EMPLOYEE POST-TRAVEL DISCLOSURE FORM Original Amendment

This form is for disclosing the receipt of travel expenses from private sources for travel taken in connection with official duties. This form does not eliminate the need to report privately-funded travel on the annual *Financial Disclosure Statements* of those employees required to file them. In accordance with House Rule 25, clause 5, **you must complete this form and file it with the Clerk of the House by email at gifttravelreports@mail.house.gov, within 15 days after travel is completed.** Please *do not* file this form with the Committee on Ethics.

NOTE: Willful or knowing misrepresentations on this form may be subject to criminal prosecution pursuant to 18 U.S.C. § 1001.

1. Name of Traveler: Timia Crisp
2. a. Name of Accompanying Relative: _____ *OR* None
b. Relationship to Traveler: Spouse Child Other (specify): _____
3. a. Dates: Departure: April 5, 2026 Return: April 10, 2026
b. Dates at Personal Expense, if any: _____ *OR* None
4. Departure City: Dulles, IAD Destination: Paris, FR Return City: Dulles IAD
5. Sponsor(s), Who Paid for the Trip: Foundation for Nuclear Studies
6. Describe Meetings and Events Attended: Toured two facilities specializing in nuclear energy; an equipment manufacturing plant and a uranium enrichment facility.
7. Attached to this form are *each* of the following, *signify that each item is attached by checking the corresponding box*:
 - a. a completed *Sponsor Post-Travel Disclosure Form*;
 - b. the *Primary Trip Sponsor Form* completed by the trip sponsor *prior* to the trip, *including all* attachments *and* the *Additional Sponsor Form(s)*;
 - c. page 2 of the completed *Traveler Form* submitted by the employee; *and*
 - d. the letter from the Committee on Ethics approving my participation on this trip.
8. a. I represent that I participated in each of the activities reflected in the attached sponsor's agenda. *Signify statement is true by checking the box.*
b. If not, explain: The planned government meeting described in the draft agenda on 4/6 did not occur since it was a bank holiday and government offices were closed. (See attached revised agenda.)
I was unable to attend the laboratory tour on 4/8 due to a processing error related to my security information that was submitted to the facility.

I certify that the information contained on this form is true, complete, and correct to the best of my knowledge.

Signature of Traveler:  Date: 20 APR 2026

I authorized this travel in advance. I have determined that all of the expenses listed on the attached *Sponsor Post-Travel Disclosure Form* were necessary and that the travel was in connection with the employee's official duties and would not create the appearance that the employee is using public office for private gain.

SPONSOR POST-TRAVEL DISCLOSURE FORM

Original Amendment

This form must be completed by an officer of any organization that served as the primary trip sponsor in providing travel expenses or reimbursement for travel expenses to House Members, officers, or employees under House Rule 25, clause 5. **A completed copy of the form must be provided to each House Member, officer, or employee who participated in the trip within 10 days of their return.** You must answer all questions, and check all boxes, on this form for your submission to comply with House Rules and the Committee's Travel Regulations. Failure to comply with this requirement may result in the denial of future requests to sponsor trips and/or subject the current traveler to disciplinary action or a requirement to repay the trip expenses.

NOTE: Willful or knowing misrepresentations on this form may be subject to criminal prosecution pursuant to 18 U.S.C. § 1001.

1. Sponsor(s) who paid or provided in-kind support for the trip: Foundation for Nuclear Studies

2. Travel Destination(s): Paris, France

3. Date of Departure: April 5, 2026 Date of Return: April 10, 2026

4. Name(s) of Traveler(s): See list attached.

Note: You may list more than one traveler on a form only if **all** information is **identical** for each person listed.

5. **Actual amount** of expenses paid on behalf of, or reimbursed to, each individual named in Question 4:

	Total Transportation Expenses	Total Lodging Expenses	Total Meal Expenses	Total Other Expenses (dollar amount per item and description)
Traveler	\$5,204	\$1567	\$1535	\$1202
Accompanying Family Member	NA	NA	NA	NA

6. All expenses connected to the trip were for actual costs incurred and not a *per diem* or lump sum payment. Signify statement is true by checking box.

I certify that the information contained in this form is true, complete, and correct to the best of my knowledge.

12. Sponsor interest in the subject matter of the trip

The Foundation for Nuclear Studies is a non-profit 501 (c)(3) organization that educates and informs policymakers and their staff about nuclear energy, science and technology. France is a world leader in nuclear energy production, treatment and recycling of spent nuclear fuel, and a major exporter of heavy-duty nuclear equipment. FNS endeavors to show French nuclear operations as a model for future energy production, recycling, and manufacturing for the US to achieve its carbon reduction and climate goals. FNS is the sole organizer and sponsor and will arrange all logistics and educational programming for the trip.

2026 Congressional Staff Delegation to France

Organized and supported by the Foundation for Nuclear Studies 501 (c) (3)

Paris, St. Marcel and Avignon France

April 5-10, 2026

MISSION GOALS: The goal of this trip is to introduce Congressional staff who work on energy and environment issues to the way other countries, in this case France, work with nuclear energy. France is a world leader in recycling spent fuel, deconstructing nuclear components and extracting energy, enriching Uranium for fuel, and manufacturing the heavy equipment used for nuclear plants all around the world. The goal of the trip is to understand how the U.S. can adopt some of these systems and technologies to be more competitive in the global market.

RELEVANCE TO OFFICIAL DUTIES: The subject matter of this trip is important to energy/environment staff advising their Members of Congress on future legislation concerning nuclear projects at home in the U.S. and how the U.S. can be a global leader in this space.

LOCATION: The purpose of travelling to France is that it is the only country engaging in recycling and reclaiming spent fuel and is a leader in enriching uranium. The facilities we will tour are a model for future projects in the U.S. including Orano's **Project Ike**, announced in January 2026, that will enrich uranium at Oak Ridge National Lab in Tennessee.

MONDAY, APRIL 6 TRAVEL CONT.:

9:00-10:00 AM Transfer by bus to hotel: Courtyard Marriott Gare de Lyon, 209-211 Rue de Bercy, 75012 Paris, France. **EARLY CHECK IN HAS BEEN ARRANGED.**

~~11:00-1:00 PM Meeting followed by lunch with Nick Sherman Deputy Head of Division for Nuclear Technology Development and Economics, OECD Nuclear Energy Agency (NEA).~~

12:00-2:00 PM Open House Style Buffet Lunch Courtyard Foyer Lounge

Monday is a bank holiday in Paris and government offices will be closed preventing our speaker from attending so we have therefore canceled the previously planned meeting. Instead, we will have a casual open-house style buffet lunch in the Courtyard foyer lounge from 12-2pm. Come and meet other attendees and make a plan to see a bit of Paris in the afternoon.

7:00-9:00 PM Dinner with guest speaker

Presenter: Tom Deponty, Framatome

Location: Le Train Bleu, Gare de Lyon, Pl. Louis Armand Hall 1, 75012 Paris, France
(Located in nearby train station, walking distance from hotel)

Tom will provide an overview of what participants will see and learn on the tour of the Saint Marcel facility. He will discuss Framatome's relationship to the French government and their place in the global nuclear market.

9:00 PM Return to hotel

TUESDAY, APRIL 7:

6:45 -7:15 AM Breakfast on your own at hotel

7:15 AM Walk to Paris Gare de Lyon train station

7:52 – 9:12 AM Depart Paris on TVG train to Le Creusot arriving 9:12 AM

9:12 -9:45 AM Transfer by bus to Framatome's Saint-Marcel site, Rue Louis Alphonse POITEVIN, ZI Portu Aire Sud – Zone F 71380 Saint Marcel

Framatome's Saint-Marcel site assembles the heavy Equipment (vessels, steam generators, pressurizers) that comprise the primary loop of nuclear reactors. The plant assembles most of the heavy Equipment for the French nuclear industry's reactors between 900 MW and 1,600 MW capacity. This facility is important for the Congressional staff to see because the U.S. endeavors to manufacture similar equipment domestically to serve the U.S. and global markets.

10:00 -10:15 AM Welcome and process through security

10:15-11:00 AM Overview of the facility's operations and safety briefing
Presenter: Peggy Lucas, Director of Site Visits, Framatome

11:00 -1:15 PM Facility tour (elements broken down below)
Presenter: Peggy Lucas, Director of Site Visits

The plant is at the heart of the manufacturing chain for nuclear steam supply systems (NSSS). The basic activities performed at Chalon/St. Marcel are metalworking and heavy machining. These activities are carried out in strict compliance with nuclear safety rules. The availability of all these skills, brought together on a single site and applied to heavy NSSS components, allows Chalon/St. Marcel undeniable advantages in terms of quality and competitiveness.

The delegation will tour the Chalon-St Marcel Manufacturing Shop floor of roughly 40,000 square meters of workshops. This will be an active walking tour with stops at the following locations to view key aspects of the manufacturing process.

11:00 – 11:45 AM Welding School – Training area for highly skilled component welding

11:45 – 12:15 PM Three active work bays:

- Light bay (50 tons) – Preparation of parts in light span
- Medium bay (350 tons) – Gradual assembly of components
- Heavy bay (600 tons) – Final assembly of large components with direct access to the shipping dock

12:15 – 12:45 PM Framatome Technical School – Tour participants will learn how research and development is conducted on the manufacturing process to maintain the utmost degree of excellence and efficiency.

12:45– 1:00 PM Multimodal Shipping Platform – Finished components are loaded onto transport ships to be moved down the Seine River. Tour concludes.

1:15 – 2:15 PM On site lunch debrief and Q&A

Presenter: Matthieu Cazalet, Director of Market Strategy, Framatome Projects & Components Manufacturing. Mr. Cazalet will provide a review of what participants saw on the tour and answer questions.

2:30 – 2:45 PM Bus transfer to Le Creusot train station

3:15 – 5:06 PM Train to Avignon, change trains in Lyon

5:15 – 6:15 Bus transfer to Hotel de Cambis, 89 Rue Joseph Vernet, 84000 Avignon. Check in and store bags.

6:45 PM Walk to dinner venue

7:00-9:00 PM Working dinner with guest speaker

Presenter: Corinne Spilios: Senior Executive Vice President, Recycling Business Unit, Orano

Location: Le Carré du Palais, 1 Place du Palais, 84000 Avignon

Ms. Spilios will discuss how Orano became a world leader in recycling used fuel and how the Orano Melox recycling plant at Marcoule produces MOX fuel assemblies made from a blend of uranium oxide and plutonium developed from spent fuel. This talk will provide context for what participants will see the next morning on the tour.

9:00PM Return to hotel

WEDNESDAY, APRIL 8:

7:00 – 8:00 AM Working breakfast at hotel

Presenter: Alexander Hoppes, VP Public Affairs, Orano

Mr. Hoppes will provide an overview of how legacy equipment is brought to Marcoule, mined for excess energy particles and then reprocessed to make fuel for light water reactors. He will give an overview of Orano's Marcoule plant operations and what participants will see on the tour.

8:00 AM Bus Transfer to Marcoule Site CEA/ISEC

9:00 -10:00 AM Welcome, overview and safety briefing with representatives from French Alternative Energies, Atomic Energy Commission, and Science & Technology Institute for a Circular Economy of Low Carbon Energy (CEA/ISEC). CEA/ISEC is a world-class nuclear and fuel cycle R&D organization embedded at the Marcoule site to support safety, waste management, and the French Navy's nuclear propulsion systems.

Presenter: Hélène Nonnet (Hubert), PhD, R&D project manager for nuclear waste management and innovation/valorization officer, CEA/ISEC.

Ms. Nonnet will brief participants on Marcoule's CEA/ISEC project. Created in 1955 and a pioneer in France's nuclear industry history, this site performs research and development of the nuclear fuel cycle including spent fuel processing and recycling and radioactive waste management. Other areas of R&D activity include development of the fuel cycle for future nuclear systems, as well as research in support of

industrial partners. The centre is the world's largest facility for the study of dismantling nuclear facilities and legacy waste retrieval.

10:00 -11:45AM Tour of CEA facilities

Presenter: Thomas Berki, Research Engineer, CEA Marcoule

Mr. Berki will show participants the G1/G2 Reactor Buildings and INFODEM which showcase CEA's decommissioning strategies, technical methods, and information on the uranium/plutonium fuel cycle.

12:00 -1:00 PM Working lunch on site

Presenter: Patrice Risch, Interim Senior Executive Vice President of the Dismantling & Services Business Unit, Orano

Mr. Risch will outline the global market for technologies to decommission and dismantle nuclear facilities and equipment. He will offer insight on how this technology could be used in the U.S. to safely dismantle legacy fleet operations.

1:10 PM Transfer by bus to Hotel de Cambis, 89 Rue Joseph Vernet, 84000 Avignon

7:00-9:00 PM Dinner with guest speaker

Presenter: Annan Blandine, Mining, Conversion and Enrichment Sales, Orano

Location: Numéro 75, 75 Rue Guillaume Puy, 84000 Avignon, France

Mr. Blandine will preview the next day's tour by providing an overview of Orano's Uranium Conversion and Enrichment operations. He will discuss the need for countries other than Russia to provide uranium enrichment to increase supply for a burgeoning market.

9:00PM Return to hotel

THURSDAY, APRIL 9

7:00-8:00AM Working breakfast briefing at hotel

Presenter: Alexander Hoppes, VP Public Affairs, Orano

*Mr. Hoppes will provide an overview of commercial uranium enrichment activities in the global market. Introduction of Orano's **Tricastin** plant operations including uranium conversion, fluorine chemistry, and enrichment, and how it is relevant to U.S. policy considerations.*

8:05 AM Transfer by bus to Orano Tricastin Site, 26130 Pierrelatte, France

9:00 - 9:45 AM Welcome, Orano Georges Besse II enrichment plant, overview, safety briefing

Presenter: Francois Lurin, SVP of Chemistry and Enrichment, Orano

10:00 -11:45 AM Tour of Orano Georges Besse II facility

Presenter: Francois Lurin, SVP of Chemistry and Enrichment, Orano

Orano carries out the chemistry (conversion, defluorination and denaturation) and uranium-enrichment activities on site. The Georges Besse II facility uses proven centrifuge technology to produce 7.5M SWU annually for customers across the world (including the U.S.). GBII serves ~12% of enrichment market, and the plant is representative of the facility Orano intends to build at Oak Ridge, TN. The group will visit exterior of cascade halls and control room and have a demonstration of modular design across two constructed units. GBII is under active construction for capacity expansion (launched October 2023 in response to global re-orientation away from Russian supply), and the group will review progress of extension, investment, timing of construction on-site.

12:00 -1:15 PM On site lunch discussion and debrief to review the plant tour and offer Q&A for participants about commercial front end nuclear fuel cycle topics.

Presenter: Francois Lurin, SVP of Chemistry and Enrichment, Orano

1:30 PM Bus transfer to Avignon TVG train station

2:00 – 4:40 PM Train back to Paris (travel time 2 hours 40 minutes). Walk to hotel.

5:00 PM Check in at Marriott Courtyard, Gare de Lyon, 211 Rue de Bercy, 75012 Paris

7:00 – 9:00 PM Farewell dinner and closing presentation

Presenter: Giulia Bisconti, Energy Attaché, Department of Energy, US Mission to the OECD

Location: Bofinger, 5-7 Rue de la Bastille, 75004 Paris, France

The United States works through the OECD to advance support for economic innovations and standards among publics in OECD member states, to advance shared values and interests, and to help set a welcoming business environment for U.S. firms wherever OECD best practices and recommendations are adopted.

9:00 PM Return to hotel

Ms. Timia Crisp McClain
Committee on Energy & Commerce
2323 Rayburn House Office Building
Washington, DC 20515

Dear Ms. Crisp McClain:

Pursuant to House Rule 25, clause 5(d)(2), the Committee on Ethics hereby approves your proposed trip to France,¹ scheduled for April 5 to 10, 2026, sponsored by the Foundation for Nuclear Studies.

You must complete an Employee Post-Travel Disclosure Form (which your employing Member must also sign) and file it, together with a Sponsor Post-Travel Disclosure Form completed by the trip sponsor, with the Clerk of the House within 15 days after your return from travel. As part of that filing, you are also required to attach a copy of this letter and both the Traveler and Primary Trip Sponsor Forms (including attachments) you previously submitted to the Committee in seeking pre-approval for this trip. If you are required to file an annual Financial Disclosure Statement, you must also report all travel expenses totaling more than \$525 from a single source on the "Travel" schedule of your annual Financial Disclosure Statement covering this calendar year. Finally, Travel Regulation § 404(d) also requires you to keep a copy of all request forms and supporting information provided to the Committee for three subsequent Congresses from the date of travel.

Because the trip may involve meetings with foreign government representatives, we note that House employees may accept, under the Foreign Gifts and Decorations Act (FGDA), gifts "of minimal value [currently \$525] tendered as a souvenir or mark of courtesy" by a foreign government. Any tangible gifts valued in excess of minimal value received from a foreign government must, within 60 days of acceptance, be disclosed on a Form for Disclosing Gifts from Foreign Governments and either turned over to the Clerk of the House, or, with the written approval of the Committee, retained for official use.

¹ Please be aware that the Committee's review of the proposed trip does not extend to either the security situation in the destination country or security related to foreign travel in general. We recommend you contact the Office of House Security (OHS) for a safety and security briefing prior to your departure. OHS may be reached at (202) 226-2044 or ohsstaff@mail.house.gov. House travelers should also register for the U.S. State Department's Smart Traveler Enrollment Program at <https://step.state.gov>.

If you have any further questions, please contact the Committee's Office of Advice and Education at extension 5-7103.

Sincerely,

Michael Guest

Dear Congressional Staff Colleague,

Because you have nuclear energy policy in your portfolio or work for a Committee of Jurisdiction or Member of Congress on a Committee of Jurisdiction, the Foundation for Nuclear Studies (FNS) invites you to participate in an educational trip to France to learn about French nuclear operations. France is a world leader in nuclear and a model for the U.S. as we strive to increase nuclear energy production, manage spent fuel, and grow our exports of nuclear technology and equipment.

Due to its commitment to using nuclear early on, France derives 80% of its electricity from nuclear energy. France is a leader in reprocessing spent fuel and also has uranium enrichment operations critical to the nuclear energy fuel supply chain. Lastly, France manufactures special heavy equipment not made anywhere else and is a leading exporter of nuclear components, something the U.S. strives to compete in.

The draft agenda for the trip is attached. Our first stop will be [Framatome's Chalon Saint Marcel](#) facility where they manufacture all the heavy components for French pressurized water reactors and are a world export leader in component manufacturing. Next, we head to Avignon where we will tour [Orano's Tricastin](#) facility to learn about Uranium Enrichment. Then we head to Orano's nearby Marcoule facility where they produce [Mox fuel](#) assemblies which supply light water reactors for electricity production. Marcoule is also an integral part of the world's largest nuclear [dismantling project](#). We will end each day with an educational briefing by nuclear experts, plant officials and government representatives.

FNS was founded in 2001 to educate and inform policymakers and their staff about nuclear science and technology. We achieve this through educational briefings, seminars, 20-1 discussions with government officials, and plant tours. You will come away from this trip with an understanding of how France became the world leader in nuclear and how the U.S. can learn from and cooperate with French industry to advance our nuclear program and meet our ambitious carbon reduction and climate goals.

If you have any questions or require more information, please call me at 202-744-6077. Thank you for your interest in nuclear and FNS.

Kind regards,
