The Honorable Pete Stauber
U.S. House of Representatives
145 Cannon House Office Building
Washington, DC 20515

Dear Colleague:

Pursuant to House Rule 25, clause 5(d)(2), the Committee on Ethics hereby approves your proposed trip to the Arena Energy, LLC's WFD 400 jack-up drilling rig at Main Pass 120 CA and the South Timbalier 37 oil & gas field, scheduled for March 11, 2026, sponsored by Arena Energy, LLC, and Veriten.

Committee travel regulations require that you submit your complete pre-trip approval request to the Committee at least 30 days before the commencement of the trip or it will not be granted. Despite your failure to do so in this instance, we are approving your current request. However, any future requests should adhere to the 30-day requirement.

You must complete a Member/Officer Post-Travel Disclosure Form and file it, together with a Sponsor Post-Travel Disclosure Form completed by the trip sponsor, with the Clerk of the House within 15 days after your return from travel. As part of that filing, you are also required to attach a copy of this letter and both the Traveler and Primary Trip Sponsor Forms (including attachments) you previously submitted to the Committee in seeking pre-approval for this trip. You must also report all travel expenses totaling more than \$525 from a single source on the "Travel" schedule of your annual Financial Disclosure Statement covering this calendar year. Finally, Travel Regulation § 404(d) also requires you to keep a copy of all request forms and supporting information provided to the Committee for three subsequent Congresses from the date of travel.

If you have any further questions, please contact the Committee's Office of Advice and Education at extension 5-7103.

Sincerely,

Michael Guest

Purpose of the Offshore Trip – March 11, 2026

As Chairman of the Energy and Minerals Subcommittee of the House Natural Resources Committee, Congressman Stauber and his team—specifically Desiree Koetzel (Chief of Staff) and Shawn Rusterholz (Director of Policy), are directly responsible for overseeing and legislating on issues related to American energy production on federal lands, including offshore activities. They are also directly responsible for oversight of key federal agencies involved in these areas, including the Bureau of Ocean Energy Management (BOEM) and the Bureau of Safety and Environmental Enforcement (BSEE).

Additionally, visiting platforms informs policy decisions by providing experiential insights into domestic energy reserves, production technologies, and economic benefits, like the billions in revenue generated from offshore activities. For instance, understanding the "positive impacts" of offshore development firsthand can bridge knowledge gaps, especially when crafting bills to support or reform the industry, as discussed in oversight hearings on U.S. energy dominance. These visits also facilitate engagement with operators and workers, gathering unfiltered input to balance stakeholder perspectives amid partisan debates over expansion or restrictions. Overall, it's a standard practice for subcommittees to go beyond Washington-based discussions for more effective governance of critical sectors like energy.

1. Firsthand Understanding of Operations

Seeing an offshore platform in person allows lawmakers to:

- Understand the scale and complexity of offshore drilling operations.
- Observe safety protocols, environmental protections, and technological innovations.
- Gain insight into logistical challenges, such as transportation, staffing, and emergency response.

This firsthand experience is far more impactful than reading reports or hearing testimony.

2. Informed Policy Decisions

The House Natural Resources Committee oversees legislation related to:

- Energy development on federal lands and waters
- Environmental protection
- Marine conservation

A site visit helps members make better-informed decisions about:

- Leasing policies
- Regulatory frameworks
- Environmental impact assessments

- Worker safety standards

3. Oversight and Accountability

Committee members have a responsibility to ensure:

- Compliance with federal laws and regulations
- Proper use of taxpayer resources
- Environmental stewardship

Visiting a platform allows them to evaluate whether companies are meeting these obligations.

Subject: Invitation to visit an Offshore Platform with Arena Energy

Dear Desiree,

On behalf of Arena Energy, LLC, I write to extend an invitation to Congressman Stauber for a trip to an offshore oil and natural gas production platform and the White Fleet Drilling 400 jack-up drilling rig located at Main Pass 120 and additionally to South Timbalier 37 in the Gulf of America on Wednesday, March 11, 2026. Helicopter transportation will be provided.

We were honored to host the Secretary of Interior on a similar trip last year and would note that we would need to initiate the House ethics clearance process for Congressman Stauber soon to ensure enough time for their review prior to the trip.

As background, Arena is one of the largest independent operators in the Gulf of America (GOA). We invest approximately \$250-300 million dollars in capital per year to produce (i) low emission, (ii) safe, and (iii) low-cost oil and natural gas in the shallow waters of the GOA. We currently operate 124 platforms and have 2 drilling rigs under contract, all in the U.S. GOA. Arena is the second most active oil and gas company in the GOA based on the number of wells drilled over the past ten years. Over the past twenty-four years, Arena has safely drilled more than 350 wells in federal waters on the Outer Continental Shelf with a success rate exceeding 94 percent. To date, Arena has also decommissioned over 300 wells and 45 platforms and other offshore structures in the GOA. Arena has paid in full every dollar of decommissioning costs for each of those wells and platforms; we have not passed a single dollar of decommissioning liability to the U.S. taxpayer. In everything we do, Arena prioritizes the health, safety, and welfare of our employees and contractors, and environmental responsibility, as our paramount concerns. Since inception in 1999, Arena has paid over \$1.6 billion in royalties to the U.S. government.

Arena would be honored to host the Congressman and any other members of his team to see first-hand the people, infrastructure and equipment that are integral to achieving American Energy Dominance.

Thank you for your consideration, and please do not hesitate to contact me to discuss this further.

Best regards,
