## Employee Post-Travel Disclosure Form

Original  Amendment

This form is for disclosing the receipt of travel expenses from private sources for travel taken in connection with official duties. This form does not eliminate the need to report privately-funded travel on the annual *Financial Disclosure Statements* of those employees required to file them. In accordance with House Rule 25, clause 5, you must complete this form and *file it with the Clerk of the House, B-81 Cannon House Office Building*, within 15 days after travel is completed. Please *do not* file this form with the Committee on Ethics.

**NOTE: Willful or knowing misrepresentations on this form may be subject to criminal prosecution pursuant to 18 U.S.C. § 1001.**

## Sponsor Post-Travel Disclosure Form

Original  Amendment

This form must be completed by an officer of any organization that served as the primary trip sponsor in providing travel expenses or reimbursement for travel expenses to House Members, officers, or employees under House Rule 25, clause 5. A completed copy of the form must be provided to each House Member, officer, or employee who participated on the trip *within ten days of their return*. You must answer all questions, and check all boxes, on this form for your submission to comply with House rules and the Committee's travel regulations. Failure to comply with this requirement may result in the denial of future requests to sponsor trips and/or subject the current traveler to disciplinary action or a requirement to repay the trip expenses.

**NOTE: Willful or knowing misrepresentations on this form may be subject to criminal prosecution pursuant to 18 U.S.C. § 1001.**

1. Sponsor(s) who paid for the trip: Foundation for Nuclear Studies (FNS)

2. Travel Destination(s): Cherbourg, Chalon & Paris France

3. Date of Departure: Saturday, October 5, 2019 Date of Return: Wednesday, October 9, 2019

4. Name(s) of Traveler(s): Trent Bauserman, Minsu Crowder- Han, Mark Henson, Jamie Neill, Peter Spencer

*Note: You may list more than one traveler on a form only if all information is identical for each person listed.*

## Primary Trip Sponsor Form

This form should be completed by private entities offering to provide travel or reimbursement for travel to House Members, officers, or employees under House Rule 25, clause 5. A completed copy of the form (and any attachments) should be provided to each invited House Member, officer, or employee, who will then forward it to the Committee together with a *Traveler Form* at least 30 days before the start date of the trip. The trip sponsor should *NOT* submit the form directly to the Committee. The Committee website ([ethics.house.gov](http://ethics.house.gov)) provides detailed instructions for filling out the form.

**NOTE:** Willful or knowing misrepresentations on this form may be subject to criminal prosecution pursuant to 18 U.S.C. § 1001. Failure to comply with the Committee's Travel Regulations may also lead to the denial of permission to sponsor future trips.

1. Sponsor who will be paying for the trip: Foundation for Nuclear Studies (FNS)
2. I represent that the trip will not be financed, in whole or in part, by a registered federal lobbyist or foreign agent.  
Signify that the statement is true by checking box:
3. **Check only one.** I represent that:
  - a. The primary trip sponsor has not accepted from any other source, funds intended directly or indirectly to finance any aspect of the trip:  OR
  - b. The trip is arranged without regard to congressional participation and the primary trip sponsor has accepted funds only from entities that will receive a tangible benefit in exchange for those funds:  OR
  - c. The primary trip sponsor has accepted funds from other source(s) intended directly or indirectly to finance all or part of this trip and has enclosed disclosure forms from each of those entities.   
If "c" is checked, list the names of the additional sponsors: \_\_\_\_\_
4. Provide names and titles of ALL House Members and employees you are inviting. For each House invitee, provide an explanation of why the individual was invited (include additional pages if necessary): \_\_\_\_\_  
See attached.
5. Is travel being offered to an accompanying family member of the House invitee(s)?  Yes  No
6. Date of Departure: Saturday, October 5, 2019 Date of Return: Wednesday, October 9, 2019
7. a. City of departure: Washington, DC  
b. Destination(s): Paris, France  
c. City of return: Washington, DC
8. **Check only one.** I represent that:
  - a. The sponsor of the trip is an institution of higher education within the meaning of section 101 of the Higher Education Act of 1965:  OR
  - b. The sponsor of the trip does not retain or employ a registered federal lobbyist or foreign agent:  OR
  - c. The sponsor employs or retains a registered federal lobbyist or foreign agent, but the trip is for attendance at a one-day event and lobbyist / foreign agent involvement in planning, organizing, requesting, or arranging the trip was *de minimis* under the Committee's travel regulations.
9. **Check only one of the following:**
  - a. I checked 8(a) or (b) above:
  - b. I checked 8(c) above but am not offering any lodging:
  - c. I checked 8(c) above and am offering lodging and meals for one night:  OR

Mr. James Neill  
Office of the Honorable Michael Simpson  
2084 Rayburn House Office Building  
Washington, DC 20515

Dear Mr. Neill:

Pursuant to House Rule 25, clause 5(d)(2), the Committee on Ethics hereby approves your proposed trip to France,<sup>1</sup> scheduled for October 5 to 12, 2019, sponsored by Foundation for Nuclear Studies.

You must complete an Employee Post-Travel Disclosure Form (which your employing Member must also sign) and file it, together with a Sponsor Post-Travel Disclosure Form completed by the trip sponsor, with the Clerk of the House within 15 days after your return from travel. As part of that filing, you are also required to attach a copy of this letter and both the Traveler and Primary Trip Sponsor Forms (including attachments) you previously submitted to the Committee in seeking pre-approval for this trip. If you are required to file an annual Financial Disclosure Statement, you must also report all travel expenses totaling more than \$390 from a single source on the "Travel" schedule of your annual Financial Disclosure Statement covering this calendar year. Finally, Travel Regulation § 404(d) also requires you to keep a copy of all request forms and supporting information provided to the Committee for three subsequent Congresses from the date of travel.

Because the trip may involve meetings with foreign government representatives, we note that House employees may accept, under the Foreign Gifts and Decorations Act (FGDA), gifts "of minimal value [currently \$390] tendered as a souvenir or mark of courtesy" by a foreign government. Any tangible gifts valued in excess of minimal value received from a foreign government must, within 60 days of acceptance, be disclosed on a Form for Disclosing Gifts from Foreign Governments and either turned over to the Clerk of the House, or, with the written approval of the Committee, retained for official use.

---

<sup>1</sup> Please be aware that the Committee's review of the proposed trip does not extend to either the security situation in the destination country or security related to foreign travel in general. We recommend you contact the Sergeant at Arms (SAA) for a safety and security briefing prior to your departure. SAA may be reached at (202) 226-2044 or [ohsstaff@mail.house.gov](mailto:ohsstaff@mail.house.gov). House travelers should also register for the U.S. State Department's Smart Traveler Enrollment Program at <https://step.state.gov>.

If you have any further questions, please contact the Committee's Office of Advice and Education at extension 5-7103.

Sincerely,

Theodore E. Deutch

**Monday, October 7, 2019**

- am                      **Breakfast on your own included in your stay at Mercure Cherbourg**
- 7:30 am – 8:30 am    **Meet in lobby for departure from hotel to visit Orano's La Hague Facility**

***Drive time 30 minutes***

- 8:30 am – 8:45 am    **Welcome at Orano's La Hague**  
Access Procedures and site security check-in
- 8:45 am – 9:15 am    **Presentation of the site and activities**
- 9:15 am – 9:30 am    **Visit of Orano's La Hague Recycling Plant**  
Changing clothes is required to get into the plant

*Orano's La Hague site is located on the western tip of the Cotentin Peninsula in Normandy. The facility recycles used nuclear reactor fuel, harvesting the uranium and plutonium and conditioning the waste for final disposal. La Hague is subject to controls by French governmental agencies and international organizations which audit operations and perform scheduled and random inspections. In addition, Orano La Hague personnel perform daily inspections to ensure compliance with regulations.*

- 9:30 am – 10:00 am   **Dry unloading facility**

*The Tour of the facility will help staffers better understand how other countries handle used fuel. Most used fuel that has undergone initial cooling is transferred to dry storage systems; cask-based storage is the most common dry system. Storage casks may be housed at the reactor site, such as in the United States, or at a centralized facility. In order for fuel to be transferred, it must meet strict radiological, thermal and chemical requirements. Dry storage casks typically hold about 20 fuel assemblies and are cooled by natural circulation. There has not been any significant radioactive release from used nuclear fuel in dry cask storage.*

**Monday, October 7, 2019**

**10:15 am – 10:45 am Storage pool for spent fuel**

*Following the Dry Unloading, we will see the storage pools for spent fuel at Orano group headquarters for recycling activities. The La Hague site offers its French and foreign customers a solution for them to re-use 96% of recoverable materials contained in the used nuclear fuel and safely conditioning the remaining 4% final waste.*

*French and foreign customers a solution for them to re-use 96% of recoverable materials contained in the used nuclear fuel and safely conditioning the remaining 4% final waste.*

*Orano La Hague has 58 reactors, and the facility works in many other countries including Germany, Japan, Switzerland, Belgium, the Netherlands and Italy.*

**11:00 am – 11:30 am Vitrification facility**

*Along the tour we will also learn about vitrification, and why it is important. Vitrification is the mixing of liquid radioactive wastes with glass-forming materials that are then heated using a high-temperature melting process. The process incorporates the waste into the glass itself that is then poured into canisters where it is allowed to solidify and cool.*

**11:45 am – 12:30 pm Tour of the Control Room of UP3 plant**

*Our tour will end with a visit to the Control Room of the UP3 plant. This room is used as the main control center in the plant. The plant operating supervisor and senior operating personnel operate and monitor major plant equipment.*

*We will see the entire room, including equipment indicators and controls that are organized by system. We will view the Annunciators (small windows) with a sound alarm that are placed above the control board or at the top part of the control board. The plant computer is also used to provide alarms alerting the operator to problems.*

**12:30 pm Transfer to “Le Moulinet” guesthouse**

**Monday, October 7, 2019****12:45 pm – 1:45 pm Lunch Discussion at “Le Moulinet” Guesthouse**

*Frederic Leconte, a senior official of the Orano La Hague facility, will join for lunch. Mr. Leconte will open a Q&A discussion, during which the delegation will have the unique opportunity to ask questions about the tour, the facility, and the activities that occur.*

*The Flamanville Nuclear Power Plant is comprised of two existing operating nuclear plants and one additional plant currently under construction. The two operating plants are pressurized water reactors producing 1300 MW of electricity each and were brought online in 1986 and 1987. The plant is operated by*

*Electricite de France (EdF) the sole nuclear energy utility in France and the largest electricity producer in the world. EdF operates 58 reactors in France and Flamanville is one of ten dual unit sites.*

*Our visit to Flamanville will include a presentation on the operations at the site by Céline Sireau and the opportunity to view the construction of Flamanville 3 from the visitor center observation deck.*

*Our visit to Flamanville will allow us to better understand Framatome’s EPR reactor at the Flamanville 3 site—this is the first Generation III+ facility and the newest plant in the French reactor fleet. It was also the second of six EPR units around the world under construction. We will learn about the pressurized water reactor (PWR) design that has been designed and developed mainly by Framatome.*

*We will be welcomed by a representative at Chalon St Marcel. Before the site tour, they will offer a presentation on the background and history of Chalon St Marcel and how the process is linked with other Orano facilities like Le Creusot. In addition, they will review the safety procedures, we need to adhere to while on the tour which also includes the site providing a full outfit for the tour from a white jumper, to shoes and safety gear to protect our eyes and ears.*

**11:00 am – 12:15 pm** **Visit of Chalon/Saint Marcel facility**

*We will have the opportunity to tour the manufacturing shop floor where Framatome fabricates heavy components for nuclear plants around the world including the U.S.*

*The visit will allow the group to see the site that offers two advantages: excellent facilities for loading and transporting heavy components on the Saone river; and its proximity to other group sites. Since its completion in 1975, the Chalon/St. Marcel facility has manufactured all the heavy components for French pressurized water reactors (PWRs) ranging from 900 MW to 1500 MW. It has also completed a significant number of export contracts to make it a world leader.*

*Nearly 600 heavy components (reactor vessels, steam generators, pressurizers and closure heads) have been manufactured or are currently being manufactured since the plant opened in 1975.*

**Tuesday, October 8, 2019**

*The plant is at the heart of the manufacturing chain for nuclear steam supply systems (NSSS). The basic activities performed at Chalon/St. Marcel are metalworking and heavy machining. These activities are carried out in strict compliance with nuclear safety rules. The availability of all these skills, brought together on a single site and applied to heavy NSSS components, allows Chalon/St. Marcel undeniable advantages in terms of quality and competitiveness.*
