Attachment 2 – Questions #12 – Sponsor’s interest and role

Software.org, the BSA Foundation is an independent, and nonpartisan international 501(c)(3) research organization that helps policymakers and the broader public better understand the impact that software has on our lives, our economy, and our society. We believe that by working together to examine these issues we can better prepare for the future and help shape government policies and industry culture that will promote both technological advancement and widespread growth.

Software.org seeks to take Congressional staff on an educational cybersecurity-focused tour of global software companies at their San Francisco and Silicon Valley area facilities. We have invited staff on the Judiciary, Homeland Security, Intelligence, and Foreign Affairs committees, as well as Leadership offices in order to provide them with an in-depth conversation on the industry’s approach to cybersecurity. Software.org planned and organized all aspects of the trip, made lodging and travel arrangements, and corresponded with businesses involved to set up events and tours at each location. Software.org is the sole sponsor for this trip, including responsibility for covering cost of meals throughout the trip.

Attachment 3 - Question 16 - Reason for Selecting lodging #2

During our trip, a city-wide event in San Francisco is increasing hotel prices to $200-300 over the per diem rate and requiring the Delegation to commit to a three-night stay. The Hyatt House Emeryville was chosen as lodging for the second night of travel because of its proximity to companies we will visit on the third day of travel and because its rate ($299) was closest to per diem.
