Question # 12

The Climate Solutions Foundation (CSF) was founded in 2019 as an educational, bipartisan 501(c)(3) non-profit organization. Our mission is to bring together ideologically diverse Members of Congress and their staff, global leaders, and corporate and trade executives to discuss climate science, economics, and policy. The Climate Solutions Foundation hosts a series of bipartisan, bicameral gatherings of members of Congress, congressional staff, executives, and scientists to build trust within the climate change community and inspire collaborative efforts to advance the agenda on climate change. Since then, CSF has expanded its programming to include domestic educational trips, international trips to the UN's (COP) convenings, congressional staff briefings, receptions, and a congressional fellowship program. The Climate Solutions Foundation is solely responsible for organizing and planning all aspects of the trip.

Question # 15-2

Participating with a bipartisan group of Members during NYC Climate Week is beneficial for Climate Solutions Foundation because it demonstrates a unified commitment to addressing climate change beyond political lines. This collaboration enhances credibility, broadens support for climate policies, and helps advance pragmatic, widely supported solutions. Engaging with diverse stakeholders also fosters more durable, inclusive climate action—key to building long-term momentum for clean energy and sustainability efforts. NYC Climate Week is in NYC, and it coincides with the United Nations General Assembly meeting and aims to bring leaders together to discuss climate issues
