Attachment 2-Question 13:

The Foundation for Nuclear Studies, a 501(c)(3) nonprofit, provides information and educational opportunities for policymakers and the general public about nuclear science and technology, with the objective of promoting sound national policy.

In pursuit of its mission, the Foundation sponsors a highly regarded Congressional Briefing Series with forums on a broad spectrum of issues related to nuclear technology, ranging from medical isotopes to the transportation of nuclear materials. The events attract high-quality speakers and seek to provide a balanced presentation of differing perspectives.

In an effort to expand our programming, the Foundation is embarking on this trip as the first in a series of trips, in order to provide staffers with firsthand knowledge of a working plant. Through our briefing series on the events in Japan, the Foundation discovered that even staffers with a background in nuclear fields lack firsthand experience with nuclear plants and demonstrated a strong interest in being able to tour a facility.

This trip should provide those staffers with relevant experience to make better informed policy decisions as they perform their various roles on Capitol Hill.

Attachment 3-Question 17:

FNS selected Salem, NJ for this trip because it is home to the Salem-Hope Creek Power Plants. The trip will give the staff the opportunity to tour a working plant and its surrounding facilities.
