Mr. Jake Silverman
Office of the Honorable Nikema Williams
1406 Longworth House Office Building
Washington, DC 20515

Dear Mr. Silverman:

Pursuant to House Rule 25, clause 5(d)(2), the Committee on Ethics hereby approves your proposed trip to Atlanta, Georgia, and Colombia,¹ scheduled for June 16 to 22, 2024, sponsored by United Nations Foundation and Bill & Melinda Gates Foundation.

You must complete an Employee Post-Travel Disclosure Form (which your employing Member must also sign) and file it, together with a Sponsor Post-Travel Disclosure Form completed by the trip sponsor, with the Clerk of the House within 15 days after your return from travel. As part of that filing, you are also required to attach a copy of this letter and both the Traveler and Primary Trip Sponsor Forms (including attachments) you previously submitted to the Committee in seeking pre-approval for this trip. If you are required to file an annual Financial Disclosure Statement, you must also report all travel expenses totaling more than \$480 from a single source on the "Travel" schedule of your annual Financial Disclosure Statement covering this calendar year. Finally, Travel Regulation § 404(d) also requires you to keep a copy of all request forms and supporting information provided to the Committee for three subsequent Congresses from the date of travel.

Because the trip may involve meetings with foreign government representatives, we note that House employees may accept, under the Foreign Gifts and Decorations Act (FGDA), gifts "of minimal value [currently \$480] tendered as a souvenir or mark of courtesy" by a foreign government. Any tangible gifts valued in excess of minimal value received from a foreign government must, within 60 days of acceptance, be disclosed on a Form for Disclosing Gifts from Foreign Governments and either turned over to the Clerk of the House, or, with the written approval of the Committee, retained for official use.

¹ Please be aware that the Committee's review of the proposed trip does not extend to either the security situation in the destination country or security related to foreign travel in general. We recommend you contact the Office of House Security (OHS) for a safety and security briefing prior to your departure. OHS may be reached at (202) 226-2044 or ohsstaff@mail.house.gov. House travelers should also register for the U.S. State Department's Smart Traveler Enrollment Program at <https://step.state.gov>.

If you have any further questions, please contact the Committee's Office of Advice and Education at extension 5-7103.

Sincerely,

Primary Trip Sponsor Form – Attachment B

12) Sponsor's interest and role in organizing the trip:

The UN Foundation works to educate all Americans, including Members and Staff of the U.S. Congress, on the importance of a strong U.S.-UN relationship, with a particular focus on global health issues such as global immunization, malaria, and child health. This learning trip provides an opportunity for Congressional staff to learn about the U.S. Centers for Disease Control and Prevention's (CDC) global health activities at the Agency's headquarters in Atlanta, Georgia as well as CDC's work and partnership with UN agencies in the field in Colombia.

At CDC Headquarters, participants will meet with CDC global health leadership and technical experts, and have first-hand tours of the Emergency Operations Center, mosquito insectary, and infectious disease laboratory, as they learn about CDC's work to implement life-saving global health interventions, provide technical expertise, and strengthen disease surveillance in countries around the world. Participants will learn how CDC bilateral global health interventions work in complement with, and are amplified by, multilateral UN global health activities.

In Colombia, participants will see CDC programs operationalized in the field as well as CDC's partnership with USAID and multilateral institutions, including PAHO and UNICEF, to amplify U.S. investments, strengthen Colombia's health system, and improve global health security in the region.

UNF is the sole sponsor of the trip, organizing all aspects of the program and logistics. UNF handles all outreach to Congressional offices and is the contact for planning purposes. The UN Foundation received a contribution from the Bill & Melinda Gates Foundation (BMGF), which was made with the knowledge that congressional travel generally might be funded. The BMGF has not played any role in organizing the trip and has not been involved in the selection or invitation of the trip participants.

Primary Trip Sponsor Form – Attachment C

15. b. 1) Detail the cost per day of meals (approximate cost may be provided):

Sunday (first travel day): \$55.50

Monday (Atlanta, GA, USA): \$69

Tuesday (Atlanta, GA, USA / Bogota, Colombia): \$78

Wednesday (Bogota / Other Colombia): \$117

Thursday (Other Colombia): \$85

Friday (Bogota Colombia): \$185

Saturday (last travel day): \$0 Arrival to Duty Station

Primary Trip Sponsor Form – Attachment D

15. b. 2) Provide the reason for selecting the location of the event or trip:

CDC is headquartered in Atlanta, Georgia, and offers trip participants the opportunity to meet with global health technical experts, learn about CDC's global health initiatives and programs, and visit the on-site mosquito insectary, infectious disease laboratory, and Emergency Operations Center, all of which serve as cornerstones of global emergency preparedness and response during public health crises.

Colombia was chosen for the USG-PAHO-UNICEF collaboration on developing increased public health capacity for disease surveillance, health system strengthening, and global health security programming.

9:00am – 9:30am Transit via hired car to Instituto Nacional de Salud de Colombia
Location: Avenida calle 26 No. 51-20 - Zona 6 CAN. Bogotá, D.C.

9:30am – 12:00pm **Meeting with Instituto Nacional de Salud (INS) and Emergency Operations Center**

The delegation will meet with leadership from the Instituto Nacional de Salud (INS) and the INS Public Health Emergency Operations Center. USG and INS partner to improve health security, capacity building, and disease surveillance in Colombia.

CDC worked with INS to launch Colombia's FETP, and the collaboration with INS has since become a more robust engagement focused on strengthening INS' capacities in detecting and responding to public health threats in Colombia. CDC's collaboration with INS has also including supporting INS in their leadership with the network of South American FETPs, also known as REDSUR. During this visit, INS will discuss the role of their institution in protecting the health of people in Colombia and the collaboration with partners (including CDCs longstanding collaboration with INS). There will also be a visit to the Emergency Operations Center, where the delegation will speak with graduates from CDC training programs that have been improving INS' capacity to rapidly detect and respond to public health threats in Colombia.

In addition, USAID and CDC worked together on a 3-year project in Guapi, Colombia, which concluded in 2023. This project built institutional and local capacity at both central (INS) and sub-national (Cauca government) levels with strong engagement from the National Malaria Program. Although the project ended in 2023, USAID's support to vector control studies will continue via CDC's technical assistance to national institutions. The entomology department at the INS will share the results of the former project as well as the plans for future studies in the coming years in the Cauca region, which is heavily impacted by malaria.

12:30pm – 2:00pm **Working Lunch with CDC Field Epidemiology Training Program
Fellows**

The delegation will have a working lunch with CDC’s Field Epidemiology Training Program (FETP) Fellows based in Colombia and engaged in immunization and surveillance efforts.

The CDC FETP trains a global workforce of field epidemiologists, or “disease detectives” around the world. CDC works closely with partner countries to establish FETPs across the globe. The training programs create a cadre of well-trained disease detectives with the skills to gather critical data and turn it into action. Training focuses on “learning by doing” and residents spend over 75% of their time in the field, learning about outbreak investigation, conducting studies, and training other healthcare workers. When health threats strike, these trained disease detectives investigate and apply their knowledge to keep people from getting sick. This lunch is an opportunity to learn more about the disease surveillance challenges facing Colombia’s most vulnerable populations.
