Ms. Waverly Gordon
Committee on Energy & Commerce
2323 Rayburn House Office Building
Washington, DC 20515

Dear Ms. Gordon:

Pursuant to House Rule 25, clause 5(d)(2), the Committee on Ethics hereby approves your proposed trip to Minneapolis, Minnesota, and Brookings and Sioux Falls, South Dakota, scheduled for August 24 to 27, 2026, sponsored by EFI Foundation.

You must complete an Employee Post-Travel Disclosure Form (which your employing Member must also sign) and file it, together with a Sponsor Post-Travel Disclosure Form completed by the trip sponsor, with the Clerk of the House within 15 days after your return from travel. As part of that filing, you are also required to attach a copy of this letter and both the Traveler and Primary Trip Sponsor Forms (including attachments) you previously submitted to the Committee in seeking pre-approval for this trip. If you are required to file an annual Financial Disclosure Statement, you must also report all travel expenses totaling more than \$525 from a single source on the "Travel" schedule of your annual Financial Disclosure Statement covering this calendar year. Finally, Travel Regulation § 404(d) also requires you to keep a copy of all request forms and supporting information provided to the Committee for three subsequent Congresses from the date of travel.

If you have any further questions, please contact the Committee's Office of Advice and Education at extension 5-7103.

Sincerely,

Michael Guest
Chairman

Mark DeSaulnier

Subject: Invitation — Energy in Practice: A Midwest Tour of Clean Fuels and Electricity Infrastructure | August 24–27, 2026

EFI Foundation is pleased to extend a formal invitation to join us for a program in Minnesota and South Dakota this August:

Energy in Practice: A Midwest Tour of Clean Fuels and Electricity Infrastructure

August 24–27, 2026 | Minneapolis, MN to Sioux Falls, SD

Organized and funded by the [EFI Foundation](#), a 501(c)(3) organization

Relevance to Official Duties

The subject matter of this program is directly relevant to congressional staff whose work involves energy, agriculture, and environmental policy. Topics covered across site visits, briefings, and working dinners will include the Renewable Fuel Standard, the 45Z clean fuel production credit, agricultural conservation programs under the farm bill, clean energy tax provisions, and electricity infrastructure — all areas that fall within the legislative jurisdiction of Congress and may be subject to upcoming authorization, appropriations, or oversight activity. EFI Foundation Founder and CEO Ernest J. Moniz will participate throughout the program.

Program Overview

All scheduled time during this program will be devoted to officially connected activity.

I have attached a preliminary itinerary for your reference. All site visits are confirmed; dinner speakers are still being finalized. Please treat this document as **confidential and do not share it.**

Participants will engage with facility operators, utility executives, state regulators, former federal officials, and regional energy experts at a series of operating facilities in western Minnesota and South Dakota:

- **Xcel Energy Sherco Energy Hub** (Becker, MN): A coal campus in transition to a multi-technology clean energy hub, including large-scale solar, long-duration iron-air battery storage, and a new 170-mile high-voltage transmission line. Discussion will examine how transmission investment and storage enable coal capacity replacement and how workforce transition policy is being implemented in coal-dependent communities.

- **POET Bioprocessing** (Big Stone City, SD and Chancellor, SD): Two corn ethanol biorefineries, including a first-of-kind commercial deployment of Antora Energy's thermal battery technology displacing natural gas in the production process, and a facility whose low carbon intensity score has opened premium export markets largely independent of domestic federal mandates. Discussion will address how carbon intensity scoring and federal clean fuel provisions are reshaping competitive dynamics for domestic ethanol producers.
- **T&R Electric Supply Co.** (Colman, SD): The nation's largest supplier of remanufactured distribution and power-class transformers. Discussion will address how transformer supply chain constraints — with new-manufacturer lead times now stretching two to three years — are limiting grid expansion and the connection of new generation.
- **Low-Carbon Agricultural Practices** (Turner County, SD): A working corn farm implementing USDA-supported conservation practices, including cover cropping, reduced tillage, and precision nutrient management. Discussion will focus on how federal farm bill programs shape on-farm decision-making and upstream carbon intensity outcomes.
- **Tri-Cross Dairy Renewable Natural Gas Facility** (Viborg, SD): A dairy operation producing approximately one million gallons of pipeline-quality RNG annually. Discussion will examine how livestock methane capture projects are structured and financed, and how negative-carbon fuel pathways from agricultural operations could scale across the region.

Working dinners in Brookings and Sioux Falls will bring together state legislators, regulators, former federal officials, and regional energy and agriculture experts to examine how federal policy is translating into investment decisions and operational outcomes across the Midwest. The program concludes with a structured staff debrief. Approximately one week following the trip, EFI Foundation will convene a follow-on session in Washington, D.C. to synthesize observations with the full group of participating staff.

Logistics

Participants will depart DCA on the afternoon of Monday, August 24, and return to DCA on the evening of Thursday, August 27. All transportation, accommodations, and meals during the program will be provided by EFI Foundation in accordance with federal per diem rates.

Ethics

This trip has been reviewed and cleared through the congressional ethics process. Given those requirements, we ask that you not forward this invitation or recommend a colleague as a substitute participant.

To confirm your participation or ask any questions, please contact me directly at bdowdy@efifoundation.org. We ask that you respond by June 17, 2026.

Upon confirmation, we will share access to a private website that will include the full itinerary and a checklist of documents required for the ethics approval process.

We look forward to having you with us.

Sincerely,

Energy in Practice: A Midwest Tour of Clean Fuels and Electricity Infrastructure

With financial support from unrestricted funding for the EFI Foundation, 501(c)(3)

South Dakota and Minnesota

August 24-27, 2026

MISSION GOALS: The goal of this trip is to connect congressional staff with the realities of clean energy deployment across industrial supply chains in the Midwest. EFI Foundation will facilitate site visits to ethanol biorefineries, corn farms, a dairy-based renewable natural gas facility, and electricity infrastructure in Minnesota and South Dakota, examining how policy incentives shape real-world operational decisions across agriculture, fuels, and power systems.

RELEVANCE TO OFFICIAL DUTIES: The subject matter of this trip is directly relevant to congressional staff whose work involves energy, agriculture, and environmental policy. Topics of discussion will include, but are not limited to, the Renewable Fuel Standard, clean fuel standards, agricultural conservation programs, clean energy tax provisions, and electricity transmission infrastructure — all areas that fall within the legislative jurisdiction of Congress and may be subject to upcoming authorization, appropriations, or oversight activity.

LOCATION: The purpose of travel to Minnesota and South Dakota is to attend site visits and stakeholder meetings across the eastern region of the state. EFI Foundation will take participants to facilities in Western Minnesota, the Sioux Falls area, Turner County, and northeastern South Dakota.

ITINERARY

FLIGHT INFORMATION

The EFI Foundation will cover the cost of all air travel for trip participants, including the group American Airlines booking that will include most participants. For those traveling from or to destinations outside of Washington, D.C., individual flight itineraries have been arranged.

MONDAY, AUGUST 24: TRAVEL

City Washington, DC → Minneapolis, MN

Hotel Hyatt Centric Downtown Minneapolis
615 Second Avenue South
Minneapolis, MN 55402

Emergency contact Tatiana Bruce da Silva

Schedule

3:50 PM EDT Flight AA 4785 scheduled to depart from DCA. Meet at gate before boarding.

5:45 PM CDT	<i>Arrive at MSP (Minneapolis—St. Paul Regional Airport)</i> <i>Take EFIF-ordered Ubers to hotel</i> <i>Check into Hyatt Centric Downtown Minneapolis</i>
~7:30 PM CDT	<i>We are offering an informal dinner at the hotel after everyone gets settled, which is not mandatory/part of programming but is still open to all. If you would prefer to dine separately, reimbursement is available up to the official per diem rate (\$38). Please note that reimbursement requires submitting a W9.</i>

TUESDAY, AUGUST 25: ETHANOL & RURAL ELECTRIC (NORTHERN LOOP)

City	Minneapolis, MN → Brookings, SD
Sites	<i>Xcel Energy Sherco Energy Hub</i> 14300 Sherco Dr Becker, MN 55308 <i>POET Bioprocessing – Big Stone City</i> 48416 144th St Big Stone City, SD 57216
Hotel	Comfort Suites University 929 25th Avenue Brookings, SD 57006
Emergency contact	Tatiana Bruce da Silva

Schedule

All times in CDT

6:30 AM	<i>Hyatt's on-site SIX15 Bar and Restaurant opens.</i> <i>Complimentary breakfast will be available for all bootcamp participants.</i>
7:00 AM	<i>Bring luggage to lobby.</i>

7:15 AM

Pre-Trip Site Briefing

Board motorcoach and drive to Xcel's Sherco Energy Hub (~1 hour).

EFI Foundation staff will provide an overview of the facilities to be visited during the trip, key policy issues associated with clean fuels and electricity infrastructure, and a framework for evaluating the operational, economic, workforce, and regulatory considerations discussed throughout the program. Participants will discuss questions and policy topics they intend to examine during site visits.

8:30 – 10:00 AM

Site Visit: Xcel Energy Sherco Energy Hub – Becker, MN

Participants will tour Xcel Energy's Sherburne County Generating Station (Sherco) campus as the site transitions from one of the Midwest's largest coal facilities to a multi-technology clean energy hub. Three coal units totaling approximately 2,400 MW are being retired on a phased schedule (Unit 2 retired December 2023; Units 1 and 3 retiring 2026 and 2030), with replacement capacity that includes 710 MW of solar across three project phases — the largest solar development in the Upper Midwest — a 10 MW / 1,000 MWh Form Energy iron-air long-duration battery storage system, 300–600 MW of short-duration battery storage, and a new 170-mile high-voltage transmission line.

Discussion will examine how transmission investment and long-duration storage are enabling the practical replacement of coal capacity, and how the site's worker transition plan — including a no-layoff pledge for existing employees — addresses workforce policy challenges in coal-dependent communities.

Presenter: Brian Behm, Senior Director; Jamie Smith, Business Process Specialist; Trystin Artiga, Manager, Renewable Operations; Luke Molus, Senior Manager, Operations; Michelle Schmitz, Manager, Operations

10:15 AM

Pick up lunch from Dueling Brews

10:30 AM

Drive ~2.5 hours to Big Stone. Eat lunch on the bus.

1:30 – 3:30 PM

Tour and Briefing: POET Bioprocessing – Big Stone City

Participants will tour POET's 105-million-gallon-per-year corn ethanol biorefinery and receive a briefing on the facility's integration with Otter Tail Power and Antora Energy's thermal battery technology. Antora's system uses electricity to heat solid carbon blocks, storing energy as heat that generates steam piped directly into POET's ethanol production process — displacing the natural gas that would otherwise provide that process heat. Discussion will examine what it takes to deploy first-of-kind clean energy technology at commercial industrial scale — including how private capital, utility partnerships, and carbon market incentives aligned to make this project viable without a direct federal mandate driving the investment.

Presenters: Blaine Gomer, General Manager, POET Bioprocessing – Big Stone City

3:30 – 5:30 PM *Drive ~2 hours to hotel and check in.*

6:45 PM *Meet in the lobby and drive to Good Roots Farm.*

7:00 – 9:00 PM **Working Dinner: Low-Carbon Energy Technology, Local Investment & State Policy (Brookings)**

This dinner will examine the role of state universities and research institutions in bridging the gap between laboratory innovation and commercial-scale deployment, and what that pipeline means for local economic development — exploring how academic research partnerships, industry collaboration, and regional investment are turning emerging clean energy technologies into operating facilities and jobs.

Speakers:

1. Joshua Livermore, Ph.D.

- President/CEO, Dakota BioWorx:
<https://www.dakotabioworx.org/teams>
- Focus on translating scientific innovation into commercial-scale technologies — with direct experience leading strategy, bioprocess development, and commercialization at Formo, where he helped transform precision fermentation IP into manufacturing-ready platforms through cross-functional leadership spanning R&D, scale-up, and regulatory strategy.
- Strongest operating lead tied to technology commercialization, industrial scale-up, and strategic evaluation of emerging technologies.

2. Stephen Gent

- Professor and Director, North Central Regional Sun Grant Center, Mechanical Engineering, SDSU
- Focus on how federally funded university research programs translate into regional energy and agricultural innovation, with direct experience leading the Sun Grant initiative, which connects land-grant universities across the region to advance bioenergy and bioproducts research from the lab to commercial application.
- Strong academic voice on the research-to-market pipeline and the role of federal investment in sustaining regional innovation ecosystems.

The entirety of the allotted time for the working dinner will be spent covering officially-connected activity.

Schedule

All times in CDT

6:00 AM *Hotel complimentary breakfast opens.*

8:00 AM *Bring luggage to lobby, board, and leave for T&R Electric.*

9:00 – 10:30 AM **Site Visit: T&R Electric Supply Co., Inc. – Colman**
Participants will tour T&R Electric Supply Co., Inc., the nation's largest supplier of remanufactured distribution and power-class transformers, operating a 61-acre campus with 221,000 square feet of manufacturing space and an inventory of 42,000 units. Discussion will focus on the critical role of transformer availability in grid expansion — including the connection of new wind generation and large industrial loads such as ethanol biorefineries — and how post-COVID supply chain disruptions, with new-manufacturer lead times now stretching two to three years, are straining utilities' ability to grow and maintain the grid.
Presenter: Ryan Schneider, Chief Electrical Engineer; Keaton Westover, VP of Sales/Executive Management; Shane Roth, VP of Operations/Executive Management

10:30 AM *Drive ~1 hour to Chancellor, SD.*

11:30 – 2:00 PM	Tour and Working Lunch: POET Bioprocessing – Chancellor Participants will tour POET's 125-million-gallon-per-year corn ethanol biorefinery and receive a briefing on facility operations, feedstock sourcing, energy inputs, and carbon intensity reduction efforts. Discussion will focus on how carbon intensity scoring is reshaping competitive positioning for ethanol producers — including how Chancellor's low CI profile has opened premium export markets on the West Coast and in Canada that are largely independent of domestic federal mandates. A working lunch will be served on-site. Presenter: Terry Hurlbert, General Manager, POET Bioprocessing – Chancellor <u>The entirety of the allotted time for the working lunch will be spent covering officially-connected activity.</u>
2:15 – 3:15 PM	<i>Drive to Kurt Stiefvater's Farm.</i>
3:15 – 4:45 PM	Low-Carbon Agricultural Practices Site Visit – Salem Participants will visit a local farm implementing USDA-supported conservation practices — including cover cropping and no-till — that lower the carbon intensity of ethanol feedstocks. The farm has ~1,800 acres of corn, soybeans, oats, and sorghum and ~125 heads of cattle. Stiefvater won ASA's 2025 Conservation Legacy Award, and the farm has been featured in soil health research. Presenter: Kurt Stiefvater, owner and 4th generation farmer; Cindy Zenk, Executive Director, SD Soil Health Coalition; James Reedy, P.E., State Conservation Engineer, USDA NRCS South Dakota
5:00 PM	<i>Drive back to Sioux Falls (~1 hour). Check into Country Inn & Suites.</i>
7:15 PM	<i>Meet in the lobby to walk to Chef Lance's on Phillips for dinner.</i>
7:30 – 9:00 PM	Working Dinner: Energy, Agriculture & the Federal Policy Landscape (Sioux Falls) This dinner will bring together former federal officials, state leadership, and regional energy and decarbonization experts to examine how federal energy policy is landing in the Midwest — and what state and regional actors need from Washington to sustain clean energy momentum across agriculture, fuels, and the grid. Speakers: Ernest Moniz - Former U.S. Secretary of Energy and Founder, EFI Foundation Focus on the federal policy landscape for industrial decarbonization, clean fuels, and energy security — and how the tools Congress has available compare to what the private sector and states are actually deploying.

2. **Hunter Roberts**

- o South Dakota Secretary of Agriculture:
<https://governor.sd.gov/office/cabinet.aspx>
- o Focus on how South Dakota's agricultural sector is engaging with clean fuel markets, conservation programs, and the federal policy signals that shape on-farm decision-making, and what the state needs from Congress to keep producers competitive.

3. **Louise Miltich, Executive Vice President, Great Plains Institute**

- o Prior to joining GPI, Louise served as Assistant Commissioner of Regulatory Analysis at the Minnesota Department of Commerce, where she oversaw the Department's work with the Minnesota Public Utilities Commission on regulatory issues.

The entirety of the allotted time for the working dinner will be spent covering officially-connected activity.

THURSDAY, AUGUST 27: RENEWABLE NATURAL GAS, DEBRIEFING, AND TRAVEL

City	Sioux Falls, SD → Washington, DC
Sites	<i>Tri-Cross Dairy Renewable Natural Gas Facility – Viborg</i> 45144 289th Street Viborg, SD 57070
Emergency contact	Tatiana Bruce da Silva

Schedule

All times in CDT, unless otherwise specified

6:00 AM	<i>Hotel complimentary breakfast opens, grab and go options available.</i>
6:50 AM	<i>Bring luggage to lobby and board bus.</i>
7:00 – 8:30 AM	<i>Drive ~1 hour south to Viborg, SD.</i>
8:30 – 10:30 AM	Site Visit: Tri-Cross Dairy Renewable Natural Gas Facility – Viborg Participants will tour Clean Energy Fuels Corp.'s RNG production facility at Tri-Cross Dairy, a 5,000-cow dairy operation that produces approximately one million gallons of pipeline-quality renewable natural gas annually. Discussion will examine how dairy methane capture fits into the broader landscape of agricultural carbon programs — how RNG projects are structured and financed, what they mean for farm economics, and how negative-carbon fuel pathways from livestock operations could scale across the region.

Presenters: Will Flanagan, Vice President of Strategic Development

10:30 AM – 11:30 AM	Congressional Staff Debrief and Working Lunch <i>Drive to Sioux Falls Regional Airport (FSD) (~1 hour).</i> During transit, EFI Foundation staff will facilitate a structured policy synthesis session designed to integrate lessons from the site visits and discussions conducted throughout the program. Participants will compare observations across electricity infrastructure, ethanol production, renewable natural gas, and agricultural conservation practices; examine common themes related to technology deployment, infrastructure needs, workforce development, and market incentives; congressional responsibilities involving energy, agriculture, environmental, tax, and infrastructure policy. The entirety of the allotted time will be spent covering officially connected activity. Participants: Congressional staff; EFI Foundation staff
11:30 AM	<i>Arrive at FSD. Grab lunch.</i>
12:57 PM	<i>Depart FSD on flight AA2872 to Dallas/Fort Worth (DFW)</i>
3:10 PM	<i>Arrive at DFW</i>

9:00 – 10:30 AM

Site Visit: T&R Electric Supply Co., Inc. – Colman

Participants will tour T&R Electric Supply Co., Inc., the nation's largest supplier of remanufactured distribution and power-class transformers, operating a 61-acre campus with 221,000 square feet of manufacturing space and an inventory of 42,000 units. Discussion will focus on the critical role of transformer availability in grid expansion — including the connection of new wind generation and large industrial loads such as ethanol biorefineries — and how post-COVID supply chain disruptions, with new-manufacturer lead times now stretching two to three years, are straining utilities' ability to grow and maintain the grid.

Presenter: Ryan Schneider, Chief Electrical Engineer; Keaton Westover, VP of Sales/Executive Management; Shane Roth, VP of Operations/Executive Management

10:30 AM

Drive ~1 hour to Chancellor, SD.

- 11:30 – 2:00 PM **Tour and Working Lunch: POET Bioprocessing – Chancellor**
- Participants will tour POET's 125-million-gallon-per-year corn ethanol biorefinery and receive a briefing on facility operations, feedstock sourcing, energy inputs, and carbon intensity reduction efforts. Discussion will focus on how carbon intensity scoring is reshaping competitive positioning for ethanol producers — including how Chancellor's low CI profile has opened premium export markets on the West Coast and in Canada that are largely independent of domestic federal mandates. A working lunch will be served on-site.
- Presenter:** Terry Hurlbert, General Manager, POET Bioprocessing – Chancellor
- The entirety of the allotted time for the working lunch will be spent covering officially-connected activity.
- 2:15 – 3:15 PM *Drive to Kurt Stiefvater's Farm.*
- 3:15 – 4:45 PM **Low-Carbon Agricultural Practices Site Visit – Salem**
- Participants will visit a local farm implementing USDA-supported conservation practices — including cover cropping and no-till — that lower the carbon intensity of ethanol feedstocks. The farm has ~1,800 acres of corn, soybeans, oats, and sorghum and ~125 heads of cattle. Stiefvater won ASA's 2025 Conservation Legacy Award, and the farm has been featured in soil health research.
- Presenter:** Kurt and Kathy Stiefvater, owners and 4th generation farmers; Cindy Zenk, Executive Director, SD Soil Health Coalition; James Reedy, P.E., State Conservation Engineer, USDA NRCS South Dakota
- 5:00 PM *Drive back to Sioux Falls (~1 hour). Check into Country Inn & Suites.*
- 7:15 PM *Meet in the lobby to walk to Chef Lance's on Phillips for dinner.*
- 7:30 – 9:00 PM **Working Dinner: Energy, Agriculture & the Federal Policy Landscape (Sioux Falls)**
- This dinner will bring together former federal officials, state leadership, and regional energy and decarbonization experts to examine how federal energy policy is landing in the Midwest — and what state and regional actors need from Washington to sustain clean energy momentum across agriculture, fuels, and the grid.
- Speakers:** Ernest Moniz, Former U.S. Secretary of Energy and Founder, EFI Foundation; Hunter Roberts, South Dakota Secretary of Agriculture

THURSDAY, AUGUST 27: RENEWABLE NATURAL GAS, DEBRIEFING, AND TRAVEL

City Sioux Falls, SD → Washington, DC

Sites *Tri-Cross Dairy Renewable Natural Gas Facility – Viborg*
45144 289th Street Viborg,
SD 57070

Emergency contact Tatiana Bruce da Silva

Schedule

All times in CDT, unless otherwise specified

6:00 AM *Hotel complimentary breakfast opens, grab and go options available.*

6:50 AM *Bring luggage to lobby and board bus.*

7:00 – 8:30 AM *Drive ~1 hour south to Viborg, SD.*

8:30 – 10:30 AM **Site Visit: Tri-Cross Dairy Renewable Natural Gas Facility – Viborg**
Participants will tour Clean Energy Fuels Corp.'s RNG production facility at Tri-Cross Dairy, a 5,000-cow dairy operation that produces approximately one million gallons of pipeline-quality renewable natural gas annually. Discussion will examine how dairy methane capture fits into the broader landscape of agricultural carbon programs — how RNG projects are structured and financed, what they mean for farm economics, and how negative-carbon fuel pathways from livestock operations could scale across the region.

Presenters: Frank Yenchick, Director of Operations; Tyler Betz, Operations Manager

10:30 AM – 11:30 AM **Congressional Staff Debrief and Working Lunch**

Drive to Sioux Falls Regional Airport (FSD) (~1 hour). During transit, EFI Foundation staff will facilitate a structured policy synthesis session designed to integrate lessons from the site visits and discussions conducted throughout the program. Participants will compare observations across electricity infrastructure, ethanol production, renewable natural gas, and agricultural conservation practices; examine common themes related to technology deployment, infrastructure needs, workforce development, and market incentives; congressional responsibilities involving energy, agriculture, environmental, tax, and infrastructure policy. The entirety of the allotted time will be spent covering officially connected activity.

Participants: Congressional staff; EFI Foundation staff

11:30 AM *Arrive at FSD. Grab lunch.*

12:57 PM *Depart FSD on flight AA2872 to Dallas/Fort Worth (DFW)*

3:10 PM *Arrive at DFW*

5:20 PM *Depart DFW on flight AA472 to DCA*

9:27 PM EDT *Arrive at DCA, end of trip*
