Mr. Mitchell Heidenreich
Office of the Honorable Jill N. Tokuda
1005 Longworth House Office Building
Washington, DC 20515

Dear Mr. Heidenreich:

Pursuant to House Rule 25, clause 5(d)(2), the Committee on Ethics hereby approves your proposed trip to Los Angeles, California, scheduled for September 7 to 9, 2023, sponsored by Clean Fuels Alliance Foundation (F/K/A National Biodiesel Foundation), ADM, Ag Processing, Inc, Clean Fuels Alliance America, Darling Ingredients, Inc., Innovative AG Services, Incobrasa Industries, Ltd., Indiana Soybean Alliance, Minnesota Soybean Processors, Renewable Energy Group Inc., and Western Iowa Energy, LLC. We remind you that, because the trip sponsor employs a federal lobbyist, you may participate in officially-connected activity on one calendar day only.

You must complete an Employee Post-Travel Disclosure Form (which your employing Member must also sign) and file it, together with a Sponsor Post-Travel Disclosure Form completed by the trip sponsor, with the Clerk of the House within 15 days after your return from travel. As part of that filing, you are also required to attach a copy of this letter and both the Traveler and Primary Trip Sponsor Forms (including attachments) you previously submitted to the Committee in seeking pre-approval for this trip. If you are required to file an annual Financial Disclosure Statement, you must also report all travel expenses totaling more than $480 from a single source on the "Travel" schedule of your annual Financial Disclosure Statement covering this calendar year. Finally, Travel Regulation § 404(d) also requires you to keep a copy of all request forms and supporting information provided to the Committee for three subsequent Congresses from the date of travel.

If you have any further questions, please contact the Committee's Office of Advice and Education at extension 5-7103.

Sincerely,

Michael Guest
Chairman

Responses to Questions 9 and 15

Question 9 d Explain why the second night of lodging is warranted.

The tour starts at 8:00 am and runs until 6:00 pm on Sept. 8. Participants originating in Washington DC will arrive the night of Sept. 7, participate in the tour on Sept. 8, and return home on Sept. 9. As the tour ends late on Sept. 8, return flights arrive in Washington very late. Due to the event being on the West Coast and travelers will return to the East Coast, participants will depart Los Angeles at 8:00 am on Saturday.

Question 15 b (2) Provide the reason for selecting the location of the event or trip.

California is a key state for the biodiesel, renewable diesel, and sustainable aviation fuel markets because of the California Air Resources Board (CARB) and its programs. Los Angeles was chosen because the tour's key stops at biodiesel facilities and at the Port of Long Beach are within proximity to each other and the airport.

Attachment D
Sponsor Interest and Role

Question 12. For each sponsor required to submit a sponsor form, describe the sponsor's interest in the subject matter of the trip and its role in organizing and/or conducting the trip:

Each tour sponsor is directly involved in the production and/or distribution of biodiesel, renewable diesel, and/or sustainable aviation fuel or is involved in the production of biofuel feedstock. The tour provides participants with a better understanding of the environmental and economic impacts of biodiesel, renewable diesel, and sustainable aviation fuel and supports each sponsor's efforts to create a positive legislative environment. Each of the sponsors listed here has made financial contributions to the tour and has been part of organizing and/or conducting the tour.

Clean Fuels Alliance Foundation works closely with the Clean Fuels Alliance America to address issues affecting the nation -- cleaner air, greater economic development for rural communities, and enhanced national security through energy independence. Organized in 1994, the Foundation's mission is to accomplish outreach, education, research, and demonstration activities for the advancement of biodiesel and its co-products to improve rural economic development, national security, air quality and the environment. **The Foundation is the primary tour sponsor and has overall responsibility for planning, organizing, and implementing the tour**.

ADM (Archer Daniels Midland Company). Headquartered in Chicago, ADM is one of the world's largest companies in the field of food technology. ADM is also a leading producer of transport biofuels, in particular bioethanol and biodiesel produced from vegetable oils in the EU, Brazil, Canada, and the U.S. The company has an ambitious goal of meeting the world's energy needs with the help of biofuels. ADM recently (June 2022) broke ground, in partnership with Marathon Petroleum Corp., on North Dakota's first dedicated soybean processing facility which will provide feedstock for 75 million gallons per year of renewable diesel. The company also plans to produce aviation fuel, which it publicly announced last year. **ADM contributed to tour planning and has been invited to accompany the tour group.**

Ag Processing, Inc (AGP) is a leading U.S. agribusiness with primary operations as a soybean processor/refiner producing and marketing soybean meal, refined soybean oil, and biodiesel. AGP's commitment to the biodiesel industry dates back more than two decades with its pioneering efforts to develop a new market for soybean oil. The cooperative built the first commercial-scale U.S. soy biodiesel plant in 1996 in Sergeant Bluff, Iowa. AGP's operations today consist of three biodiesel production plants (Algona and Sergeant Bluff, Iowa, and St. Joseph, Missouri) with a combined annual capacity of 175 million gallons. As a leading advocate for the establishment of industry quality standards, AGP continues to produce the highest quality biodiesel product available, receiving BQ-9000 certification of its biodiesel production. **AGP contributed to tour planning and has been invited to accompany the tour group.**

Clean Fuels Alliance America. Representing biodiesel, renewable diesel, and sustainable aviation fuel, Clean Fuels Alliance America advances the interests of its members by supporting sustainable biodiesel, renewable diesel, and sustainable aviation fuel industry growth. Clean Fuels serves as the industry's central coordinating entity for technical, environmental, and quality assurance programs and is the strongest voice for its advocacy, communications, and market development. **Clean Fuels assisted with coordinating the tour and will be presenting during the tour**.

Darling Ingredients, Inc. With roots dating back to the late 19th century, Darling Ingredients has evolved from a small rendering company into one of the world's leading innovative developer and producer of sustainable organic ingredients. Darling's unique broad product and service portfolio is active all over

the world, customized for high end markets and local needs. Headquartered in Irving, Texas, the company operates through three segments: Feed Ingredients, Food Ingredients, and Fuel Ingredients. It offers ingredients and customized specialty solutions for customers in the pharmaceutical, food, pet food, feed, industrial, fuel, bioenergy, and fertilizer industries. **Darling Ingredients has assisted with coordinating the tour and will be presenting during the tour**.

Incobrasa Industries, Ltd. is a privately-owned corporation that receives and processes soybeans year-round at their production facility in central Illinois. They manufacture and ship soybean-derived products in the domestic market including biodiesel, animal feed, and bottled vegetable oil. The company's roots and industry experience go back about 50 years when its founders started operations in soybean oil extraction in Brazil. Using the most current technology, Incobrasa is committed to producing top quality B100 and B99.9 biodiesel for use in the United States. Incobrasa has the capacity to produce 36 million gallons annually. **Incobrasa contributed to tour planning and has been invited to accompany the tour group.**

Indiana Soybean Alliance (ISA) is a statewide organization that serves Indiana soybean farmers. ISA collaborates with the Indiana Corn Marketing Council and the Indiana Corn Growers Association to build markets, connections and resources for Indiana corn and soybean farmers through checkoff investments and advocating for agriculture legislation and policies. The organization conducts many activities to educate consumers and the public on soy issues. Activities include hosting or speaking at public events, making presentations to school or civic organizations, participating in public workshops, and advertising about the many benefits of corn-based products. **Indiana Soybean Alliance contributed to tour planning and will accompany the tour group.**

Innovative Ag Services. Innovative Ag Services Co. is a full-service farm cooperative, offering a complete line of supplies and services to meet all farm needs. Innovative Ag Services provides value-added products and services to more than 5,000 members in the grain, agronomy, feed, energy and building supply markets. Their 30+ locations are conveniently located throughout northeast and central Iowa, and southwestern Wisconsin. **Innovative Ag Services contributed to tour planning and will accompany the tour group.**

Minnesota Soybean Processors is a 2,300 plus membership cooperative that owns and operates a soybean crush facility and 41 million gallon per year biodiesel operation in Brewster, Minnesota. Their goal is to provide a high-quality feed product for America's producers and a high-quality renewable fuel source. **Minnesota Soybean Processors has contributed to planning the tour and will accompany the tour group.**

Renewable Energy Group, Inc. (a subsidiary of Chevron) is a leading provider of cleaner, lower carbon intensity products and services. They are an international producer of biomass-based diesel, a developer of renewable chemicals and North America's largest producer of advanced biofuel. REG utilizes an integrated procurement, distribution, and logistics network to convert natural fats, oils, greases, and sugars into lower carbon intensity products. With 14 active biorefineries, a feedstock processing facility, research and development capabilities and a diverse and growing intellectual property portfolio, REG is committed to being a long-term leader in bio-based fuel and chemicals. **REG has contributed to tour planning and will accompany the tour group.**

Western Iowa Energy, LLC manufactures, sells, and delivers up to forty-five million gallons of biodiesel annually from their facility in Wall Lake, IA. Western Iowa also owns the Agron terminaling facility in Watsonville, CA. The company is committed to production that makes sense both economically and environmentally for the state of Iowa and the nation. **Western Iowa Energy contributed to tour planning and has been invited to accompany the tour group.**
