12. For each sponsor required to submit a sponsor form, describe the sponsor's interest in the subject matter of the trip and its role in organizing and/or conducting the trip:

SEEC Institute's interest in the subject matter of the trip is rooted in our mission to advance congressional education around climate, clean energy, environmental resilience, and economic opportunity. The Kentucky trip is designed to help participants better understand how climate and energy issues intersect with agriculture, rural economies, reclamation, water quality, cultural storytelling, and community resilience across the state.

SEEC Institute is serving as the sponsor and organizer of the trip, responsible for developing the trip agenda, identifying and coordinating site visits, inviting and preparing participants and speakers, managing trip logistics, and facilitating discussions throughout the program. SEEC Institute's role is educational and convening in nature: the organization is bringing participants into direct conversation with local leaders, practitioners, experts, and community representatives so they can learn firsthand about Kentucky's climate, energy, and economic transition work.
