Map of Featured Facilities

Monday, April 21, 2025

6:30 pm – 8:15am Depart Dulles IAD on Air France AF0051 to Charles De Gaulle, Paris (overnight flight).

Tuesday, April 22, 2025

8:15 am – 9:00 am Flight arrives Charles De Gaulle International Airport, Paris, France. Process through baggage claim and customs.

9:00 am Transfer via bus to Chalon/St. Marcel. (3.5 hours)

1:00 pm – 5:00 pm Lunch and tour of Framatome Chalon/St. Marcel facility

Framatome's Chalon/Saint Marcel facility offers two advantages: excellent facilities for loading and transporting heavy components on the Saone River; and its proximity to other group sites. Since its completion in 1975, the Chalon/St. Marcel facility has manufactured all the heavy components for French pressurized water reactors (PWRs) ranging from 900 MW to 1500 MW. It has also completed a significant number of export contracts to make it a world leader. Nearly 600 heavy components (reactor vessels, steam generators, pressurizers and closure heads) have been manufactured or are currently being manufactured since the plant opened in 1975.

The plant is at the heart of the manufacturing chain for nuclear steam supply systems (NSSS). The basic activities performed at Chalon/St. Marcel are metalworking and heavy machining. These activities are carried out in strict compliance with nuclear safety rules. The availability of all these skills, brought together on a single site and applied to heavy NSSS components, allows Chalon/St. Marcel undeniable advantages in terms of quality and competitiveness.

The delegation will tour the Chalon-St Marcel Manufacturing Shop floor which covers roughly 40,000 square meters of workshops. This will be an active walking tour with stops at the following locations to view key aspects of the manufacturing process.

Welding School – Training area for highly skilled component welding

Three active work bays:

- Light bay (50 tons) – Preparation of parts in light span
- Medium bay (350 tons) – Gradual assembly of components
- Heavy bay (600 tons) – Final assembly of large components with direct access to the shipping dock

Framatome Technical School – Tour participants will learn how research and development is conducted on the manufacturing process to maintain the utmost degree of excellence and efficiency.

- 6:30 am -7:30 am Breakfast on your own included in your stay at hotel
- 7:30 am – 8:00 am Meet in lobby for departure from hotel to visit Orano’s La Hague Facility (*Drive time 30 minutes*)
- 8:30 am -8:45 am Welcome at Orano’s La Hague
Access Procedures and site security check-in
- 8:45 am – 9:15 am Presentation of the site and activities: Introduction to plant guides, overview of facility and Orano operations, and safety briefing
- 9:15 am – 9:30 am Visit of Orano’s La Hague Recycling Plant
Changing clothes is required to get into the plant

Orano’s La Hague site is located on the western tip of the Cotentin Peninsula in Normandy. The facility recycles used nuclear reactor fuel, harvesting the uranium and plutonium and conditioning the waste for final disposal. La Hague is subject to controls by French governmental agencies and international organizations which audit operations and perform scheduled and random inspections. In addition, Orano La Hague personnel perform daily inspections to

ensure compliance with regulations.

9:30 am- 10:00 am Dry unloading facility

The Tour of the facility will help staffers better understand how other countries handle used fuel. Most used fuel that has undergone initial cooling is transferred to dry storage systems; cask-based storage is the most common dry system. Storage casks may be housed at the reactor site, such as in the United States, or at a centralized facility. In order for fuel to be transferred, it must meet strict radiological, thermal and chemical requirements. Dry storage casks typically hold about 20 fuel assemblies and are cooled by natural circulation. There has not been any significant radioactive release from used nuclear fuel in dry cask storage.

10:15 am – 10:45 am Storage pool for spent fuel

Following the Dry Unloading, we will see the storage pools for spent fuel at Orano group headquarters for recycling activities. The La Hague site offers its French and foreign customers a solution for them to re-use 96% of recoverable materials contained in the used nuclear fuel and safely conditioning the remaining 4% final waste.

Orano La Hague has 58 reactors, and the facility works in many other countries including Germany, Japan, Switzerland, Belgium, the Netherlands and Italy.

11:00 am – 11:30am Vitrification facility

Along the tour we will also learn about vitrification, and why it is important. Vitrification is the mixing of liquid radioactive wastes with glass-forming materials that are then heated using a high-temperature melting process. The process incorporates the waste into the glass itself that is then poured into canisters where it is allowed to solidify and cool.

11:45 am -12:30 pm Tour of the Control Room of UP3 plant

Our tour will end with a visit to the Control Room of the UP3 plant. This room is used as the main control center in the plant. The plant operating supervisor and senior operating personnel operate and monitor major plant equipment.

We will see the entire room, including equipment indicators and controls that are organized by system. We will view the Annunciators (small windows) with a sound alarm that are placed above the control board or at the top part of the control board. The plant computer is also used to provide alarms alerting the operator to problems.

- 12:30 pm – 1:30 pm Lunch Discussion with Frederic Leconte, a senior official of the Orano La Hague facility
- 2:42 pm – 6:01 pm Train from Cherbourg to Paris, Saint Lazare

Mr. John “Jack” Boyd
Office of the Honorable Claudia Tenney
2230 Rayburn House Office Building
Washington, DC 20515

Dear Mr. Boyd:

Pursuant to House Rule 25, clause 5(d)(2), the Committee on Ethics hereby approves your proposed trip to France,¹ scheduled for April 21 to 25, 2025, sponsored by Foundation for Nuclear Studies.

You must complete an Employee Post-Travel Disclosure Form (which your employing Member must also sign) and file it, together with a Sponsor Post-Travel Disclosure Form completed by the trip sponsor, with the Clerk of the House within 15 days after your return from travel. As part of that filing, you are also required to attach a copy of this letter and both the Traveler and Primary Trip Sponsor Forms (including attachments) you previously submitted to the Committee in seeking pre-approval for this trip. If you are required to file an annual Financial Disclosure Statement, you must also report all travel expenses totaling more than \$480 from a single source on the “Travel” schedule of your annual Financial Disclosure Statement covering this calendar year. Finally, Travel Regulation § 404(d) also requires you to keep a copy of all request forms and supporting information provided to the Committee for three subsequent Congresses from the date of travel.

Because the trip may involve meetings with foreign government representatives, we note that House employees may accept, under the Foreign Gifts and Decorations Act (FGDA), gifts “of minimal value [currently \$480] tendered as a souvenir or mark of courtesy” by a foreign government. Any tangible gifts valued in excess of minimal value received from a foreign government must, within 60 days of acceptance, be disclosed on a Form for Disclosing Gifts from Foreign Governments and either turned over to the Clerk of the House, or, with the written approval of the Committee, retained for official use.

¹ Please be aware that the Committee’s review of the proposed trip does not extend to either the security situation in the destination country or security related to foreign travel in general. We recommend you contact the Office of House Security (OHS) for a safety and security briefing prior to your departure. OHS may be reached at (202) 226-2044 or ohsstaff@mail.house.gov. House travelers should also register for the U.S. State Department’s Smart Traveler Enrollment Program at <https://step.state.gov>.

If you have any further questions, please contact the Committee's Office of Advice and Education at extension 5-7103.

Sincerely,

Michael Guest
