No Patient Left Behind (NPLB), founded in 2020, is a bipartisan 501(c)(3) educational nonprofit dedicated to advancing biomedical affordability and innovation. Our coalition of innovators, investors, economists, healthcare professionals, and patients produces rigorous, independent research and engaging educational materials to inform policy and public understanding.

This trip provides congressional staff with a unique opportunity to gain firsthand insight into the innovation, challenges, and economic impact of one of the nation's leading biotech hubs. Participants will learn how federal policies on FDA regulations, drug pricing, intellectual property, and research funding directly affect small biotech companies—knowledge that can help Congress craft laws that foster innovation while ensuring patient access.

The trip will be organized and guided by the No Patient Left Behind team, who will accompany staff throughout all site visits in Boston.
