434 Cannon House Office Building
Washington, DC 20515

Dear Mr. Roshan:

Pursuant to House Rule 25, clause 5(d)(2), the Committee on Ethics hereby approves your proposed trip to Israel,¹ scheduled for August 4 to 12, 2018, sponsored by American Israel Education Foundation.

You must complete an Employee Post-Travel Disclosure Form (which your employing Member must also sign) and file it, together with a Sponsor Post-Travel Disclosure Form completed by the trip sponsor, with the Clerk of the House within 15 days after your return from travel. As part of that filing, you are also required to attach a copy of this letter and both the Traveler and Primary Trip Sponsor Forms (including attachments) you previously submitted to the Committee in seeking pre-approval for this trip. If you are required to file an annual Financial Disclosure Statement, you must also report all travel expenses totaling more than \$390 from a single source on the "Travel" schedule of your annual Financial Disclosure Statement covering this calendar year. Finally, Travel Regulation § 404(d) also requires you to keep a copy of all request forms and supporting information provided to the Committee for three subsequent Congresses from the date of travel.

Because the trip may involve meetings with foreign government representatives, we note that House employees may accept, under the Foreign Gifts and Decorations Act (FGDA), gifts "of minimal value [currently \$390] tendered as a souvenir or mark of courtesy" by a foreign government. Any tangible gifts valued in excess of minimal value received from a foreign government must, within 60 days of acceptance, be disclosed on a Form for Disclosing Gifts from Foreign Governments filed with the Committee, and either turned over to the Clerk of the House, or, with the written approval of the Committee, retained for official use.

¹ We note that the U.S. Department of State (State Department) has issued a travel warning concerning travel to Israel, the West Bank, and Gaza, *available at* <https://travel.state.gov/content/travel/en/traveladvisories/traveladvisories/israel-west-bank-and-gaza-travel-advisory.html>. You may wish to contact the State Department regarding the safety of your proposed trip.

Jerusalem

Throughout its 4,000-year history, the city of Jerusalem has changed hands many times. As home to the world's three great monotheistic religions — Judaism, Christianity and Islam — Jerusalem is probably the most disputed city in history. Today, the status of Jerusalem remains the most contentious issue in the Arab-Israeli conflict. Jerusalem has been at the heart of all recent Israeli-Palestinian negotiations, from the Oslo Accords to the Camp David Summit to the Taba negotiations, and in the most recent talks under the auspices of the U.S. Secretary of State John Kerry. To understand the current political issues, it is critical to understand Jerusalem's history and the role it has played in shaping the Middle East. This seminar will include site visits to various locations in and around Jerusalem to give participants a first-hand look at the historic significance of the city, as well as its geographic layout.

Old City of Jerusalem & the Holy Basin

The Old City of Jerusalem is home to the holiest shrines of the three monotheistic religions, including the Temple Mount, the Church of the Holy Sepulchre, and the Al-Aqsa Mosque. During the Camp David II talks, the Palestinians and Israelis differed on the Jerusalem question,

namely the Old City, the status of Arab neighborhoods just outside the Old City, and religious sites such as the Temple Mount.

The Holy Basin is the historic location of Jerusalem and refers to the land surrounding the Old City, including the Mount of Olives, which is believed to be the departure point for Jesus' final entry into Jerusalem and where Jews have been burying their dead for 2,500 years. The Holy Basin also includes the Western Wall, Judaism's holiest site, and the Temple Mount (Haram al-Sharif), sacred ground for Jews, Muslims, and Christians. Control over these sensitive areas remains among the largest disputes in the Middle East.

The professionally guided survey will walk through these sites and others, educating trip participants on their historical impact and their role in today's political discussions.

The City of David

The Israeli-Palestinian conflict has consumed an enormous amount of time and manpower of members of consecutive American Administrations as well as members of Congress. One of the most intractable issues in the conflict has been the question of the future of Jerusalem. Jerusalem's City of David, more than any other site, represents the complexity of this conflict.

The City of David is the site most archeologists agree to be the ancient city of Jerusalem that later became the capital of the united Israelite tribes under King David. This area is one of the most intensively excavated sites in the wider region. To Jewish Israelis, the site represents the beginning of their physical and emotional attachment to Jerusalem that has continued for over three thousand years.

At the same time, much of the site is in the predominantly Arab neighborhood of Silwan. The residents of Silwan, and the Palestinian Authority leadership are opposed to the archeological efforts being carried out in the City of David. In several instances, homes in Silwan were purchased and then destroyed to open more areas for excavations. Additionally, Palestinian leadership has denied in their official statements the existence of any Jewish connection to Jerusalem.

12:30-1:30 PM *Israel-Palestinian Authority Relations in the Trump Era*
Lunch with Ambassador Daniel Taub
-at Anna

Israeli-Palestinian Authority Relations in the Trump Era

Since Israel's founding, the Jewish state has sought to reach a just and lasting solution to the Israeli Palestinian conflict. The United States has been closely involved in negotiations between Israel and the Palestinians. Most recently, in July 2013, Secretary of State John Kerry helped initiate a round of direct negotiations between Israel and the Palestinians. The peace talks conclusively dissolved when the Palestinian political party Fatah signed a unity deal with the terrorist group Hamas.

During this session, Ambassador Taub will address the prospects for peace in the current political climate. He will also discuss the complex challenges that have prevented a final status agreement thus far.

2:15-3:15 PM *Strategic Survey of Jerusalem, Part II:
Post-1967 Neighborhoods & the Security Barrier*

Post-1967 Neighborhoods

When Jerusalem was reunified in 1967, following 19 years of division, the State of Israel extended the city's boundaries to include the strategic hills surrounding Jerusalem. These hills served as launching pads between 1948 and 1967 for sniper and mortar attacks on Israeli parts of the city by the Jordanian Army. Since 1967, these hills have become vibrant neighborhoods, fully integrated into the fabric of Jerusalem. It is vital for those discussing the issue of Jerusalem to understand these neighborhoods' strategic importance and their relationship to the areas in the immediate vicinity.

Security Barrier

After scores of suicide bombings and daily terrorist attacks against its civilians launched following the breakdown of the Camp David II talks, Israel began construction of a security barrier near the pre-1967 "Green Line" between Israel and the West Bank to prevent Palestinian terrorists from infiltrating into Israeli population centers. Since its construction began, the number of attacks declined by more than 90% and the number of Israelis murdered and wounded decreased by more than 70% and 85%, respectively. The barrier is approximately 455 miles long. To Israel, the security barrier serves as a necessary obstacle to protect its people. To the Palestinians and others in the world, the barrier represents a physical and symbolic divide.

This seminar will survey the security barrier at different points along its route to see first-hand the barrier's construction, the operation of crossing points in and out of Palestinian areas, and the technology that facilitates its operation. Both en route to the barrier and at the barrier itself, the group will explore the competing arguments raised by the Israelis, Palestinians and the international community.

- 9:00-11:00 AM *Remembering the Victims of the Holocaust*
 Guided visit to the Yad Vashem Holocaust Memorial and Museum

Yad Vashem

One cannot understand Israel's position on Iran's nuclear program without understanding the trauma of the Holocaust. Israelis view threats to its destruction considering the events of the 1930s and 1940s, when the German government's threats to exterminate the Jewish people were not taken seriously by the international community. This museum provides an important reference point as to how Israelis interpret the threat of an Iranian nuclear program and Iranian leaders committed to Israel's destruction.

Yad Vashem, the Holocaust Martyrs' and Heroes' Remembrance Authority, was established in 1953 by an act of the Israeli Knesset. Since its inception, Yad Vashem has been entrusted with documenting the history of the Jewish people during the Holocaust period, preserving the memory and story of each of the six million victims, and imparting the legacy of the Holocaust for generations to come through its archives, library, school, museums and recognition of the Righteous Among the Nations. Located on Har Hazikaron (the Mount of Remembrance) in Jerusalem, Yad Vashem is a sprawling complex of museums, exhibits, archives, monuments, sculptures, and memorials.

Every foreign leader that travels to Israel visits Yad Vashem. Yad Vashem has become a symbol of the Jewish people and its transformation from total helplessness to self-reliance and strength. Thus, a visit to Yad Vashem provides a historical context for the Jewish state. The museum's professional docent will guide the group through the main exhibit hall and the children's memorial.

Currently 14 Israeli Arabs and 2 Druze serve in the 120-member Israeli Knesset. Our speaker, Mohammad Darawshe is currently the director of planning, equality and shared living at Givat Haviva Educational Institute –a non-profit organization founded in 1949 as the national education center of the Kibbutz Federation in Israel. Israel's Southern Front (programming from 10:30 AM – 1:15 PM)

Since 2001, Israeli communities bordering the Gaza Strip have been living under the threat of rocket fire. Since the Israeli withdrawal from the Gaza Strip in 2005 and the Hamas takeover of the Gaza Strip in 2007, the volume, range and accuracy of the rockets has only increased. The summer of 2014 witnessed Operation Protective Edge, which returned the issue of rocket fire from Gaza to international headlines. At Kibbutz Nir Am, participants will be able to see the border between Israel and the Gaza Strip, to better comprehend the landscape of the region, as well as the unique challenges faced by this area. The visit to Kibbutz Kfar Azza and meeting with a local resident will be an opportunity to better understand the reality of living just kilometers from Israel's border with Gaza, to learn how almost 15 years of rocket fire has shaped those living in the communities most affected, to discuss the advent of Hamas "terror tunnels" into Israel's border towns and how communities have sought to cope with the threat on their doorstep, both physically and psychologically.

On a clear day one sees almost 70 percent of the country, as far as Jerusalem to the East. The importance of this visit is to provide participants a geostrategic viewpoint from which to understand the narrow waistline of Israel, which at its narrowest spans 9 miles from the Mediterranean to the West Bank. Additionally, the area visible from this vantage point – referred to as the Gedera-Hadera corridor – comprises a small rectangle of land that can be covered lengthwise in under an hour. The sliver of Israeli land west of the West Bank is often referred to as the Hadera-Gadera rectangle, with the city of Hadera denoting the northern point, and the city of Gadera the southern point. The Hadera-Gadera rectangle is home to over 50 percent of Israel's population, as well as civilian infrastructure. The area is also home to Israel's "silicon valley", as well as Ben Gurion international airport.

The discussion at Alfei Menashe will allow participants to see firsthand the proximity of Jewish and Arab neighborhoods in both Israel and the West Bank; as well as the strategic threats faced by the Israeli population living in Israel's narrow waistline.

1:45-3:00 PM

En route briefings:

- *The Jezreel Valley – Strategic Land Bridge Between Africa and Asia*
- *Upper Galilee – Potential for Development*

The Jezreel Valley

Our tour guide will spend an hour during the drive from Israel's center to the north to provide the delegation a briefing on the Jezreel Valley and the Upper Galilee and the challenges facing these regions of the country.

For thousands of years, the Jezreel Valley served as a land bridge linking Africa, Asia and Europe, and serving as a thoroughfare for ancient caravans and, more frequently, armies. In modern times, during World War I, for example, the British and Turkish forces fought a number of pitched battles in the valley. In 1948, following Israel's establishment, the combined forces of Iraq and Jordan attempted unsuccessfully to capture the valley in order to split the just-born Israel into two parts. In the early 20th century, after decades of neglect, Jewish pioneers drained the swamps in the valley, transforming this region into Israel's "breadbasket" known for wheat, cotton, sunflowers and fish ponds. The Jezreel Valley is also home to historical and biblical sites including Tel Megiddo and Nazareth.

Today it is an important symbol of Israel's complex and diverse political reality. The Jezreel Valley, together with the areas of the Lower and Upper Galilee, is home to most Israel's Arab citizens. A survey of this area provides an opportunity to discuss and learn about Israel's Arab citizens – 20 percent of the population – each of which has full democratic, social and welfare rights, the right to vote and serve in the Knesset, and the opportunity to serve on Israel's Supreme Court. These issues are not widely known and this segment gives trip participants the opportunity to understand Israel's relationship with its largest minority group.

Upper Galilee

The Upper Galilee is home to the largest variety of ethnic communities in Israel including Druze, Circassian, Arab Muslim and Arab Christian villages. The Galilee is also home to ancient Jewish and Christian holy sites that provide additional historical and political context to regional tensions. Just as in the case of the Jezreel Valley, the area illustrates the role of minorities in Israel.

At the same time, the Upper Galilee is home to some of the most prominent industrial hubs. Best known among them is the Tefen Industrial area, home to numerous enterprises established by the region's residents – Jewish and Arab. In 2006, Upper Galilee's ISCAR Metal Working Company was purchased for \$5 billion by Warren Buffet's conglomerate holding company. Since then, a number of American investors have become partners in some of the region's hi-tech and bio-tech companies.

While time does not permit for sites visits, a drive through the region allows for expanding on the importance of the area in the context of the U.S.–Israel relationship.

3:00-4:00 PM *Treating the Victims of Syria's Civil War*
Visit to Ziv Medical Center

The Ziv Medical Center

The Ziv Medical Center is situated in the heart of Israel's rural northern landscape and provides health care services and treatment for the north's ethnically and religiously diverse population. Since February 2013, Israel has taken in Syrians wounded in the course of the civil war currently being waged in that country. Many are treated at a field hospital on the border, where soldiers and paramedics of the IDF on the Israeli Golan Heights give them initial first aid and life- saving care. The Syrian wounded then either return to Syria, or are taken to an Israeli hospital to receive further treatment. Ziv Hospital is one such hospital, and has treated nearly five hundred victims of the Syrian conflict. At Ziv, the Syrian wounded, including children, civilians and militants alike, are provided with the best possible care from Israeli physicians using state of the art medical equipment. Although Israel and Syria have been in a state of war for decades, the Israeli doctors and staff at Ziv provide humanitarian aid for the wounded without regard for the patients' political or military affiliation. These efforts have been supported by The Israeli Health Department, which has spent well over 5 million dollars treating the wounded.

As part of the seminar's focus on the complex religious fabric of Israeli society, the group will be visiting several of the most sacred sites for Christians in the Holy Land. Included is a guided visit and discussion of some of the key events in the life of Jesus by the Sea of Galilee. Just as strategic surveys in Jerusalem focused on Jewish, Muslim, and Christian history and claims to the land, the site visits to the Christian sites help provide context for the competing religious narratives for the land of Israel. For example, we will be visiting the Mount of Beatitudes, where Jesus delivered the Sermon on the Mount, the most studied and read speech of any religion in history. Our guide will also lead discussions through Capernaum and St. Peter's Church.

Jordan: Relations with Israel, and the Growing Refugee Crisis

The tour guide will spend approximately an hour during the drive through the Jordan Valley to explore several topics related to Israel's eastern neighbor: specifically, Israeli-Jordanian strategic cooperation, as well as the implications of the Syrian civil war on the Kingdom.

The Hashemite Kingdom of Jordan became the second Arab country after Egypt to recognize Israel when it signed a comprehensive peace agreement that ended nearly five decades of warfare. Shepherded by United States President Bill Clinton, the accord signed on Oct. 6, 1994, marked the onset of a new era of economic, cultural, and political dialogue and cooperation between the two countries.

In recent years, the two countries have worked together to combat the increased threat from terrorism by coordinating their security efforts and preventing infiltrations across their shared border. Today, Jordan hosts over 1.4 million Syrian refugees fleeing civil war. Following our discussion with Israeli soldiers patrolling the Syrian border, our guide will address how the influx of Syrian refugees and the threats in the region impact Jordan internally; as well as relations and further potential for strategic partnership between Jordan, the United States, and Israel.

7:15-9:15 PM *Reflections on the Sabbath in Jerusalem*
Shabbat dinner hosted by Gil Troy and his family

Reflections on the Sabbath in Jerusalem

Israel, the only Jewish country in the world, boasts the unique tradition of honoring the Jewish Sabbath from Friday sundown until Saturday sundown. 80 percent of the Israeli population will commemorate the Sabbath, in various forms, which typically include a family dinner and special blessings. The Sabbath is especially significant in Jerusalem, home to the holiest site for Jews worldwide - the remains of the First and Second Temple.

The group will be hosted by Professor Gil Troy and his family. Professor Troy, a renowned educator and author, will lead a discussion on the importance of Jerusalem to the Jewish, Christian and Muslim populations; the potential for a final status agreement on Jerusalem

(arguably the most sensitive final status issue); and the diplomatic challenges faced by Israel and the United States regarding Israeli urban development in the area.

En route briefings:

- *Jericho Road and the E-1 Corridor*
- *The Dead Sea Region – Environmental Concerns*

Jericho Road and the E-1 Corridor

On the drive from Jerusalem to Masada, the group will travel on the highway known as the “Jericho Road” is the strategic importance of the area east of Jerusalem. In 1948 and in 1967, the Jordanian army attacked Jerusalem from the east – the 1948 attack resulted in the city’s division that lasted until 1967. Since then Israel has established the City of Ma’ale Adumim east of Jerusalem, today home to some 40,000 residents. To the Palestinians, however, Ma’ale Adumim is the largest settlement on the West Bank. When Israel attempted to expand Ma’ale Adumim’s boundary, into an area known as “E-1”, the U.S. State Department stepped in and asked that no construction take place there. The issue needs to be examined with those discussing the future of Jerusalem in the context of the Israeli-Palestinian negotiations.

9:45-11:45 AM *History and Geopolitics of the Roman Empire*
Guided survey of the National Archeological Park at Masada

Masada

The Sabbath in Israel begins Friday afternoon and concludes on Saturday evening. During the Sabbath, virtually everything in the country is closed including all government offices, businesses, newspapers etc. Therefore, for years, we have used Saturdays to expose our congressional members and staff delegations to some of the key historical and cultural sites in Israel such as Masada. Masada, which was excavated in the 1960s, is considered one of the most important archeological sites in Israel, indeed in the whole world.

Masada was the site of the last stand of the Jews in Israel after the Romans destroyed Jerusalem and the Holy Temple in 70 A.D. A group of Jewish zealots fled to the Judean Desert and lived in the former mountaintop fortress of King Herod known as Masada for two years resisting the onslaught of the most powerful army in the world. Determined to break the resistance, the Romans finally scaled the mountain to capture and enslave the Jewish rebels. However, when they finally arrived, they found that all the men, women and children had killed

themselves as a last act of defiance. They refused to give in to the Romans and become their slaves.

The ancient story of Masada has important contemporary relevance for the modern State of Israel. "Masada shall never fall again" has become the watchword of the country which has faced existential threats since its founding in 1948. Israel's elite military units, for example, are sworn in on top of Masada in a symbolic act of defiance against Israel's contemporary enemies. These soldiers along with the thousands of Israeli school children who visit Masada each year learn the lesson that Israel should never become so weak again that it would ever face national suicide as an option.

We will spend approximately two hours atop of Masada with a professional guide. The time at Masada with the guide is focused on three areas: 1. surveying the magnificent ancient excavations; 2. learning the narrative of Jewish resistance to the Romans backed by the archeological and historical evidence; 3. discussing the importance of the Masada story to the contemporary Middle East and the threats in the region.

During our trip to the Negev, we will also visit the Dead Sea, the lowest place on earth and a major source of minerals for both Israel and Jordan.

12:00-2:00 PM *Exploration of the Dead Sea Region*
 Followed by lunch
 - at Herods Hotel

Dead Sea Region

During our drive to and from the Dead Sea area, as well as during our visit to the Dead Sea, our tour guide will discuss a variety of issues integral to understanding the region, the country, and relations with both the Palestinians and Jordanians.

It is important to note that the region is mostly desert. For decades, Israel has been challenging this arid area and developing its agricultural potential. While the Middle East is suffering from water shortages, Israel, through modern technology and water conservation policies, including the recycling of over 80 percent of water used for domestic purposes and transferring it to agriculture, has literally "made the desert bloom." Some of this technology is already being shared with Jordan and the Palestinian Authority. All sides realize that a comprehensive regional water policy will ensure food production necessary to satisfy the Middle East's growing population. For example, in late 2013, the three parties agreed to build a Red Sea-Dead Sea water project to address the shortage of fresh, clean water in the region and the rapid loss of water at the Dead Sea. This highlights the growing importance for Israel and her Arab neighbors to work together on joint environmental projects.

The key regional players also face serious environmental issues in the Dead Sea region. One of the major environmental concerns is the receding of the Dead Sea and the appearance of sinkholes, which cause the earth above to collapse. Roads, fields and buildings have collapsed

due to this phenomenon, and experts are concerned the tourist infrastructure along the Jordanian and Israeli shores of the Dead Sea are also in danger. This issue has led to unprecedented cooperation between Israelis, Jordanians and Palestinians and serves as a model for regional cooperation.
