Consumer Technology Association (CTA) is the sole sponsor of this trip and its interest in the CTA's annual trade show and conference for CES 2025. CTA educates U.S. policymakers to ensure the innovation economy is protected from laws and regulations that delay, restrict or ban the development of technologies in all our sectors. All year round they host policy sessions and roundtable discussions on leading issues in technology.

Historically, the Leaders in Technology (LIT) Program has brought over 200 elected and appointed government guests who experience firsthand the innovative consumer technology industry. LIT program participants interact with cutting-edge technology and discuss the policy issues that govern emerging technologies as part of the Innovation Policy Summit (IPS). IPS topics for CES 2025 will include artificial intelligence, digital health, self-driving vehicle technology, and more! The goal of IPS will be to discuss technology as an equalizing force. As CES sole sponsor of the LIT program, CTA issues the invitation, organizes all facets of the conference, books travel and plans for their overnight accommodations of the invitee for their attendance and participation in the Leaders in Technology Program (LIT) at CES 2025.
