COMMITTEE ON ETHICS

EMPLOYEE POST-TRAVEL DISCLOSURE FORM Original Amendment

This form is for disclosing the receipt of travel expenses from private sources for travel taken in connection with official duties. This form does not eliminate the need to report privately-funded travel on the annual *Financial Disclosure Statements* of those employees required to file them. In accordance with House Rule 25, clause 5, you must complete this form and file it with the Clerk of the House, by email at gifttravelreports@mail.house.gov, within 15 days after travel is completed. Please **do not** file this form with the Committee on Ethics.

NOTE: Willful or knowing misrepresentations on this form may be subject to criminal prosecution pursuant to 18 U.S.C. § 1001.

1. Name of Traveler: Lindsay Linhares
2. a. Name of Accompanying Relative: _____ OR None
 b. Relationship to Traveler: Spouse Child Other (specify): _____
3. a. Dates: Departure: 8/6/22 Return: 8/13/22

Ms. Lindsay Linhares
Office of the Honorable Julia Letlow
1408 Longworth House Office Building
Washington, DC 20515

Dear Ms. Linhares:

Pursuant to House Rule 25, clause 5(d)(2), the Committee on Ethics hereby approves your proposed trip to Mozambique,¹ scheduled for August 6 to 13, 2022, sponsored by United Nations Foundation; Friends of the Global Fight Against AIDS, Tuberculosis and Malaria; and Bill & Melinda Gates Foundation.

You must complete an Employee Post-Travel Disclosure Form (which your employing Member must also sign) and file it, together with a Sponsor Post-Travel Disclosure Form completed by the trip sponsor, with the Clerk of the House within 15 days after your return from travel. As part of that filing, you are also required to attach a copy of this letter and both the Traveler and Primary Trip Sponsor Forms (including attachments) you previously submitted to the Committee in seeking pre-approval for this trip. If you are required to file an annual Financial Disclosure Statement, you must also report all travel expenses totaling more than \$415 from a single source on the "Travel" schedule of your annual Financial Disclosure Statement covering this calendar year. Finally, Travel Regulation § 404(d) also requires you to keep a copy of all request forms and supporting information provided to the Committee for three subsequent Congresses from the date of travel.

Because the trip may involve meetings with foreign government representatives, we note that House employees may accept, under the Foreign Gifts and Decorations Act (FGDA), gifts "of minimal value [currently \$415] tendered as a souvenir or mark of courtesy" by a foreign government. Any tangible gifts valued in excess of minimal value received from a foreign government must, within 60 days of acceptance, be disclosed on a Form for Disclosing Gifts from Foreign Governments and either turned over to the Clerk of the House, or, with the written approval of the Committee, retained for official use.

¹ Please be aware that the Committee's review of the proposed trip does not extend to either the security situation in the destination country or security related to foreign travel in general. We recommend you contact the Office of House Security (OHS) for a safety and security briefing prior to your departure. OHS may be reached at (202) 226-2044 or ohsstaff@mail.house.gov. House travelers should also register for the U.S. State Department's Smart Traveler Enrollment Program at <https://step.state.gov>.

If you have any further questions, please contact the Committee's Office of Advice and Education at extension 5-7103.

Sincerely,

12. Description of the sponsor's interest in the subject matter of the trip and its role in organizing and/or conducting the trip:

The UN Foundation (UNF) works to educate all Americans, including the U.S. Congress, on the importance of a strong U.S.-UN relationship, with a particular focus on global health issues such as global immunization, malaria, and child health. This learning trip provides an opportunity for policymakers to better understand how the U.S. and the UN are working collectively in Mozambique to put an end to malaria-related deaths.

Friends of the Global Fight (Friends) advocates for U.S. support of the Global Fund to Fight AIDS, Tuberculosis and Malaria and its goal of ending these epidemics. By engaging policymakers on this trip, Friends hopes to share the value and impact of U.S. investment in the Global Fund and bilateral global health programs in fighting infectious disease abroad.

UNF and Friends are the joint sponsors of this trip, organizing all aspects of the program and logistics. UNF handles all outreach to congressional offices and is the contact for planning purposes. The UN Foundation received a grant from the Bill & Melinda Gates Foundation, which was made with the knowledge that congressional travel generally might be funded. The Gates Foundation has not played any role in organizing this trip and has not been involved in the selection or invitation of the trip participants.

15b2. Provide the reason for selecting the location of the event or trip:

This September, the United States will be hosting the 7th Replenishment of the Global Fund for AIDS, Tuberculosis, and Malaria. The leadership the U.S. has shown in partnering with the Global Fund has brought about unprecedented progress on AIDS, tuberculosis, and malaria and saved millions of lives around the world, but this replenishment is critical. COVID-19 disrupted health systems around the world and slowed the progress toward achieving the shared goals of ending the three diseases. In places like Mozambique, the strains that COVID-19 placed on the country are vastly evident, but so is evidence of how U.S. investments in the Global Fund, in the President's Malaria Initiative, and in UN partners have been critical to saving lives and getting the country back on track to eliminate the three diseases.

Over the course this trip, the delegation will travel to Maputo and Nampula, Mozambique to observe how the U.S., the Global Fund to Fight AIDS, Tuberculosis and Malaria, and the UN are working together to beat malaria and other deadly infectious diseases. The delegation will conduct multiple site visits and engage with high-level U.S., UN, and national government officials and offices, including with the U.S. Ambassador to Mozambique, the Mozambique Ministry of Health, the UN Resident Coordinator, UN Refugee Agency (UNHCR), and USAID. The delegation will meet with community health workers, technical experts, public health NGOs, and families who have benefitted from U.S. investments. Site visits will include a research hospital, district health facility, and supply chain centers.

9:00am – 9:30am Transit via hired car to UN in Mozambique Office

9:30am – 10:30am **Meeting with UN Country Team, led by UN Resident Coordinator**

The delegation will have a high-level discussion with the UN Country Team, facilitated by UN Resident Coordinator Myrta Kaulard, on the work of the 22 agencies, funds, and programmes operating in Mozambique across all provinces, from Rovuma to Maputo.

The meeting will provide the delegation with a general overview on the UN's footprint and operational presence in Mozambique and how the UN U.S., and Mozambique are partnering to beat malaria and other deadly infectious diseases.

Location: UN in Mozambique Office

10:30am – 10:45am Transit via hired car to Mozambique Ministry of Health

10:45am – 11:45am **Meeting with Dr. Armindo Tiago, Minister of Health of Mozambique**

The delegation will meet with the Minister of Health, and related Ministry of Health officials, to discuss how U.S.-Mozambique investments are helping put an end to malaria-related deaths and helping prepare to respond to future health threats.

The U.S. through the U.S. President's Malaria Initiative (PMI) has partnered with the Government of Mozambique, primarily the National Malaria Control Program, to make significant progress in combating malaria, including vital assistance such as medicines and preventive treatments, health worker training, indoor residual spraying, insecticide-treated mosquito nets, and improved data monitoring and laboratory equipment. In 2021 alone, PMI contributed to the delivery of 31 million malaria rapid diagnostics tests and more than 15 million doses of fast-acting medicines to clinics and communities throughout Mozambique.

This meeting will help the delegation understand how the U.S., in close collaboration with the Government of Mozambique, is helping Mozambique

build a healthier, more secure, more democratic, and more prosperous country for all citizens.

Location: Mozambique Ministry of Health

11:45am – 12:00pm Transit via hired car to Polana Hotel Restaurant

12:00pm – 1:30pm **Working Lunch with National Malaria Control Program (NMCP) Manager**

The delegation will have a working lunch with the NMCP Manager to discuss the malaria situation in Mozambique and how USG investments are complementing those of other donors, such as the Global Fund, the Bill and Melinda Gates Foundation, and the private sector.

This working lunch will help the delegation understand the major challenges affecting malaria control in Mozambique, and the opportunities for more investments.

Location: Polana Hotel Restaurant

1:30pm – 2:00pm Transit via hired car to Colaboração em Saúde (CCS)

2:00pm – 3:30pm **Site Visit with Colaboração em Saúde (CCS), the Global Fund's Principal Recipient for TB Programs**

The delegation will meet with CCS staff to discuss how the Global Fund, the Government of Mozambique, and health partners in Mozambique are working together to fight TB and build a resilient and sustainable health system in Mozambique.

The site visit will allow the delegation to understand how Global Fund grants for the 2021-2023 implementation period are helping to expand access to community TB case finding in priority districts in the country. With the U.S. being the largest contributor to the Global Fund, this will also be a valuable opportunity for the delegation to see the impact of U.S. investment.

Location: Maputo District

3:30pm – 4:00pm Transit via hired car to UNHCR Mozambique Office

4:00pm – 5:00pm **Meeting with UN Refugee Agency (UNHCR) Country Representative in Mozambique, Mr. Sam Chakwera**

The delegation will meet with the head of UNHCR in Mozambique, and the UNHCR country team, to discuss the critical importance of providing malaria, HIV, and tuberculosis prevention and treatment in the UN Humanitarian response.

This meeting will help the delegation understand how emergencies such as conflict and extreme weather events exacerbate the burden of malaria, HIV and tuberculosis, why displaced populations across all phases of emergencies are key populations in efforts to control and eliminate the three diseases, and how partners like PMI and the Global Fund support efforts to deliver critical health services to displaced populations in acute and prolonged emergency settings.

Location: UNHCR Mozambique Office

- 5:00pm – 5:30pm Transit via hired car to hotel
- 5:30pm – 7:00pm Executive Time
- 7:00pm – 8:00pm **Working Dinner with USAID Maputo Office**

The delegation will have a working dinner with USAID Maputo Office to discuss the Mozambique Integrated Malaria Program (IMaP), a five-year USAID-funded project implemented by Chemonics International that is reducing malaria mortality, morbidity, and parasitemia in four high malaria burden provinces (Cabo Delgado, Nampula, Tete, and Zambézia).

As the flagship activity for PMI in Mozambique, IMaP leads technical assistance for improved malaria case management, malaria in pregnancy activities, social and behavior change communication, surveillance, monitoring and evaluation, including routine data quality, and strengthened health systems at the national and subnational levels. This working dinner will help the delegation understand how IMaP is supporting the implementation of proven malaria interventions at community and facility levels, in alignment with the National Malaria Strategic Plan, strengthen the management capacity of the provincial and district Ministry of Health personnel to provide oversight and supervision of malaria interventions, and improving Health Management Information System data reporting, analysis, and use at the provincial and district level.

- 8:00am – 8:30am Breakfast at the hotel
- 8:30am – 9:00am Transit via hired car to U.S. Embassy Maputo
- 9:00am – 10:15am **Meeting with U.S. Ambassador to the Republic of Mozambique, Peter Hendrick Vrooman**

The delegation will meet with the U.S. Ambassador Peter Hendrick Vrooman, and with USAID and CDC leadership, to discuss how U.S. Government investments, through PMI, are helping put an end to malaria-related deaths and helping prepare to respond to future health threats. The collaboration with the Global Fund will also be highlighted, as well as how PMI investments complement those from other sources such as the Bill and Melinda Gates Foundation and the private sector.

PMI and the Global fund together procure all rapid diagnostics tests used in the country. They also support the procurement of all medicines used to treat uncomplicated malaria, and about fifty percent of the medicines for the treatment of severe malaria cases. The Government of Mozambique procures about fifty percent of the medicines used to treat severe malaria and also the Sulphadoxine-Pyrimethamine tablets for intermittent preventive treatment of pregnant women. In vector control, PMI supports the implementation of indoor residual spraying activities in Zambezia province, one of the highest malaria burden provinces in the country. PMI also supports all entomological monitoring activities across the country. The Global Fund supports procurement and distribution of insecticide-treated nets, both for campaign distribution as well as for distribution to pregnant women at health facilities.

This meeting will help the delegation understand how the U.S., in close collaboration with other partners, is helping Mozambique build a healthier, more secure, more democratic, and more prosperous country for all citizens. It will also help to understand some of the existing challenges and the gaps in funding.

- 10:15am – 10:30am Break
- 10:30am – 11:45am Transit via hired car to Manhiça District (75 km)
- 12:00pm – 2:00pm **Visit and Tour of Manhiça Research Center (CISM) and Manhiça District Rural Hospital**

The delegation will meet Dr. Francisco Saúte, CISM's Director, and his team to learn about CISM's role in malaria research and the collaboration with PMI and CDC. The delegation will have the opportunity to visit the center and learn about its activities. The delegation will also meet the Director of the Manhiça Rural Hospital and visit the hospital to learn about the services it provides in coordination with CISM.

CISM is a local organization established in 1996. The center was initially created as a malaria vaccines testing site and has evolved to become a leading center in highly specialized research on several communicable diseases prevalent in Mozambique, with a particular focus on the main causes of morbidity and mortality in the country (malaria, HIV/AIDS, tuberculosis and bacterial diseases).

In partnership with the district health authorities, CISM supports the Manhica District Hospital by providing additional trained healthcare staff, a specialized laboratory for clinical diagnosis, follow up in several areas including malaria, HIV, TB and COVID-19, and provides healthcare supplies for clinical management. The Manhica District Hospital serves as the primary local for CISM clinical research. CISM has contributed substantially for its growth and currently, the Manhica District Hospital is the reference hospital in the northern region of Maputo province.

CISM has been receiving PMI funding since 2013 to support therapeutic efficacy studies for antimalarials and other malaria research. This visit represents an opportunity to highlight the localization efforts and to showcase the potential that CISM offers.

Location: Manhiça Research Center (CISM) and Manhiça District Rural Hospital

2:00pm – 2:15pm Transit via hired car to Ulombi Restaurant

2:15pm – 3:30pm **Working Lunch with Community Health Workers from Manhiça District**

The delegation will have a working lunch with community health workers to learn about the challenges they face responding to malaria-related health issues, COVID-19's impact on their work, and how U.S. investments are creating sustainable response and mitigation measures.

Malaria is considered the most important public health problem in Mozambique and accounts for 29% of all deaths. Among children under five years of age, malaria accounts for 42% of deaths. This working lunch will allow the delegation to gain a unique, local perspective on these challenges and the work of local healthcare professionals.

Location: Ulombi Restaurant, Manhiça

3:30pm – 4:45pm Transit via hired car to hotel

4:45pm – 6:30pm Executive Time

6:30pm – 8:30pm **Working Dinner with Goodbye Malaria**

The delegation will have a working dinner with the Goodbye Malaria Mozambique team to learn about the impact of partnership between the private sector, the Global Fund, and the NMCP.

Goodbye Malaria is an African-run initiative to eliminate malaria. Goodbye Malaria mobilizes local private sector companies to commit and support Global Fund catalytic funding for regional malaria elimination, and benefits

Global Fund-supported programs in Mozambique, South Africa and Eswatini.

Since 2016, Goodbye Malaria has pledged \$15 million to the Global Fund to scale up one of the malaria grants that aims to eliminate cross-border malaria in Mozambique, South Africa and Eswatini, known as the MOSASWA program. The impact of the catalytic funding has made the elimination of malaria in Mozambique, South Africa and Eswatini by 2030 an achievable goal, and their successful partnership with the Global Fund has facilitated further catalytic contributions from the Bill & Melinda Gates Foundation, allowing significant expansion of the program.

This working dinner will help the delegation understand how public-private partnerships benefit the fight against malaria and amplify the impact of investments in the Global Fund, fostering an impact-driven culture to tackle a public health challenge and accelerate interventions and innovation to eliminate malaria.

The delegation will have a working lunch with the Director of Servicos Provinciais de Saude de Zambezia (SPS Zambezia), which was awarded a \$2 million grant in March 2022 by the Centers for Disease Control and Prevention (CDC) to strengthen the institutional capacity of SPS Zambezia to plan, coordinate, and supervise HIV-related activities to contribute to accelerated progress towards the 95-95-95 goals (95% of HIV-positive individuals knowing their status, 95% of those receiving ART [Antiretroviral

therapy], and 95% of those achieving viral suppression) and ensure sustainable control of the epidemic in Mozambique.

This working lunch will allow the delegation to better understand SPS Zambezia's function and grant implementation plans. SPS Zambezia is in a unique position to conduct this work, as it leads all health services within the province of Zambezia. The SPSs in Mozambique are government organizations established by law and mandated to plan, coordinate, and supervise all health-related activities at the tertiary and secondary level, including HIV/AIDS activities, within their provincial jurisdiction.

The delegation will also meet the Director of the Manhiça Rural Hospital and visit the hospital to learn about the services it provides in coordination with CISM.

CISM is a local organization established in 1996. The center was initially created as a malaria vaccines testing site and has evolved to become a leading center in highly specialized research on several communicable diseases prevalent in Mozambique, with a particular focus on the main causes of morbidity and mortality in the country (malaria, HIV/AIDS, tuberculosis and bacterial diseases).

In partnership with the district health authorities, CISM supports the Manhica District Hospital by providing additional trained healthcare staff,

a specialized laboratory for clinical diagnosis, follow up in several areas including malaria, HIV, TB and COVID-19, and provides healthcare supplies for clinical management. The Manhica District Hospital serves as the primary local for CISM clinical research. CISM has contributed substantially for its growth and currently, the Manhica District Hospital is the reference hospital in the northern region of Maputo province. CISM has been receiving PMI funding since 2013 to support therapeutic efficacy studies for antimalarials and other malaria research. This visit represents an opportunity to highlight the localization efforts and to showcase the potential that CISM offers.

1:15pm – 2:30pm **Working Lunch with Community Health Workers from Manhica District**

The delegation will have a working lunch with community health workers to learn about the challenges they face responding to malaria-related health issues, COVID-19's impact on their work, and how U.S. investments are creating sustainable response and mitigation measures.

Malaria is considered the most important public health problem in Mozambique and accounts for 29% of all deaths. Among children under five years of age, malaria accounts for 42% of deaths. This working lunch will allow the delegation to gain a unique, local perspective on these challenges and the work of local healthcare professionals.

6:30pm – 8:30pm **Working Dinner with Goodbye Malaria and ExxonMobil**

The delegation will have a working dinner with the Goodbye Malaria and ExxonMobil to learn about the impact of partnership between the private sector, the Global Fund, and the NMCP.

Goodbye Malaria is an African-run initiative to eliminate malaria. Goodbye Malaria mobilizes local private sector companies to commit and support Global Fund catalytic funding for regional malaria elimination, and benefits Global Fund-supported programs in Mozambique, South Africa and Eswatini.

Since 2016, Goodbye Malaria has pledged \$15 million to the Global Fund to scale up one of the malaria grants that aims to eliminate cross-border malaria in Mozambique, South Africa and Eswatini, known as the MOSASWA program. The impact of the catalytic funding has made the elimination of malaria in Mozambique, South Africa and Eswatini by 2030 an achievable goal, and their successful partnership with the Global Fund has facilitated further catalytic contributions from the Bill & Melinda Gates Foundation, allowing significant expansion of the program.

This working dinner will help the delegation understand how public-private partnerships benefit the fight against malaria and amplify the impact of investments in the Global Fund, fostering an impact-driven culture to tackle a public health challenge and accelerate interventions and innovation to eliminate malaria.

7:30am – 7:45am Walk to Provincial Governor's Office

8:00am – 9:00am **Joint meeting with the Secretary of State in Nampula, Mety Gondola, and Governor of Nampula, Manuel Rodrigues Alberto**

The delegation will meet with the Secretary of State in Nampula, the Governor of Nampula, and related colleagues to discuss how U.S-Mozambique investments are helping put an end to malaria-related deaths in Nampula.

Nampula is one of Mozambique's high burden provinces for malaria and it is a PMI focus province. With a population of more than six million inhabitants, the province reported more than 2 million malaria cases in the calendar year 2021. PMI supports procurement and distribution of medicines, health worker training and supervision, community health

worker supervision, entomologic monitoring, improved data monitoring, laboratory training and equipment and health promotion activities.

This meeting will help the delegation understand how the U.S., in close collaboration with the Government of Nampula, is helping Mozambique build a healthier, more secure, more democratic, and more prosperous country for all citizens.

9:00am – 10:00am Transit via hired car to the Office of the Meconta District Administrator

10:00am – 10:30am **Courtesy Visit with Meconta District Administrator, Mr. Melchior Focas Situte**

The delegation will pay a courtesy visit to the District Administrator of Meconta District, Mr. Melchior Focas Situte. The meeting will also be attended by the District Health, Women, and Social Welfare Services (SDSMAS) Director, Mr. Abílio Abunque Manuel.

This meeting will serve to underscore the USG's commitment to support Mozambique's national health goals in Nampula province and Meconta district in the area of malaria, as well as the internally displaced population at Corrane.

Location: Office of the Meconta District Administrator

10:30am – 10:45am Transit via hired car to Meconta Health Center

10:45am – 11:45am **Visit to Meconta Health Center and Meeting with Community Health Workers**

The delegation will visit the Meconta District Health Facility (HF). The Health Facility Director, Mr. Benjamin Ernesto, will receive the delegation and provide a brief overview of the HF and a walking tour. The delegation will be able to appreciate the patient flow and ask questions during the visit. Additionally, the delegation will meet two Community Health Workers, at Meconta HF. The visit will also be attended by the District Health, Women, and Social Welfare Services (SDSMAS) Director.

This visit will serve to underscore the USG's commitment to support Mozambique's national health goals in Nampula province and Meconta district in the area of malaria and see the demand for health care in the peripheral area of Nampula province.

Location: Meconta District Health Facility

11:45am – 12:45pm **Meeting with Commodities for Health: Ensuring Guaranteed Access and Reliability (CHEGAR) Project**

The delegation will meet with Shabana Gafar, CHEGAR national transportation manager, at the Health Facility (HF) and receive an overview of CHEGAR, have the opportunity to see a shipment of commodities arrive and be received by the health facility staff, and have a story board and testimonial of beneficiaries.

The Commodities for Health: Ensuring Guaranteed Access and Reliability (CHEGAR) Project, supports the Ministry of Health in Mozambique to ensure a regular and continuous supply of medicines and vital essential health products for the users of the health units of the National Health Service. This project consists of contracting a service dedicated to logistics and transport of medicines and commodities for health, from the provincial or district warehouse to the HF.

This meeting will help the delegation understand how the U.S., in close collaboration with the Government of Nampula, is helping Mozambique build a healthier, more secure, more democratic, and more prosperous country for all citizens by strengthening its supply chain system.

11:00am – 11:45am **Meeting with Dr. Armindo Tiago, Minister of Health of Mozambique**

The delegation will meet with the Minister of Health, and related Ministry of Health officials, to discuss how U.S-Mozambique investments are helping put an end to malaria-related deaths and helping prepare to respond to future health threats.

The U.S. through the U.S. President’s Malaria Initiative (PMI) has partnered with the Government of Mozambique, primarily the National Malaria Control Program, to make significant progress in combating malaria, including vital assistance such as medicines and preventive treatments, health worker training, indoor residual spraying, insecticide-treated mosquito nets, and improved data monitoring and laboratory equipment. In 2021 alone, PMI contributed to the delivery of 31 million malaria rapid diagnostics tests and more than 15 million doses of fast-acting medicines to clinics and communities throughout Mozambique.

This meeting will help the delegation understand how the U.S., in close collaboration with the Government of Mozambique, is helping Mozambique

build a healthier, more secure, more democratic, and more prosperous country for all citizens.

Meeting with U.S. Ambassador to the Republic of Mozambique, Peter Hendrick Vrooman and Modified U.S. Country Team

The delegation will have a 30 min courtesy meeting with the U.S. Ambassador Peter Hendrick Vrooman followed by a 30 min modified country meeting with the Deputy Chief of Mission, USAID, Pol/Econ, CDC, PEPFAR, and DOD to discuss how U.S Government investments, through PMI, are helping put an end to malaria-related deaths and helping prepare to respond to future health threats. The collaboration with the Global Fund will also be highlighted, as well as how PMI investments complement those from other sources such as the Bill and Melinda Gates Foundation and the private sector.

PMI and the Global fund together procure all rapid diagnostics tests used in the country. They also support the procurement of all medicines used to treat uncomplicated malaria, and about fifty percent of the medicines for the treatment of severe malaria cases. The Government of Mozambique procures about fifty percent of the medicines used to treat severe malaria and also the Sulphadoxine-Pyrimethamine tablets for intermittent preventive treatment of pregnant women. In vector control, PMI supports the implementation of indoor residual spraying activities in Zambezia province, one of the highest malaria burden provinces in the country. PMI also supports all entomological monitoring activities across the country. The Global Fund supports procurement and distribution of insecticide-treated nets, both for campaign distribution as well as for distribution to pregnant women at health facilities.

This meeting will help the delegation understand how the U.S., in close collaboration with other partners, is helping Mozambique build a healthier, more secure, more democratic, and more prosperous country for all citizens. It will also help to understand some of the existing challenges and the gaps in funding.

2:30pm – 4:00pm **Visit and Tour of *Central de Medicamentos e Artigos Médicos* (Central Medical Stores) Regional Medical Warehouse**

The delegation will meet with Dr. Paula Langa, Head of the Nampula Regional Warehouse for a guided visit through the warehouse and see first-hand the \$7.9 million USG investment made to improve the availability and distribution of medical supplies in Nampula, Cabo Delgado, Niassa, and Zambezia.

The Nampula regional warehouse was constructed and is supported by USAID and is owned and operated by the Mozambican Government through CMAM. This is the second largest warehouse for health commodities in the country and it has increased capacity at the regional level (Nampula, Zambezia, Niassa, and Cabo Delgado) by over 20%.

This meeting will help the delegation understand how the U.S., in close collaboration with the Government of Nampula, is helping Mozambique build a healthier, more secure, more democratic, and more prosperous country for all citizens by strengthening its supply chain system.

8:00am – 9:00am **Joint Meeting with Mety Gondola, Secretary of State in Nampula and Manuel Rodrigues Alberto, Governor of Nampula**

The delegation will meet with the Secretary of State in Nampula and Governor of Nampuka to discuss how U.S-Mozambique investments are helping put an end to malaria-related deaths in Nampula.

Nampula is one of Mozambique’s high burden provinces for malaria and it is a PMI focus province. With a population of more than six million inhabitants, the province reported more than 2 million malaria cases in the calendar year 2021. PMI supports procurement and distribution of medicines, health worker training and supervision, community health worker supervision, entomologic monitoring, improved data monitoring, laboratory training and equipment and health promotion activities.

This meeting will help the delegation understand how the U.S., in close collaboration with the Government of Nampula, is helping Mozambique build a healthier, more secure, more democratic, and more prosperous country for all citizens.
