Dear Mr. Izaak:

As part of that filing, you are also required to attach a copy of this letter and both the Traveler and Primary Trip Sponsor Forms (including attachments) you previously submitted to the Committee in seeking pre-approval for this trip. If you are required to file an annual Financial Disclosure Statement, you must also report all travel expenses totaling more than $390 from a single source on the “Travel” schedule of your annual Financial Disclosure Statement covering this calendar year. Finally, Travel Regulation § 404(d) also requires you to keep a copy of all request forms and supporting information provided to the Committee for three subsequent Congresses from the date of travel.

12. Describe the sponsor’s interest in the subject matter of the trip and its role in organizing and/or conducting the trip:

Global Health Council (a 501c3) is a membership organization supporting and connecting advocates, implementers and stakeholders around global health priorities worldwide. The organization convenes stakeholders around global health priorities and actively engages with key decision makers on health policy. GHC advocates with the broader community in U.S. and multilateral forums for sound, strong global health policies and resources. GHC seeks to inform Congressional staff on CDC’s role in gathering and sharing public health data and evidence and in protecting the health of Americans and others around the world, as well as the level of expertise it brings to the global health sphere. GHC is working in partnership with the other cosponsors on trip logistics, the agenda and other materials, and the Congressional travel forms. GHC’s Senior Manager for Policy and Advocacy will accompany Congressional staff on the trip.

The American Society of Tropical Medicine and Hygiene (a 501c3), founded in 1903, is the largest international scientific organization of experts dedicated to reducing the worldwide burden of tropical infectious diseases and improving global health. We accomplish this through generating and sharing scientific evidence, informing health policies and practices, fostering
career development, recognizing excellence, and advocating for investment in tropical medicine/global health research. ASTMH seeks to help better inform Congressional staff on the unique role that CDC plays in protecting the health of Americans and those around the world from existing and emerging infectious disease threats. ASTMH staff is working in partnership with the other cosponsors preparing the necessary Congressional travel forms and materials for the House and Senate Ethics Committees and is assisting in logistical matters. The ASTMH Executive Director will accompany Congressional staff on the trip.

PATH, a nonprofit 501c3 organization, is one of the largest global health NGOs in the world. PATH uses entrepreneurial insight, scientific and public health expertise, and partnerships with U.S. agencies and private sector partners to create products that save lives and help countries, primarily in Africa and Asia, to tackle their greatest health needs. Part of their work includes working with CDC to develop new vaccines, drugs, diagnostics and devices, while at the same time advocating for CDC’s role in global health more broadly. The Global Health Technologies Coalition (GHTC), a coalition group of more than 30 organizations with its secretariat housed within PATH, works to help educate Congressional staff about CDC’s unique expertise and capacity to detect, track and contain infectious disease outbreaks and develop the right technologies to advance these efforts. CDC’s work is critical to protecting Americans and people around the world from emerging epidemics, as well as monitoring the impact of current tools and global health programs to maximize future investments. PATH is co-funding the trip, and handling the invites to Congressional staff. PATH is also helping with developing content and logistics. GHTC is serving as the lead organization coordinating with CDC staff on the program agenda as well as agency-level approvals. PATH’s Policy Officer and GHTC’s US Policy and Advocacy Officer (an employee of PATH) will accompany Congressional staff on the trip.

The Bill and Melinda Gates Foundation (a 509(a)) works to help all people lead healthy, productive lives. In developing countries, it focuses on improving people’s health and giving them the chance to lift themselves out of hunger and extreme poverty. In the United States, it seeks to ensure that all people—especially those with the fewest resources—have access to the opportunities they need to succeed in school and life. Based in Seattle, Washington, the foundation is led by CEO Dr. Susan Desmond-Hellmann and Co-chair William H. Gates Sr., under the direction of Bill and Melinda Gates and Warren Buffett.

15. b. 2. Provide the reason for selecting the location of the event or trip:

Touring CDC global health programs and labs and meeting with CDC officials will provide House staff with an important opportunity to learn about the CDC’s vital work in protecting American health and promoting health globally.
