The Foundation for Nuclear Studies (FNS) would like to cordially invite you to tour Georgia Power's Vogtle Power Station in Waynesboro, GA from Sunday, April 21, 2024 to Monday, April 22, 2024. On this educational trip, participants will be briefed on how a nuclear plant works, the safety systems in place, how the plant handles spent nuclear fuel, and the plant's commitment to environmental protection.

Plant Vogtle is America's first new investment in nuclear power in 30 years and generates more carbon-free electricity each year than any other energy facility currently operating in the US. Upon completion, Units 3 & 4, along with existing Units 1 & 2, are expected to power more than 1 million homes and businesses.

This tour is hosted by FNS in furtherance of our mission to educate and inform policy makers and their staff on the many aspects of nuclear energy and technology. Our goal is to give participants a firsthand look at what nuclear energy is, what it can do and where it comes from. These tours have the added benefit of connecting policy professionals from both political parties working in the energy and environment space so they can build a network to share information and cooperate on policy goals and initiatives. For more information about FNS please visit us at [www.foundationfornuclearstudies.org](http://www.foundationfornuclearstudies.org).

Transportation, lodging and meals will be provided. If you no longer cover energy/environment issues in your portfolio, please feel free to suggest a colleague. Please RSVP to me at [leeann@foundationfornuclearstudies.org](mailto:leeann@foundationfornuclearstudies.org).

Thank you for your consideration.

Best regards,
