SCHEDULE III - ASSETS AND "UNEARNED" INCOME

Name Nick Joe Rahall, II

Page 2 of 7

BLOCK A Asset and/or Income Source		BLOCK B Year-End Value of Asset	BLOCK C Type of Income	BLOCK D Amount of Income	BLOCK E Transaction
Identify (a) each asset held for investment or production of income with a fair market value exceeding \$1,000 at the end of the reporting period, and (b) any other assets or sources of income which generated more than \$200 in "unearned" income during the year. For rental property or land, provide a complete address. Provide full names of stocks and mutual funds (do not use ticker symbols). For all IRAs and other retirement plans (such as 401(k) plans) that are self-directed (i.e., plans in which you have the power, even if not exercised, to select the specific investments), provide the value and income information on each asset in the account that exceeds the reporting threshold. For retirement plans that are not self-directed, name the institution holding the account and its value at the end of the reporting period. For an active business that is not publicly traded, state the name of the business, the nature of its activities, and its geographic location in Block A. For additional information, see the instruction booklet. Exclude: Your personal residence(s) (unless there is rental income); any debt owed to you by your spouse, or by your or your spouse's child, parent or sibling; any deposits totaling \$5,000 or less in personal savings accounts; any financial interest in or income derived from U.S. Government retirement programs. If you so choose, you may indicate that an asset or income source is that of your spouse (SP) or dependent child (DC) or is jointly held (JT), in the optional column on the far left.		at close of reporting year. If you use a valuation method other than fair market value, please specify the method used. If an asset was sold and is included only because it is generated income, the value should be "None."	Type of Income Check all columns that apply. Check "None" if asset did not generate any income during the calendar year. If other than one of the listed categories, specify the type of income by writing a brief description in this block. (For example: Partnership income or Farm Income)	Amount of Income For retirement plans or accounts that do not allow you to choose specific investments, you may write "NA" for income. For all other assets, indicate the category of income by checking the appropriate box below. Dividends, even if reinvested, should be listed as income. Check "None" if no income was earned.	Transaction Indicate if asset had purchases (P), sales (S), or exchanges (E) exceeding \$1,000 in reporting year.

Important Realized Gain/Loss Information

Since each individual taxpayer's treatment can differ and you should consult with your tax advisor as to any additional reporting requirements or adjustments, this information is provided for courtesy purposes only. NO COST BASIS OR REALIZED GAIN/LOSS INFORMATION IS PROVIDED TO THE IRS, NOR IS THIS INFORMATION VERIFIED OR GUARANTEED BY FIRST CLEARING, LLC TO BE ACCURATE FOR EACH TAXPAYER'S UNIQUE REPORTING REQUIREMENTS. THEREFORE, YOU SHOULD NEVER ASSUME THIS STATEMENT IS ACCURATE IN LIEU OF COMPLETING SCHEDULE D OF YOUR TAX RETURN AND CONSULTING WITH YOUR TAX ADVISOR.

Federal tax reporting requirements will create differences between the information presented here and what appears on your Form 1099-B, including but not limited to the following situations:

- Options activity is not reportable on the Form 1099-B, but is included in a separate section of the Realized Gain/Loss Statement. Since options activity may, in some circumstances, be reportable on some clients' tax returns, we have included that information below.
- Cost basis for many fixed income tax lots has been amortized (for securities purchased at a premium) or accreted (for securities purchased at a discount), when possible, for applicable securities. For securities that were purchased at an Original Issue Discount (OID), only those positions whose cost basis has been adjusted will reflect the impacts of the OID accruals on the original cost basis. The original issue discount amount reported on your Form 1099-OID is not adjusted for market discount, acquisition premium or bond premium. Therefore, the amortization and accretion adjustments used on this statement may not be consistent with the Form 1099-OID amount because the reporting requirements on the Form 1099-OID are different.
- The Original Price represents the unadjusted price of the security. The Original Price can be used to calculate the original unadjusted cost of the security.
- Partial return of principal payments are now included on the Form 1099-B because of a new tax reporting regulation applicable to widely held fixed investment trusts (which includes many securities established as a grantor trust), but those payments do not result in cost basis adjustments and frequently no corresponding information appears in this Realized Gain/Loss Statement because the tax lot has not yet closed. Return of capital payments reported on Form 1099-DIV are also not applied to reduction of cost basis.
- Short sales are reportable on Form 1099-B before the position is closed.
- Cash received in lieu of a fractional share are reported on the Form 1099-B will not have a corresponding tax lot on the Realized Gain/Loss Statement.
- Implicit redemptions by the issuer of a structured product are reportable on Form 1099-B, but will not appear on the Realized Gain/Loss Statement if that implicit redemption did not result in a closed tax lot at that time.
- Securities subject to marked to market reporting requirements for those investors are not included here nor is that information available on our systems.
- Sales of securities whose proceeds are less than \$0.01 will not appear in the Realized Gain/Loss Statement since no gain or loss could be calculated. Likewise, securities that were missing cost basis information will not be included because the system could not calculate a difference.
- Treasury Bills that matured prior to late 2007 will be included in the Realized Gain/Loss Statement even though the difference between the original cost and maturity proceeds is reported only on the Form 1099-INT.
- Long-term capital gains reported by a RIC or REIT appears on Form 1099-DIV only, as noted in the instructions for that form.
- Lots closed due to transfers or journals will not be reflected in the Realized Gain/Loss Statement, or on the Form 1099-B.
