.

*Strategic Survey of Jerusalem II:
The Security Barrier and Outlying Neighborhoods*

Security Barrier

After scores of suicide bombings and daily terrorist attacks against its civilians launched following the breakdown of the Camp David II talks, Israel began construction of a security barrier near the pre-1967 "Green Line" between Israel and the West Bank to prevent Palestinian terrorists from infiltrating into Israeli population centers. Since its construction began, the number of attacks declined by more than 90% and the number of Israelis murdered and wounded decreased by more than 70% and 85%, respectively. The barrier is approximately 455 miles long. To Israel, the security barrier serves as a necessary obstacle to protect its people. To the Palestinians and others in the world, the barrier represents a physical and symbolic divide.

This seminar will survey the security barrier at different points along its route to see first-hand the barrier's construction, the operation of crossing points in and out of Palestinian areas, and the technology that facilitates its operation. Both en route to the barrier and at the barrier itself, the group will explore the competing arguments raised by the Israelis, Palestinians and the international community.

Meeting with Roni Keidar
Resident, Moshav Netiv Ha'Asarah
-at Netiv Ha'Asarah

Living Under the Threat of Rocket Fire: Life in the Gaza Envelope

Since 2001, Israeli communities bordering the Gaza Strip have been living under the threat of rocket fire. Since the Israeli withdrawal from the Gaza Strip in 2005 and the Hamas takeover of the Gaza Strip in 2007, the volume, range and accuracy of the rockets has only increased. The summer of 2014 witnessed Operation Protective Edge, which returned the issue of rocket fire from Gaza to international headlines. Most recently, Israel engaged in Operation Guardian of the Walls, to thwart another barrage of rocket attacks from Hamas in Gaza.

During the visit to Kibbutz Netiv Ha'asara, participants will better understand the reality of living just kilometers from Israel's border with Gaza, where residents have endured almost 20 years of

rocket fire, and more recently Hamas "terror tunnels". The group will hear how residents have sought to cope with the threat on their doorstep, both physically and psychologically.

Debrief: Operation Guardian of the Walls

In May 2021 Israel responded to a barrage of rocket fire from Hamas in Gaza with Operation Guardian of the Walls. Over 11 days, thousands of rockets were fired from Gaza at innocent civilians in Israel; and Israel responded by targeting strategic Hamas positions within the Gaza Strip. During this debrief, Lt. Col. Shefler will provide an overview of the operation and the Israel Defense Force's strategy to combat Hamas terrorism.

3:30 PM *Missile Defense Cooperation: US-Israel Strategic Cooperation I*
Visit to Iron Dome battery

The Iron Dome

The Iron Dome is an important piece of Israel's multi-tiered defense system. The Iron Dome is designed to intercept and destroy short-range rockets whose trajectory would take them to populated areas in Israel. It has been reported that the system is able to shoot down approximately 90% of the rockets launched from Gaza that would otherwise hit populated areas. A visit to an Iron Dome battery includes meeting with the soldiers and the commanding officer, and learning how the system works to protect innocent civilians.

team. In this position, he is on the front lines of many of Israel's most pressing diplomatic, legal and policy challenges. He is a veteran negotiator, and key behind the scenes representative, for Israel in a wide variety of contexts. During this session, he will address the prospects for peace in the current political climate. He will also discuss the complex challenges that have prevented a final status agreement thus far.

10:00-11:00 AM *Israel's Narrow Waistline*
Overlook at Alfei Menashe

Israel's Narrow Waistline

Alfei Menashe is a Jewish community located on the western edge of the West Bank. Less than 10 miles from the Mediterranean Sea, Alfei Menashe provides a unique vantage point to discuss Israeli settlement policy, the routing of the security barrier, as well as Israel's narrow waistline.

The sliver of Israeli land west of the West Bank is often referred to as the Hadera-Gadera rectangle, with the city of Hadera denoting the northern point, and the city of Gadera the southern point. The Hadera-Gadera rectangle is home to over 50 percent of Israel's population, as well as civilian infrastructure. The area is also home to Israel's "silicon valley", as well as Ben Gurion international airport.

The discussion at Alfei Menashe will allow participants to see firsthand the proximity of Jewish and Arab neighborhoods in both Israel and the West Bank; as well as the strategic threats faced by the Israeli population living in Israel's narrow waistline.

11:00 AM Depart

11:30 AM-12:30 PM *En route briefing:*
The Jezreel Valley – Strategic Land Bridge connecting Africa and Asia

The Jezreel Valley – Strategic Land Bridge connecting Africa and Asia

Our tour guide will spend an hour during the drive from Israel's center to the north to provide the delegation a briefing on the Jezreel Valley and the Upper Galilee and the challenges facing these regions of the country.

For thousands of years, the Jezreel Valley served as a land bridge linking Africa, Asia and Europe, and serving as a thoroughfare for ancient caravans and, more frequently, armies. In modern times, during World War I, for example, the British and Turkish forces fought a number of pitched battles in the valley. In 1948, following Israel's establishment, the combined forces of Iraq and Jordan attempted unsuccessfully to capture the valley in order to split the just-born Israel into two parts. In the early 20th century, after decades of neglect, Jewish pioneers drained the swamps in the valley, transforming this region into Israel's "breadbasket" known for wheat, cotton, sunflowers and fish ponds. The Jezreel Valley is also home to historical and biblical sites including Tel Megiddo and Nazareth.

Today it is an important symbol of Israel's complex and diverse political reality. The Jezreel Valley, together with the areas of the Lower and Upper Galilee, is home to the majority of Israel's Arab citizens. A survey of this area provides an opportunity to discuss and learn about Israel's Arab citizens – 20 percent of the population – each of which has full democratic, social and welfare rights, the right to vote and serve in the Knesset, and the opportunity to serve on Israel's Supreme Court. These issues are not widely known and this segment gives trip participants the opportunity to understand Israel's relationship with its largest minority group.

Northern Border Concerns I: Hezbollah in Lebanon

Lt. Col. (Res.) Sarit Zehavi served 15 years in the IDF in Military Intelligence –first in the Research and Analysis Branch, and later in the Northern Command. During her military service she briefed hundreds of delegations, ranging from U.S. Senators, Congressmen and politicians to global military commanders, senior journalists and visiting VIP delegations. She is the founder/director of Alma, an educational research center focusing on the security issues of Israel's northern border. Zehavi has authored many position papers focusing on Lebanon, Syria and Israel's national security challenges, and continues to brief delegations on these topics. She holds an MA in Middle East Studies from Ben Gurion University and is a resident of the northern Galilee region. She will brief the group on the current threats facing Israel by Iranian backed Hizballah in Lebanon.

3:15-4:00 PM *The Hezbollah Tunnel Threat*
 Visit to tunnel
 -at Zarit

The Hezbollah Tunnel Threat

Virtually all of southern Lebanon is a maze of underground bunkers, rocket-launching sites, and interconnected tunnels built by the Iranian-backed Hezbollah terrorist organization. Hezbollah is the most powerful terrorist organization in the world, stronger than most national armies. They receive around \$700 million annually from Iran, along with advanced weapons, training, and political support. During this visit, members will have the opportunity to go into a Hezbollah tunnel discovered by the Israel Defense Forces, to see firsthand this terrorist army poses to Israel and the region.

Israeli-Arab Civil Society

Approximately 22% of Israeli residents are part of the non-Jewish minority, which includes, among others, Muslims, Christians, and Druze. As a liberal, democratic state, Israel is rooted in liberty, the rule of law, free and fair elections, and full civil rights for all citizens. Our speaker, Mohammad Darawshe is currently the director of planning, equality and shared living at Givat Haviva Educational Institute—a non-profit organization founded in 1949 as the national education center of the Kibbutz Federation in Israel. His focus throughout his career is promoting coexistence and quality among Israel's Jewish and Arab-Palestinians citizens. He will discuss the current challenges facing minority groups in Israel, as well as ways the government of Israel and NGOs seek to address these challenges.

7:30-9:00 PM *Dinner and Discussion*

Dinner and Discussion

We will use this dinner as an opportunity to discuss the speakers and topics we have been exposed to thus far. As part of the seminar's focus on the complex religious fabric of Israeli society, the group will be visiting several of the most sacred sites for Christians in the Holy Land. Included is a guided survey and discussion of some of the most important events in the life of Jesus by the Sea of Galilee. Just as strategic surveys in Jerusalem focused on Jewish, Muslim, and Christian history and claims to the land, the site visits to the Christian sites help provide context for the competing religious narratives for the land of Israel. For example, we will be visiting the Mount of Beatitudes, where Jesus delivered the Sermon on the Mount, the most studied and read speech of any religion in history. Our guide will also lead discussions through Capernaum and St. Peter's Church.

Shulman was raised in Kibbutz Merom Golan near Israel's border with Syria, where one of his favorite jobs was herding the kibbutz cattle. Shulman served in the IDF's paratrooper's unit, rising to the position of company commander. He holds a BA in Israel and Middle East Studies. Reflections on the Sabbath in Jerusalem

Israel, the only Jewish country in the world, boasts the unique tradition of honoring the Jewish Sabbath from Friday sundown until Saturday sundown. 80 percent of the Israeli population will commemorate the Sabbath, in various forms, which typically include a family dinner and special blessings. The Sabbath is especially significant in Jerusalem, home to the holiest site for Jews worldwide - the remains of the First and Second Temple.

The dinner will include a discussion on the importance of Jerusalem to the Jewish, Christian and Muslim populations; the potential for a final status agreement on Jerusalem (arguably the most sensitive final status issue); and the diplomatic challenges faced by Israel and the United States regarding Israeli urban development in the area.

Jericho Road and the E-1 Corridor: Strategic Concerns*

Jericho Road and the E-1 Corridor: Strategic Concerns

On the drive from Jerusalem to Masada, the group will travel on the highway known as the "Jericho Road" is the strategic importance of the area east of Jerusalem. In 1948 and in 1967, the Jordanian army attacked Jerusalem from the east – the 1948 attack resulted in the city's division that lasted until 1967. Since then Israel has established the City of Ma'ale Adumim east of Jerusalem, today home to some 40,000 residents. To the Palestinians, however, Ma'ale Adumim is the largest settlement on the West Bank. When Israel attempted to expand Ma'ale Adumim's boundary, into an area known as "E-1", the U.S. State Department stepped in and asked that no construction take place there. The issue needs to be examined with those discussing the future of Jerusalem in the context of the Israeli-Palestinian negotiations.

8:45 AM

*History and Geopolitics of the Roman Empire
Guided survey of the National Archeological Park at Masada*

History and Geopolitics of the Roman Empire

Masada, which was excavated in the 1960s, is considered one of the most important archeological sites in Israel. Masada was the site of the last stand of the Jews in Israel after the Romans destroyed Jerusalem and the Holy Temple in 70 A.D. A group of Jewish zealots fled to the Judean Desert and lived in the former mountaintop fortress of King Herod known as Masada for two years resisting the onslaught of the most powerful army in the world. Determined to break the resistance, the Romans finally scaled the mountain to capture and enslave the Jewish rebels. However, when they finally arrived, they found that all the men, women and children had killed themselves as a last act of defiance. They refused to give in to the Romans and become their slaves.

The ancient story of Masada has important contemporary relevance for the modern State of Israel. "Masada shall never fall again" has become the watchword of the country which has faced existential threats since its founding in 1948. Israel's elite military units, for example, are sworn in on top of Masada in a symbolic act of defiance against Israel's contemporary enemies. These soldiers along with the thousands of Israeli school children who visit Masada each year learn the lesson that Israel should never become so weak again that it would ever face national suicide as an option.

We will spend approximately two hours atop of Masada with a professional guide. The time at Masada with the guide is focused on three areas: 1. touring the ancient excavations; 2. learning the narrative of Jewish resistance to the Romans backed by the archeological and historical evidence; 3. discussing the importance of the Masada story to the contemporary Middle East and the threats in the region.

Exploration of the Dead Sea Region

Exploration of the Dead Sea Region

During our drive to and from the Dead Sea area, as well as during our visit to the Dead Sea, our tour guide will discuss a variety of issues integral to understanding the region, the country, and relations with both the Palestinians and Jordanians.

It is important to note that the region is mostly desert. For decades, Israel has been challenging this arid area and developing its agricultural potential. While the Middle East is suffering from water shortages, Israel, through modern technology and water conservation policies, including the recycling of over 80 percent of water used for domestic purposes and transferring it to agriculture, has literally “made the desert bloom.” Some of this technology is already being shared with Jordan and the Palestinian Authority. All sides realize that a comprehensive regional water policy will ensure food production necessary to satisfy the Middle East’s growing population. For example, in late 2013, the three parties agreed to build a Red Sea-Dead Sea water project to address the shortage of fresh, clean water in the region and the rapid loss of water at the Dead Sea. This highlights the growing importance for Israel and her Arab neighbors to work together on joint environmental projects.

The key regional players also face serious environmental issues in the Dead Sea region. One of the major environmental concerns is the receding of the Dead Sea and the appearance of sinkholes, which cause the earth above to collapse. Roads, fields and buildings have collapsed due to this phenomenon, and experts are concerned the tourist infrastructure along the Jordanian and Israeli shores of the Dead Sea are also in danger. This issue has led to unprecedented cooperation between Israelis, Jordanians and Palestinians and serves as a model for regional cooperation.

The Church of the Nativity in the city of Bethlehem is located just three miles from Jerusalem but is under full control of the Palestinian Authority. It is separated from Jerusalem by a security barrier and those traveling between Jerusalem and Bethlehem need to pass through a border checkpoint. By visiting Bethlehem, participants witness firsthand Palestinian self-rule. They also observe how the border checkpoint operates – this is especially important because each day

thousands of Palestinians enter through such checkpoints on their way to work in Israel. Additionally, the New Testament identifies Bethlehem as the birthplace of Jesus, making it one of the most significant religious sites in the world.
