House staff have been invited as a result of their work on education and workforce development issues. All have responsibility over these federal issues in their offices. The site visit will highlight the successes and challenges of education, workforce and poverty programs in Denver, CO.

Question #7 Reason for Selecting Location:
Jobs for the Future (JFF) selected Denver, Colorado for this site visit because of the workforce development and education efforts of the city, specifically the way they are utilizing federal funds to bridge secondary and post-secondary systems to target special populations for skill development opportunities in high demand industries. Denver is an interesting city, with a depth of history and culture, and it has strived to develop innovative practices to better upskill and serve its hardest to serve population in the local job market. This visit will highlight Denver’s commitment to innovative K-12, post-secondary and workforce models that promote skill development and poverty alleviation. The visit will shed light on implications for K-12, higher education and workforce development policy, specifically on apprenticeships, career pathway approaches, and strategies for supporting today’s most vulnerable learners.

Question #12 Role of Sponsor:
Jobs for the Future (JFF) selects sites and topics of interest around which to base site visits and forums, considering congressional staff interest, the quality of programming, and
whether or not these programs have a relationship to workforce development, education and poverty alleviation policy, specifically with a lens toward equity. JFF develops and executes the agenda; arranges logistics for the trip; and communicates with the staff. Lumina Foundation and The Joyce Foundation provide grants to Jobs for the Future to convene the Congressional Staff Network for Economic Advancement.

Purpose of the Trip and Mission of the Sponsor:
JFF is interested in the development of education, training and supportive programs and policies that expand opportunities for low income and disconnected youth and adults to attain the education, training and credentials necessary to find good jobs and family sustainable careers. JFF’s work is informed by research, analysis, and best practice. The purpose of this trip is to examine high quality and innovative education and workforce training programs that focus on the economic needs of the city, its employers and its people. Staff will see strategies the city is implementing to help inhabitants meet the skill needs of the region’s critical industries, they will talk with students, teachers, state and local officials and employers who are involved in the development and in carrying out these programs. In addition, our funders, Lumina Foundation and The Joyce Foundation are interested in increasing pathway opportunities starting in high school through career, ensuring all populations has access to postsecondary educational attainment and supportive services through high quality and Innovative approaches that meet national, state, and local economic needs.

History Carrying out Site Visits:
JFF has carried out the Congressional Network for Economic Advancement for over years. As part of that work we have held numerous DC-based forums and conducted multiple site visits where senior congressional staff have the opportunity to see high quality workforce programs and learn from experts and practitioners on the ground, about the impact of federal policy in their fields of responsibility. Our visits have included programs in: Charlotte, NC; Bridgeport, CT; Cincinnati, OH; Madison, WI; Philadelphia, PA; Detroit, MI, Wichita, KS, Nashville, TN, Seattle, WA, Eastern KY and Fredericksburg, VA, and Memphis, TN. The purpose of these trips (and the Network) is to provide in-depth learning opportunities for staff on workforce, education, and economic security issues. This year Lumina Foundation and The Joyce Foundation have provided funding for the Network.

Good morning,

We are pleased to invite you as a member of our Congressional Staff Network to JFF’s August site visit. This visit will take place in Denver, Colorado from Tuesday, August 27th, 2019 – Thursday, August 29th, 2019. Participants will fly from Baltimore Washington International Airport (BWI) to Denver International Airport (DIA) on the morning of August 27th, participate in meetings and site visits throughout the two days, and then fly back to DC in the morning of August 29th.

In Denver, staff will learn about how the region is working across secondary, postsecondary education and workforce systems to prepare Coloradans for the 21st century economy. We will hear about how Colorado is creating college and career pathway opportunities; developing strong sector initiatives; creating a variety of apprenticeship programs that are available for youth and special populations; and how all of this work is aligned and helping to alleviate poverty and solve skill shortages in the state.

While in Denver, staff will hear from leading employers, in information technology, advanced manufacturing, construction, and healthcare fields about how they have engaged with education providers to ensure that education and training is meeting their changing skill needs; visit community college campuses to see innovative approaches in postsecondary education while also learning about statewide early college efforts; learn about how the region is working to better prepare youth, specifically those out of work and out of school; and see first-hand how Colorado is leading the country in the development and expansion of apprenticeships for a wide range of participants and in a wide range of occupations.

The JFF team is getting excited for the visit and the rich discussions that will take place. Please respond to this survey by Friday June 21st, 2019 stating your plans for participation and flight information/preferences. Once your attendance is confirmed our team will book flights and send out more information regarding the trip, including a final agenda and the necessary Ethics documentation. We hope you can join us!

Mary Clagett, Senior Director of Workforce Policy, JFF
