Climate Crossroads Congressional Fellowship: Weekend Seminar

*With financial support from the National Academies of Sciences, Engineering, and Medicine*

**Background**

**Location:** Cambridge, Maryland

**Dates:** March 15th – 17th, 2024

**Mission Goals:** The Climate Crossroads (CCX) Congressional Fellowship has been established to provide current Congressional staff with a solid grounding in the science, engineering, and health dimensions of climate change, as well as opportunities to engage in dialogue with colleagues from diverse policy backgrounds. The weekend seminar is a key component of a series of training modules fellows engage with over the course of their fellowship. Most training modules are two hours once monthly, but the weekend seminar is an extended training period for participants to engage with program materials with the off-site location facilitating the opportunity to connect information gained in the classroom to communities on the ground. The weekend seminar also serves as a sustained opportunity for fellows to engage with their peers and the larger scientific community on a range of climate-related topics.

**Relevance to Official Duties:** CCX Congressional Fellows participate in the National Academies’ Climate Crossroads Congressional Fellowship as part of their official duty to (1) build their capacity for science informed policy making, (2) engage in dialogue with peers, and (3) enhance access to leading science, engineering, and medicine for both themselves and their offices.

**Location:** Cambridge, MD was selected as the weekend retreat destination due to its direct economic, cultural, and geographic ties to the areas of climate change to be addressed during the seminar.
