Dear Colleague:

Pursuant to House Rule 25, clause 5(d)(2), the Committee on Ethics hereby approves your proposed trip to Brazil,¹ scheduled for October 1 to 5, 2024, sponsored by the Climate Solutions Foundation.

You must complete a Member/Officer Post-Travel Disclosure Form and file it, together with a Sponsor Post-Travel Disclosure Form completed by the trip sponsor, with the Clerk of the House within 15 days after your return from travel. As part of that filing, you are also required to attach a copy of this letter and both the Traveler and Primary Trip Sponsor Forms (including attachments) you previously submitted to the Committee in seeking pre-approval for this trip. You must also report all travel expenses totaling more than \$480 from a single source on the "Travel" schedule of your annual Financial Disclosure Statement covering this calendar year. Finally, Travel Regulation § 404(d) also requires you to keep a copy of all request forms and supporting information provided to the Committee for three subsequent Congresses from the date of travel.

Because the trip may involve meetings with foreign government representatives, we note that House Members may accept, under the Foreign Gifts and Decorations Act (FGDA), gifts "of minimal value [currently \$480] tendered as a souvenir or mark of courtesy" by a foreign government. Any tangible gifts valued in excess of minimal value received from a foreign government must, within 60 days of acceptance, be disclosed on a Form for Disclosing Gifts from Foreign Governments and either turned over to the Clerk of the House, or, with the written approval of the Committee, retained for official use.

¹ Please be aware that the Committee's review of the proposed trip does not extend to either the security situation in the destination country or security related to foreign travel in general. We recommend you contact the Office of House Security (OHS) for a safety and security briefing prior to your departure. OHS may be reached at (202) 226-2044 or ohsstaff@mail.house.gov. House travelers should also register for the U.S. State Department's Smart Traveler Enrollment Program at <https://step.state.gov>.

If you have any further questions, please contact the Committee's Office of Advice and Education at extension 5-7103.

Sincerely,

Michael Guest
Chairman

Question # 4

The Climate Solutions Foundation invited Members due to their interest and commitment to long-term climate change goals. As a bipartisan organization, it is critical to our mission to have representation of as many U.S. Congressional leaders from across the political spectrum participate in intergovernmental meetings. Bringing a congressional delegation to Foz do Iguazu, Brazil to participate in meetings hosted by the Clean Energy Ministerial (CEM) and Mission Innovation (MI) forums, in conjunction with the Brazil Presidency's G20 Energy Summit, will provide Members with an opportunity to get a head start on dialogues happening during the UN's Conference Of Parties (COP) meetings in 2025 in Brazil. Members of Congress will have the opportunity to participate in high-level global forums with world leaders, climate scientists and academics, and corporate executives. These forums will include discussions on public private partnerships, programs that advance clean energy technology, best practices, and challenges of accelerating clean energy economy action plans.

15-minute drive

9:15 AM – 10:00 AM BT **Attend GCAP Opening Fireside Chat**
Grand Ballroom, Grand Carima Resort and Convention Center

The Global Climate Action Partnership (GCAP), formerly known as LEDS Global Partnership, is a global accelerator of knowledge and solutions that lead the way to climate resilient and low-carbon development. It is a platform driven by climate leaders in Africa, Asia, and Latin America and the Caribbean that enables collaborative and ambitious climate action, peer learning, and innovation. GCAP fosters country leadership and regional communities that enable the transformational changes needed for low-carbon and climate-resilient development.

GCAP is primarily funded by the U.S. Department of State Office of Global Change through the U.S. Department of Energy. GCAP's Global Secretariat is coordinated by the U.S. Department of Energy National Renewable Energy Laboratory (NREL). Three regional platforms in Latin America and the Caribbean, Africa, and Asia coordinate regional activities and partner with leading organizations to supplement funding for specific activities.

The focus of GCAP's Thursday programming is accelerating implementation actions to meet existing climate goals set by Nationally Determined Contributions (NDCs) and Long-Term Strategies (LTSs) through financing mechanisms, policy and regulatory changes, multi-stakeholder collaboration, and replication of good practices. This fireside chat will feature lessons learned from NDC and LTS implementation in several countries, including efforts to mobilize climate finance.

Moderator: **Joanne Manda**, GCAP Steering Committee Chair

Speakers: **Feliz William Fuentebella**: Undersecretary, Department of Energy, Philippines
Amudi Chioma Felistas, National Desk Officer for NDC/LT-LEDs, Council on Climate Change, Nigeria
Berit von Kurnatowski, Deputy Director of the IKI Division, Germany's Federal Ministry for Economic Affairs and Climate Action

10:00 AM – 10:30 AM BT **Meeting with Chioma Felistas Edeh, and Felix William Fuentebella**
Grand Ballroom, Grand Carima Resort and Convention Center

Chioma Felistas Edeh is the National Desk Officer for Nationally Determined Contributions (NDCs)/Long-Term Low-Emission Development Strategies (LT-LEDs) for the Nigerian Council on Climate Change. She also serves as First Chair for the African Climate Action Partnership Steering Committee.

Feliz William Fuentebella is the Undersecretary for Planning, Investment, Media Affairs, and Spokesperson of the Department of Energy (DOE) of the Philippines. Before joining DOE, he served two nonconsecutive terms in the Philippine House of Representatives from Camarines Sur. He has also served as leader of the Philippines' Power and Renewable Energy programs and as the Deputy Secretary General of the Housing and Urban Development Coordinating Council.

In this meeting, we discussed how their countries are being impacted by climate change and how they balance the need for economic growth with pressure to limit emissions. The discussion also touched on their hopes for COP29 and COP30.

10:30 AM – 12:00 PM BT

Participate in 1 of 2 Sessions Hosted by GCAP

Option 1: Meeting Road Transport Decarbonization Goals Through Standards & Targets

Option 2: Harnessing Clean Energy for Rural Transformation and Advancement of Nationally Determined Contributions (NDCs)

Reps. Garbarino and Joyce participated in the discussion on rural transformation and Reps. Carbajal and Chavez-DeRemer participated in the discussion on road transportation decarbonization goals.

Option 1: Meeting Road Transport Decarbonization Goals Through Standards and Targets

Significantly decarbonizing road transport by 2050 will require a rapid global transition to zero-emission vehicles (ZEVs), along with other measures. More and more governments and manufacturers are committing to this transition, but meeting climate goals will require a broad expansion of such commitments, especially in the Global South. Policy is needed to turn these aspirations into reality and enable coordination among all stakeholders. This session will focus on the options governments have and how can they be successfully implemented in diverse countries to promote a rapid, cost-effective, and equitable transition. Participants will have an opportunity to exchange on global commitments and target setting; development of effective standards and regulations; and other policy approaches governments are successfully applying to spur the ZEV transition.

Option 2: Harnessing Clean Energy for Rural Transformation and Advancement of Nationally Determined Contributions (NDCs)

Attendees will have the opportunity to discover how the productive use of energy (PUE) can drive economic growth, improve quality of life, bolster community resiliency, and enhance rural electrification programs. This session will equip attendees with strategies for implementing PUE projects that contribute to sustainable development and NDC goals. Expect interactive discussions, real-world case studies, and collaborative activities.

Lunch and Discussion on Securing Clean Energy Financing for Hard-to-Abate Sectors: Can Transport Lead the Way?

Doubletree by Hilton

Members attended a lunch focused on hard-to-abate sectors. Attendees at this event included corporate executives, scientists, and academic representatives. This convening was designed to facilitate a high-level conversation about what is needed to propel green investment in hard-to-abate sectors, with a focus on aviation. The luncheon focused on the required investments, regulatory frameworks, and various climate finance initiatives emerging from both public and private sectors through various collaborations. The event explored these aspects from the perspectives of both the public and private sectors, as well as through the lens of public-private partnerships. This lunch directly relates to CSF's mission of bringing public and private sector representatives together to discuss climate change.

8:45 AM – 9:30 AM BT **Meeting with Ricardo Mussa, CEO of Raízen**
Argentina Boardroom, JL Hotel by Bourbon

Raízen is the third largest Brazilian energy company by revenue and the fifth largest in Brazil. The company is a joint-venture formed in 2010 from the merger of the assets of sugar, fuel and ethanol derived from Cosan and Royal Dutch Shell in Brazil. Raízen has a network of 7,000+ fuel stations under the Shell brand spread throughout Brazil and Argentina, more than 1,000 convenience stores and an ethanol production of over 2.2 billion US gallons. After merging with Biosev, the company now has 35 ESB (ethanol, sugar, and bioenergy) plants, with a total crushing capacity of 105 million tonnes of sugar cane per year, while also boasting 3000 megawatts of installed electric power capacity produced from sugarcane biomass. Many of these plants were inherited from Cosan at the creation of the joint-venture, while several others were acquired from competitors as part of an expansion strategy.

In the fuel trade business, Raízen trades approximately 31 billion liters per year in both B2B through mainly the transportation and industrial sectors and B2C segments through its network of 7,000+ fuel stations across Brazil and Argentina. It aimed to certify just under 1 million hectares of affiliated sugarcane production area under the Bonsucro sustainability standard by 2020. In June 2021, Raízen officially registered for an IPO with Brazilian securities regulator CVM. In August, the company raised US\$1.3 billion, making it Latin America's biggest IPO.

Ricardo Mussa is the CEO of Raízen, the third largest Brazilian energy company by revenue. Before becoming CEO at Raízen in 2020, Mussa was CEO of Moove, the lubricants business of Raízen's shareholder company Cosan. He was also founder and CEO of Radar, a Cosan business dedicated to investing in agricultural land.

9:30 AM – 10:00 AM BT **Travel from JL Hotel to Itaipu Binacional**
30-minute drive

10:00 AM – 12:00 PM BT **Tour of Itaipu Binacional Power Plant**

We took part in an hour and a half long tour. The visit included a guided bus tour that stopped at multiple observation points and a walk through of the internal dam structure that generates the electricity.

The Itaipu Dam is a hydroelectric dam on the Paraná River located on the border between Brazil and Paraguay. It is the third largest hydroelectric dam in the world and holds the 45th largest reservoir in the world. The Itaipu Dam's hydroelectric power plant produced the second-most electricity of any in the world as of 2020, only surpassed by the Three Gorges Dam plant in China in electricity production. The project ranges from Foz do Iguaçu, in Brazil, and Ciudad del Este in Paraguay, in the south to Guaíra and Salto del Guairá in the north. It was completed in 1984.

This trip is organized by the Climate Solutions Foundation (CSF), a nonprofit organization dedicated to bringing together ideologically diverse Members of Congress, global leaders, and corporate and trade executives to discuss climate science, economics, and policy.

Clean Energy Ministerial, CEM, works to promote policies and programs that advance clean energy technology, to share lessons learned and best practices and encourage the transition to a global clean energy economy. CEM brings together a community of the world's largest and leading countries, companies and international experts to achieve one mission –accelerate clean energy transitions. Clean Energy Ministerial, CEM, provides an opportunity to further their education and understanding of the energy industry's current perspective and goals on developing climate policies.

CSF is handling all aspects of programming and engagement for the Members of Congress attending Clean Energy Ministerial, CEM, from October 2nd – 4th in Foz do Iguacu, Brazil.
